I have to advise that new grates are required for the furnace at the Fairford Improved Day School. The old grates are burnt out and new ones are required if the furnace is to operate properly. I have obtained prices from the firm who installed the furnace. Their quotation is $11.50 f.o.b. Fairford, Manitoba. The installation could be made without further cost. Will you please advise if this purchase is authorized.

The attached account covers emergency purchase of cement for the Fairford Indian Day School. It was found necessary to move this school and as this could be done most easily while the snow was on the ground authority was issued for purchasing the cement required for the foundation on the new site. It would be appreciated if you would issue purchase order covering this account. The coding is as follows: 510-76-13-491.

The attached account covers emergency purchase of cement for the Fairford Indian Day School. It was found necessary to move this school and as this could be done most easily while the snow was on the ground authority was issued for purchasing the cement required for the foundation on the new site. It would be appreciated if you would issue purchase order covering this account. The coding is as follows: 510-76-13-191.

Sir,

After moving the small school at Fairford, it was found that the floor joists were rotten and should be replaced.

The chimney in the room was cement faced and plastered and stood on a cement block three feet square on a level with the floor. The whole chimney had to come down and the cement base chipped away before the school could be moved.

To put this school into first class shape the following materialsare required:

12 Pcs.6 x 10 - 22
100 Common bricks.
7 Bushels of lime.
100 Ft. 2 x 4 for plate.
1 Bale hay wire for form ties.

The approximate cost of these items would be $132.00 F.O.B.,Fairford, Manitoba.

Sir,

I wish to advise that three toilets will be required for the lower Fairford school, one each for the boys and girls and one for the teacher. The material required is listed attached and the approximate cost $75.00. The cost of building will be $6.00 a toilet - $18.00.

I found it necessary to have the chimney rebuilt from the floor up as it was badly shaken during the moving and was not safe. The cost of building would be $20.00.

It will not be necessary to fence this year. The cost of barbed wire and fencing, including posts and labour would be approximately $60.00

Sir,

200 feet of rough lumber is required for making soil boxes for the toilets at the Fairford Indian Day School. Will you please advise if I am authorized to purchase this amount.

The lower Fairford day school is now operating and there were 27 pupils in attendance at the time of my visit on the 17th of the month. The chimney is not quite finished, some grouting is still to be done. A piece of donaconda board 18" x 12' and a piece of 3" fir flooring 9' long are required around the chimney. Will you please grant authority to purchase this material.

This school is approximately a mile and three quarters from the Improved school and the caretaker of the Improved Day school feels that he should be paid an additional $5.00 per month for the care of this school. Will you kindly also advise in this matter. I might also advise that I have arranged to have 10 cords of fire wood hauled from the Improved school to lower Fairford at a cost of 50 cents per cord. There will also be a small additional charge for hauling the desks and making additional steps at the school entrance. The cost of these two items will be in the neighbourhood of $6.00. I also arranged to have the school scrubbed and the windows cleaned at a cost of $3.00.

RECEIVED

Sir,

I wish to refer to my Fairford Day School report for the month of October 1941, in which I reported that some repairs were necessary to the outside steps and the veranda of the main building. I asked Mr. McKenzie, husband of the teacher at the school, who is a very capable carpenter to give me an estimate of the cost of labour in carrying out these repairs. His estimate is enclosed, herewith. Although Mr. McKenzie has gone beyond the rebuilding of the steps and the repairs to the veranda, the work on the steps and veranda at a cost for labour of $102.80 and repairs and kalsomining/should be done. The inside work could be done at a later date. The approximate cost of materials to complete the above work would be $80.00

the kitchen

Will you please advise in this matter as Mr McKenzie is prepared to do this work now.

Ottawa,
January 12, 1942.

Dear Sir:

I have your letter of the 7th instant with reference to repairs at the Fairford School. Your letter is not exactly clear but I infer that the cost of labour for repairing the verandah would be $102.80 and that there would be an additional charge of $13.80 for labour for kalsomining and repairing the kitchen. This would make a total cost for labour of $116.60 plus an amount of $80.00 for materials. From the information we have available it is difficult to justify such a large expenditure. If the verandah at this school is in such bad condition why not demolish it and replace it with a landing and steps?

You might obtain an estimate of the cost of handling this matter in the manner suggested by the Department.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Sir,

I enclose herewith Voucher No. L.730 in an amount of $38.00 in favour of the Portage la Prairie Agency Trust Account, for work done under Department authorities, at the Fairford Lower Day School. The authorities are contained in Department letters, 126-5-1, March [illegible], 1941, and 126-5-5, September 27, 1941.

An advance of $30.00 was made to Hamilton Letander, No. 78 Fairford Band, who did the work. The Agency cheque was no. 45693, and the amount of $30.00 is to be refunded to the Agency account. The balance is to be forwarded to Letander, and this will be done by agency cheque on receipt of payment from the Department.

Sir, 126-5-5, January 12, 1942.

Replying to the above noted letter, I beg to advise that I am now in receipt of two quotations regarding the verandah at the Fairford Improved Indian Day School.

To demolish the verandah and replace with a short landing would cost $25.00

To repair verandah. Renew footings, posts, jacking up and leveling. New flooring, building new steps, V joint, new screen, hanging new screen door, shingling roof, flashing against wall, painting two coats to match main building. $54.00. Labour account would be $36.00 and material $18.00.

Mr.McKenzie, husband of the teacher, who is a carpenter, has submitted these figures.

Will you please advise.

Dear Sir:

I am in receipt of requisition of the 6th instant, for 8 gallons of paint, 3 gallons of varnish and 13 packages of kalsomine for interior decorating at the Fairford Day School. This appears to be a very large quantity. Do you consider that it is all required? In the event of some paint being provided, will it be necessary to employ Indians to do the work? If so, what would be the expenditure involved?

August 27th,

Sir, 208-11

With reference to your letter of June 26th, I wish to advise that the following repairs are required for the Lower Fairford Day School. You remember that this school was moved from the site at upper Fairford to the river bank to accomodate those pupils resident at lower Fairford. The work of moving was done by Hamilton Letandre and never satisfactorily completed. Now that Hamilton is practically blind no further work of this nature can be done by him. The following are the costs of material and labour:

OUTSIDE REPAIRS.

30 Ft. Baseboard.
30 Ft. Dryboard or watershed.
Sand. Approximately $10.00
Labour. $20.00

INSIDE REPAIRS.

10 Bushels Lime.
1 Bag Gold dust.
Approximately $15.00
Labour. $30.00

A new camp stove is also required for this school as the old stove is burned out and cannot be repaired. The cost of this will be approximately $33.00 including freight.

Re: Repairs, Lower Fairford Day School

Inspector Hamilton has sent forward to the Department a list of the repairs which appear to be necessary at the above-noted school.

You are authorized to undertake these repairs just as soon as you can conveniently do so. It is highly desirable that this work should be completed, if at all possible, before the re-opening date of the school, October 1.

We are sending forward to the Purchasing Agent a requisition for the tubular-type wood [redacted].

Re: Fairford Improved Day School

Dear Sir:

It is noted that in your requisition dated June 18 for certain supplies which appear to be necessary at the above-noted school, you include the following:-

1 top for kitchen stove,
1 500-gallon soft water tank
1 heater for school to take cordwood, 4 lengths.

I have checked your estimates for the current year and have failed to notice any reference to these supplies.

You are authorised to make the best arrangements possible for the purchase of the top for the kitchen stove and the heater for the school.

I have discussed the tank purchase with the Departmental Purchasing Agent, and we are anxious to learn from you if a much smaller tank would not serve the purpose at this school. We are anxious to know also if you have considered at any time the advisability of substituting a concrete tank for the one now in use. If you consider this suggestion favourable, you might send forward an estimate of the cost. It is scarcely necessary to add that it is exceedingly difficult to secure the funds for such purchases when no provision has been made for these items in the estimates.

Sir:

Re: 126-5-5

In replying to you letter of September 16th in connection with the soft-water tank required for the Fairford Improved Indian Day School, I have the advice that a 100 gallon tank will be sufficient.

A tank of this size would cost approximately $8 but at present it appears that this item is impossible to procure. However, I would be pleased to receive authority in case I may be able to buy one soon.

Your obedient servant,

[illegible]
Indian Agent.

With reference to requisition of the 15th instant, you may purchase 1 coal oil lamp and 1 pair of pillows for use at the Fairford Indian Day School. A flag will be sent from the Department.

It is not our practice to purchase linen, etc. for teachers' residences and consequently we are not prepared to authorize purchase of the sheets, blankets, counterpane and comforter requested on the requisition. These latter articles are supplied by the teacher and may be removed by her when she gives up duties at the school.

Re: 126-5-5, Ottawa, March 19, 1943.

In reply to the above noted letter I beg to advise that the advance of $50.00 has this date been deposited to the Receiver General account. This sum was allowed for the painting of the interior of the Fairford Improved Day School.

Mr.Farm Instructor Favelle writes that it was impossible to obtain the services of an outside man to do this work, and the Indians, capable of doing the work, were busy fishing. He further advises that he may be able to get this work done early in April, which is expected to be a slack month for the Indians.

Department of Mines & Resources
Indian Affairs Branch
AUG 14 1943

The Secretary, Indian Affairs Branch, Dept. Mines & Resources, Ottawa.

The kitchen at Fairford School should be repaired before being kalsomined. The plaster on the walls and ceiling is beyond repair and the cost of refinishing in Donnaconna board would be approximately $35.00. This includes materials approximately $23.00, labour $12.00.

The walls and ceilings of other rooms will also have to be repaired, in most cases cracks in the plaster will require filling before paint is put on. The cost will be materials $5.00, labour 8.00. A total cost of $13.00.

With reference to Department letter of the 16th of September last, the following is a tender on a cement cistern for the above school.

26	bags of cement	29.00
4	yds. gravel	16.00
360	ft. rough lumber. (forms)	12.60
	Iron rods (Reenforcements)	9.00
	Pipe and tap	2.00
	Labour	35.00
		$ 103.60

The painting of the interior of the school is delayed as no Indians will take the work as better wages are being offered outside. I have asked for tenders from capable painters and these will be forwarded to the Department in due course.

FEB 22 1944
REGISTERED

The Secretary, Indian Affairs Br[illegible]t. Mines & Reservoes, Ottawa.

I am in receipt of a letter from Farm Instructor Favelle of the Little Saskatchewan Reserve, in which he advises that Mr. John Strom of Hilbre, Manitoba has not received all the payment for material and labour for certain work on the Fairford Improved Day School. Vouchers were submitted to the Department, for this work, on October 27, 1943, and are as follows:-

Voucher N.474, $77.50.	Labour on soft water cistern	$35.00	
	Material for kitchen, ceiling and walls,	20.00	
	Labour on walls and ceiling	22.50	
			$77.50
" N.474 $66.45	Materials for building cistern.		$66.45

According to Mr. Favelle's letter, Mr Strom only received a cheque for $60.45, which still leaves a balance outstanding of $83.50 due Mr. Strom.

I would be pleased if this matter could be adjusted as soon as possible, as it is very difficult to have work done on outlying reserves, and delay in payment makes it doubly difficult.

Mr. J. Waite, Indian Agent, Portage la Prairie, Man.

With reference to your letter of the 17th instant, your voucher N. 474 for $66.45 in favour of Mr. John Strom for material for the cistern at the Fairford School was received at this office on November 17, 1943, and cheque No. 13264 for $66.44 was issued and sent to him on November 20. This cheque has been returned to us through the bank. It is endorsed by Mr. Strom. I cannot see why he told Mr. Pavelle that he had only received $60.45.

Your second voucher No. N. 474 for $77.50, issued in favour of John Strom, reached this office on February 21, 1944. Cheque 91601 for the amount stated was issued and sent to him on February 9. This cheque has not yet been returned to the bank, but I presume he has received it by this time.

April 12, 1944.

The Secretary, Indian Affairs Branch, Dept. Mines & Resources, Ottawa.

About a year ago the Lower Fairford Day School was replastered. The work was well done, but owing to this school being closed during week-ends from Friday night until Tuesday morning the plaster has cracked and is falling. If is my belief that plaster will not stay on the walls and ceiling under the present arrangements, the school being closed over a too long week-end.

I would suggest that the walls and ceiling be lined with beaver-board, and at the same time the walls and ceiling should be insulated.

I am asking the Farm Instructor to obtain a price on labour installing the board and as soon as this is received a further report will be submitted.

PLEASE QUOTE FILE 5010

Portage la Prairie,

April 12, 1944.

The Secretary, Indian Affairs Branch, Dept. Mines & Resources, Ottawa.

I wish to inform the Department that the Fairford Improved day School has been cold during the even moderate weather this past winter, and no amount of firing seemed to make any appreciable difference.

During my visit to the reserve, I closed several cold air registers and made a few improvements. The school room still remained cold.

This school was built in 1915? It has a stone basement which possibly should be pointed, and there is an air space between the weather board and the stone work. I would consider the furnace adaquate, although the damper will have to be repaired. This would have to be done by an expert. Is it possible that the building will have to be insulated and possibly all the siding renailed. The cost of this work would be considerable and I would like to have the services of an expert on matter of this nature. There is no man in the district capable of doing this work and one would have to be sent in from the City of Winnipeg.

I would be pleased if the Department would name a firm who would give an estimate on the work required at this school.

Mr. A.G. Hamilton, Inspector of Indian Agencies,
Winnipeg, Man.

I enclose copy of a letter that has just been received from Mr. Waite, Indian Agent, Portage la Prairie, Manitoba. The letter does not give us any estimate of the probable expenditure that will be necessary and the Department would like to have some idea of this before authorizing the work. You will note that there is no one capable of doing the work in the vicinity of the school. Possibly you could suggest someone to Mr. Waite. I should appreciate it if you would give this matter consideration and advise me what you feel ought to be done and the probable cost.

RE: Repairs to Fairford Schools
Your file 126-5-5, Dated April 19/44

The enclosed quotations have just been received from Agent Waite. It is difficult to get anyone to do work at these outlying points, and I would recommend that Mr. Waite be instructed to proceed with the work at once.

The Lower Fairford School is very cold. I do not think a teacher has been appointed yet, so the inside repair work could be carried on any time.

We are in receipt of your voucher No. O 552 for $223 issued in favour of Mr. A.J. Smith, General Merchant, Erikadale, Manitoba. This covers the cost of material for the Fairford School and on it you quote purchase order 26865. The purchase order just mentioned was issued on October 2, 1944, in favour of Homer S. Chase, Davis Point, Manitoba. We were advised in a letter dated September 25 from Inspector Hamilton that Mr. Chase was prepared to supply the material required and at that time Mr. Hamilton forwarded to us a copy of a quotation that he had received from Mr. Chase. We do not appear to have any correspondence on our file indicating why the business was given to Mr. Smith rather than to Mr. Chase. The Treasury Branch will not pay the account in view of the fact that the source of supply has been changed without the approval of the Purchasing Agent. I should appreciate hearing from you in regard to this matter so that I may discuss it with the Purchasing Agent.

DEC 1944

Indian Affairs Branch, Dept. Mines & Resources, Ottawa.

I beg to enclose herewith a tender received from one Homer Chase, for installing a damper in the furnace at Fairford Improved Day School. The amount of the tender is $14.00.

The damper was bought from The Winnipeg Paint & Glass Company, Winnipeg and at that time I interviewed their heating expert in regard to installing the damper. He claimed that it would be only an hour or so work, a matter of taking off the casing , moving the heating drums and bolting in the new damper. This may be correct on the floor of a showroom.

I looked over the furnace when I was on the reserve recently; at that time an attempt was made to insert the damper through the fire-box. Apparently this could not be done. The casing of the furnace is bolted to a heated surface and every bolt has to be cut, to take off the outside. There is also the work of taking down all the cold and hot air pipes, and these would have to be replaced after the repair was made. I consider there is a good two days work.

The damper was purchased on voucher No. 0.387, dated September 26, 1944.

I have your letter of the 14th instant, with reference to installing the damper in the furnace at the Fairford Day School. At first glance the amount required for this work seems extremely high, but from inquiries that have been made it is evident that the furnace has to be taken apart before the damper can be installed. Under the circumstances the Department approves the expenditure of $14 and it is hoped that the installation of the damper will make the heating of the building more satisfactory.

Extract from Inspector G.W. Bartlett's report on the Fairford Indian Day School visited on December 8, 1944.

Blinds are needed on the south windows.

There are washing facilities in the basement but not individual towels (or face cloths).

Water cooler with tap should be used instead of uncovered pail.

Heating system - The cold air registers are all covered up with cardboard. This of course interferes with the heating of the room as effectively as the closing up of the hot air registers. Apparently there was nobody on the place who knew anything about the operation of the heating system; and the room was cold, though the day was comparatively mild. I had no way of investigating to ascertain whether the stopped-up cold registers are part of a discarded heating system, or whether they are now in use and stopped from lack of understanding the operation of a system of air circulation. The teacher has no idea of the operation. An investigation by a competent party is desirable, as soon as possible.

"Water cooler with tap should be used instead of uncovered pail.

"Heating system - The cold air registers are all covered up with cardboard. This of course interferes with the heating of the room as effectively as the closing up of the hot air registers. You may purchase the blinds required for the south windows, also the quantity of towelling that you consider necessary. If you can secure a water cooler with tap you may do so, provided it can be obtained at a reasonable cost.

Replying to your letter of the 14th of December, file 126-5-5, in connection with purchase order No. 26865 in an amount of $223.00.

The attached letter from Farm Instructor Favelle explains the matter. The material was supplied by Mr.Smith, Lumber Merchant, Eriksdale, Manitoba, and it would simplify matters if payment was made direct to him.

I would recommend that voucher O 552 be accepted in favour of Mr. Smith.

Ottawa,
January 5, 1945.

Mr. J. Waite, Indian Agent, Portage la Prairie, Man.

I have your letter of the 2nd instant, with regard to purchase order No. 26865. I have read the Farm Instructor's letter very carefully and I cannot see that it explains the matter.

In a letter dated September 25, Inspector Hamilton wrote to us as follows:

"Re: Repairs to Fairford Schools
Your file 126-5-5, dated April 19/44

"The enclosed quotations have just been received from Agent Waite. It is difficult to get anyone to do work at these outlying points, and I would recommend that Mr. Waite be instructed to proceed with the work at once.

"The Lower Fairford School is very cold. I do not think a teacher has been appointed yet, so the inside repair work could be carried on any time."

Attached to the letter were the quotations showing distinctly that the prices had been obtained from Homer S. Chase, Davis Point, Manitoba. We so informed the Purchasing Branch and, as we felt from Inspector Hamilton's letter that the work should be done at the earliest possible date, we recommended to the Purchasing Agent that Chase's quotation be accepted. This was done and purchase order 26865 was issued.

I note that the material was supplied by Mr. Smith, but before placing the order with him the matter should have been referred back to this office. There must be some definite reason why the business was placed with Smith rather than with Chase, or there must be some reason why the voucher was issued in favour of Smith instead of in favour of Chase. Under the circumstances we feel it necessary to withhold payment until more definite information is supplied.

With reference to the above noted letter, I wish to advise that I interviewed Mr. Homer Chase at Gypsumville on the 23rd. ultimo regarding the account for lumber furnished by Mr. A.J.Smith of Erikadale.

Mr. Chase advised that he obtained prices for material from Mr. Smith of Erikadale and these prices were forwarded to the Department. He has no lumber yard of his own and materials had to be obtained from outside.

I am to enclose herewith an order signed by Mr Chase, authorizing that cheque for the material be paid direct to Mr. Smith.

Re: Purchase Order No. [redacted].

The account covering this purchase order was issued in favour of A. J. Smith, rather than Mr. Homer Chase. I am enclosing the account which was submitted to us, also copies of the following letters:-

(a) letter of December 14, 1944, addressed to Indian Agent Waite;

(c) letter of January 5 to Agent Waite;

This transaction appears rather peculiar, but under the circumstances it would be appreciated if you would revise the purchase order so that payment can be made to Mr. Smith.

January 9, 1945.

Indian Affairs Branch, Dept. Mines & Resources, Ottawa.

On September 22, last, two estimates were forwarded through Mr. Inspector Hamilton's office, for certain repairs to the Fairford Improved Day school and the Lower Fairford Day School. The amounts of the repair work were as follows:-

Fairford Improved Day School,	Material	$223.96.
	Labour	$107.60.
Fairford Lower School,	Material	$151.99
	Labour	$ 80.00

Authority was received for the work on the Improved School, the material being ordered through Mr. Smith of Brikendale by Mr. Chase, the Order being I.O. 26865. On October 14, I wrote to Mr. Pavelle, Farm Instructor, advising him that Mr. Chase's estimate had been approved and that $104.00 had also been approved for labour.

In the latter part of December vouchers were received here in amounts of $[illegible], in favour of Mr. A.J. Smith of Brikendale for material, and $[illegible] for labour in favour of Mr. Roger Chase. The accounts were submitted to Mr. Pavelle. I immediately wrote to Mr. Pavelle asking him for the letter of authority. As I thought it might be possible that Mr. Chase had been advised direct about the repair to the Lower School from the Department at Ottawa. A copy of Mr. Pavelle's reply is enclosed. This did not appear to be satisfactory and I arranged to meet Mr. Chase at Gladstone on January 2.

Mr. Chase informed me that Mr. Pavelle had told him to go ahead with the work on the Lower School. He claims that he told Mr. Pavelle that he did not have the authority and was doubtful about the matter. However, he thought perhaps Mr. Pavelle would have some author-

ity in the matter, because he had previously told him that the $104.00 had been authorised for the labour on the Improved School.

Mr. Favelle readily admitted his mistake. He figured that the authority would be approved in time and as he had Mr. Chase on the reserve he would have the work done. There is a labour shortage in the district and there is no doubt that Mr. Chase is a very busy man, and would not be able to return to do the work at the lower school for some months. There is no doubt that the work was very necessary if the school was to open.

I beg to recommend that the accounts be paid.

You will also kindly note that Mr. Chase purchased the material from Mr. Smith of Frikadale. He has no lumber yard of his own and the prices of materials submitted were quoted by Mr. Smith.

I attach account for $152.50, covering the cost of materials purchased for repairing the Lower Fairford Indian Day School. There are two schools on the Fairford Reserve, and the materials purchased, as shown on the account, were used on the Lower School. It should not be confused with the other purchase about which I wrote you on February 12. Labour was available and the Indian agent was authorized to have the work done before the severe cold weather started. The coding is as follows: 510-76-10-691.

The above noted voucher is returned as Purchase Order No. 26865 (quoted) does not give authority to make this purchase from Mr. A.J. Smith. Possibly for some reason Homer S. Chase, of Davis Point, Manitoba (see Purchase Order 26865) was unable to supply the goods and the order was transferred to Mr. Smith but I wish to point out that a memo is necessary from the Purchasing Branch confirming this transfer.

Re: Purchase Order No. P6865.

The account covering this purchase order was issued in favour of A. J. Smith, rather than Mr. Homer Chase. I am enclosing the account which was submitted to us, also copies of the following letters:-

(a) letter of December 14, 1944, addressed to Indian Agent Waite;

(b) letter of January 2, 1945, from Agent Waite, enclosing letter from Farm Instructor Favelle;

(c) letter of January 5 to Agent Waite;

(d) letter of February 7 from Agent Waite.

This transaction appears rather peculiar, but under the circumstances it would be appreciated if you would revise the purchase order so that payment can be made to Mr. Smith.

Mr. J. Waite, Indian Agent, Portage la Prairie, Man.

We are in receipt of your voucher No. O 552 for $223 issued in favour of Mr. A. J. Smith, General Merchant, Eriksdale, Manitoba. This covers the cost of material for the Fairford School and on it you quote purchase order 26865. The purchase order just mentioned was issued on October 2, 1944, in favour of Homer S. Chase, Davis Point, Manitoba. We were advised in a letter dated September 25 from Inspector Hamilton that Mr. Chase was prepared to supply the material required and at that time Mr. Hamilton forwarded to us a copy of a quotation that he had received from Mr. Chase. We do not appear to have any correspondence on our file indicating why the business was given to Mr. Smith rather than to Mr. Chase. The Treasury Branch will not pay the account in view of the fact that the source of supply has been changed without the approval of the Purchasing Agent. I should appreciate hearing from you in regard to this matter so that I may discuss it with the Purchasing Agent.

Replying to your letter of the 14th of December, File 126-5-5, in connection with purchase order No. 26865 in an amount of $223.00.

The attached letter from Farm Instructor Favelle explains the matter. The material was supplied by Mr. Smith, Lumber Merchant, Eriksdale, Manitoba, and it would simply matters if payment was made direct to him.

I would recommend that voucher O 552 be accepted in favour of Mr. Smith.

Dear Sir:

Inclosed Herewith please find invoices made out in triplicate covering material supplied by Mr. A. J. Smith, Eriksdale P.O., Man., for repair of the Fairford Improved School. It would appear by your letter of October 14th, 1944, File 50-39 that the Department was purchasing the material direct from Mr. Chase (the contractor). However, I spoke to Mr. Smith over the phone yesterday and he informed me that at the time delivery of the repair material was made he was under the impression that payment for same would be made direct to him by our Dept. It would therefore simplify matters if you would kindly arrange to have the cheque for material made out in favor of Mr. Smith. Accounts for labour will be in the mail shortly.

Yours respectfully,

Mr. J. Waite, Indian Agent, Portage la Prairie, Man.

I have your letter of the 2nd instant, with regard to purchase order No. 26865. I have read the Farm Instructor's letter very carefully and I cannot see that it explains the matter.

In a letter dated September 25, Inspector Hamilton wrote to us as follows:

"Re: Repairs to Fairford Schools,
Your file 126-6-6, dated April 19/44

"The enclosed quotations have just been received from Agent Waite. It is difficult to get anyone to do work at these outlying points, and I would recommend that Mr. Waite be instructed to proceed with the work at once.

"The Lower Fairford School is very cold. I do not think a teacher has been appointed yet, so the inside repair work could be carried on any time."

Attached to the letter were the quotations showing distinctly that the prices had been obtained from Homer S. Chase, Davis Point, Manitoba. We so informed the Purchasing Branch and, as we felt from Inspector Hamilton's letter that the work should be done at the earliest possible date, we recommended to the Purchasing Agent that Chase's quotation be accepted. This was done and purchase order 26865 was issued.

I note that the material was supplied by Mr. Smith, but before placing the order with him the matter should

Re: 126-6-6, Ottawa, December 14, 1944.

With reference to the above noted letter, I wish to advise that I interviewed Mr. Homer Chase at Gypsumville on the 23rd ultimo regarding the account for lumber furnished by Mr. A. J. Smith of Eriksdale.

Mr. Chase advised that he obtained prices for material from Mr. Smith of Eriksdale and these prices were forwarded to the Department. He has no lumber yard of his own and materials had to be obtained from outside.

I beg to enclose herewith an order signed by Mr. Chase, authorizing that cheque for the material be paid direct to Mr. Smith.

I trust this order will clean up this matter.

OFFICE OF THE INDIAN AGENT

DEPARTMENT OF MINES AND RESOURCES

RECEIVED MAY 18 1946 REGISTERED

PLEASE QUOTE FILE 50-39C

Portage la Prairie,
Manitoba.

May 14, 1946.

Indian Affairs Branch, Dept. Mines & Resources, Ottawa.

I beg to endose herewith a list of materials required to build a lean-too to the Lower Fairford Day School. At the present time and under present conditions it seems impossible to obtain a bill of material from any lumber merchant. I would be pleased if the bill of material be checked before any purchase is made. The cost of labour is also estimated. The building (School) is approximately 26 feet long and I suggest that two rooms be built, 12 feet wide.

There has been no teacher at this school for almost two years. It is approximately 1¾ miles from the Improved Day School and the walk appears to be too much for a teacher on an Indian Reserve. The fact that this school is closed is an excuse for the average Indian not to send his children to the Improved School, although in many cases he is just as close to the Improved School as the Lower School. This leads to a controversy, especially if the Indian's children attended the Lower School before it was closed. It also leads to some injustice in the administering of Family Allowance. This school should be open in justice to the Indian and in fairness in the administering of the Family Allowance as far as Indians are concerned. The school was renovated just over a year ago and is now in good condition. Wood fuel has been placed at the school for the operation of the school stove only. A list of needed furniture and approximate costs is also attached. I would suggest a cement foundation only, with a dug-out cellar. A well should also be drilled. The depth of the well at the improved school is approximately 60 feet. The lay of the land at Lower Fairford is slightly different, but I think water should be found at 100 feet. The approximate cost at this depth would be $450.00.

Ottawa, May 30, 1946.

Mr. J. Waite, Indian Agent, Portage la Prairie, Man.,

I have your letter of the 14th instant, with reference to erecting a teacher's residence at the Lower Fairford Indian Day School.

From the information given in your letter it appears that the amount involved is approximately $3300.00. No funds were provided in the current years' appropriation for this expenditure and I can not see how authority can be given for proceeding with the work.

Is there any possibility of arranging for the transportation of a teacher from the Fairford Improved School to the Lower Fairford School for the academic year 1946-47. We could allow a teacher sufficient extra salary to pay for her transportation.

I understand from your letter that the main reason for you suggesting the erection of a teacher's residence at the Lower Fairford is to enable us to secure a teacher's services for a school which has been closed, owing to the fact that we have been unable to secure a teacher who would consent to walk from the Fairford Improved School to the Lower Fairford School. If my suggestion is feasible, it might be possible for us to secure a teacher. This would solve the difficulty for the year 1946-47, at least.

Chief, Training Division.

Ottawa, February 3rd, 1947.

J. Waite, Indian Agent, Portage la Prairie, Man.

We have your letter of the 28th ult., with reference to the school and teachers' residence on the Fairford Reserve.

We have noted that you consider a new furnace and chimney should be supplied and that the school requires re-roofing.

You should bring this matter to our attention again early in June so that the necessary action can be taken during the months of July and August when the school is closed for holidays.

It is hoped that by that time you will be able to obtain a quotation for the re-roofing.

Re: 126-5-5- (P.P.1) February 3, 1947.

I beg to call attention to the above noted letter in connection with the re-roofing of the Fairford Improved School, a new additional furnace, coal burner, and a new chimney. To date I have not been able to obtain prices on reroofing the building. Roads in the district are not yet fit for auto travel and it may be towards the end of the month before prices can be obtained. The Department asked that this matter be brought to their attention early in June. Treaty payments in the agency commence May 28th, and I bring the above matters to the attention of the Department at this time as the matter may be forgotten at a later date.

As soon as prices are received for the reroofing of the school, they will be forwarded.

Prefabricated House for Teacherage
at Fairford Indian Day School

The house which we have ordered is from the North American Building Company, Limited, 711 Royal Bank Building, Winnipeg, Manitoba. Please find attached a copy of the basement plan for this house which is their catalogue Number 422 R. We are advised that this 20 by 24 basement on a 9" by 7' 6" wall with a 30" by 10" footing and a 4" floor will take 30 cubic yards of concrete with 120 bags of cement at a six to one mix.

You will note on the right hand side of the plan diagrams of the anchor bolt setting in the 2 by 6 sill. The bolts are placed approximately 6 ft. apart 3½ inches from the outside edge of the basement wall. North American Buildings, Limited, supply the sill, anchor bolts and centre beam but nothing below the beam. If there is any further technical information required we suggest that you write directly to the North American Buildings, Limited, at the above address. If you require the 120 bags of cement please send a telegram immediately to this effect and we will request our Purchasing Agent to obtain it for you. However, if cement is obtainable locally, this letter will serve as authority for the immediate local purchase of amount required.

Indian Affairs Branch, Dept. Mines & Resources, Ottawa.

Re: 126-5-5 (M.T.) June 20, 1947.

I beg to acknowledge receipt of the above noted letter relative to the purchase of a basement for the Fairford Day School (Lower, from the North American Building Co. Ltd., Winnipeg. This is the first intimation I have received regarding the purchase of a prefabricated house.

My understanding is, that I am to arrange for the construction of the basement for this house, which is to be 20 x 24 with a 7' 6" wall, 9" thick.

This will mean an excavation 8' deep, planking and board material for forms to hold concrete. The purchase of 3 cubic yards of gravel and 5 lbs of 2" nails. It would appear that expert supervision would be required but as there is no one in the vicinity of the reserve capable of doing this work, it would have to be done by a contractor from the outside.

Annuity payments are to be made on the Fairford Reserve next Monday, and I would be pleased if the Department would telegraph definite instructions regarding the execution of the agreement and if I am to go ahead with this work according to plan submitted.

Yours truly,

Agent.

Re. 126-5-5 (W.T.1) February 3rd.1947
126-5-5(W T) June 20, 1947.

In reply to the above noted letters, I enclose herewith estimates on the following work, labour only. The estimates were furnished by Mr. Norman Nelgerson, Alberr, Manitoba, who, at present is working on the Dauphin Station, Little Saskatchewan Reserve.

Basement for prefabricated residence, Fairford Reserve.
Labour, $395.00.
Material required, 140 bags cement, 400 lbs. 3" nails, 2 rolls wire. The 48 sash for this job will have to be purchased locally, the shutter can be furnished from the stock at Little Saskatchewan Reserve. Arrangements will be made for the purchase of these immediately. As soon as authority is received for the erection of the basement, the Fort Garry Milling Co. Ltd., will be asked to ship the anchor bolts and bars.

Re-roofing Fairford I.R.C.V. Day School, $170.00.
The following material is required: 70,000 asbestos shingles, with nails. 15 rolls tarpaper, 4 sheets iron for flashings 3 x 8, 2 rolls of heavy roofing, asphalt, with nails and cement. This is for eave of roof and valleys. 200 lbs. nails for shooting. The shingles will be taken from the stock at Little Saskatchewan Reserve.

Chimney 24' for new furnace: $70.00. For this job, 700 bricks will be required, together with 24' of 8" flue lining, 4 ends lining, one 8" collar, one clean out 4 X 8. Gravel and sand can be obtained from a pit on the Fairford Reserve. Will you kindly advise in the above matters.

Ottawa, August 7, 1947.

Mr. J. Waite, Indian Agent,
Portage la Prairie, Manitoba.

Fairford Indian Day School

Upon receipt of your letter No. 50-390 of August 5, we sent you the following telegram:-

"Approve basement contract to Helgason $385.00. Can you buy materials locally. We can buy cement by carload only. Two carloads now on way to Hamilton but understand all required. Suggest you contact him. Letter follows".

(a) Basement for Teacher's Residence

It is unfortunate that we did not hear from you previously in answer to our letter of June 26, concerning the cement. We would have then been able to include your 120 bags in one of the carload orders sent to Inspector Hamilton.

(b) Re-roofing School Building:

Approval is also given for the letting of a contract for $270.00 to Mr. Helgason for the re-roofing of the Fairford School. Could you please advise also whether you will require our Departmental Purchasing Agent to acquire the items needed or whether they can be purchased locally.

(c) Chimney for Teacherage

The chimney for the prefabricated house is a Selkirk chimney, which means that a brick chimney will not be required.

Ottawa, October 28, 1947.

Mr. J. Waite, Indian Agent,
Portage la Prairie, Manitoba.

With reference to your letter of October 20th, file 20-12 regarding purchase of provisions for mid day meal purposes for the Indian schools in your Agency, please let me have a list of the schools at which it is considered an expenditure should be made for the purpose mentioned above, and also the amount which you recommend be spent at each school.

In view of the fact that biscuits are supplied and the further fact that Family Allowances are paid to the parents, we feel that the Department's assistance should be limited to a hot drink or hot soup.

We have your letter of the 6th instant with reference to drilling wells at the Lake St. Martin and Fairford Schools.

If it is not too late in the season, the Department approves an expenditure not exceeding $500.00 for drilling a well at the Fairford School. If water is obtained at a reasonable depth, we would be prepared to authorize the drilling of a well at the Lake St. Martin school next Spring.

Re: Fairford Indian Day School

On August 7th we wrote to you in connection with the pre-fabricated house to be used as a teacher's residence at the above school. Subsequently we received an account for cement that you purchased but we do not appear to have received any further information regarding the new building.

I would appreciate it if you would let me have a full report if all the work has been completed and if you consider the building satisfactory.

PLEASE QUOTE
FILE 50-11 (127)

25th May,
1948.

Dear Sirs:

When the Lower Fairford Indian Day School opened May6th, there was no way of bringing the children across the Fairford River, flood waters having destroyed the bridge. To get the children across it was necessary to engage a ferry man and the farm instructor of the reserve had this service started. The wages offered for the work was $25.00 per month. I trust this action will be approved by the Department.

Yours very truly,

G.R. Russell.

In view of the information contained in your letter of the 25th instant, file 50-11 the Department approves an expenditure of $25.00 a month to ferry the children across the river to the Lower Fairford Day School.

It is understood, of course, that this is only a temporary measure.

During a recent visit to the Fairford Improved Day School, Mr. Marsh the present teacher, complained about the building being cold and the discomfort his family suffered during last winter. A coal furnace was installed last fall--this for heating the class room only. The house portion, which consists of eight rooms, three downstairs and five up, is being heated at the present time by a wood furnace. It seems impossible to obtain heavy wood fuel on this reserve, as the heavy wood is badly depleted. I would suggest that a coal furnace be installed. The windows and doors are loosely fitted and considerable cold enters the house through these sources. I would suggest that all windows and doors in the building be refitted. Most of the floors are in bad shape, they are of fir, old, and badly splintered. The installing of the furnace should be done by an engineer and I would request that Mr. Connaly be requested to check over the heating system in this building and furnish a report. I would also be pleased if the Agency Superintendent could be authorized to obtain the cost of refitting the windows, doors, etc.

The Lower Fairford School recently opened under Mr. Murray as teacher, is crowded with approximately thirty-nine pupils. There are still fourteen to sixteen children of school age that should attend. The ventilation is very poor and I have requested, assistant Agent Favelle to obtain prices of the installation of two ventilating windows on the north wall. Prices will also be obtained for the removal of the partition between the school proper and the two cloak rooms. This will enlarge the school approximately ten feet and later a partition lean-to could be built to the school as cloak rooms. This change will mean that the chimney will have to be removed and rebuilt at the end of the school. The cost of these changes should not be high and as soon as estimates are received the bill of cost will be forwarded to the Department for approval.

The two toilets are in poor condition and I have requested that an estimate be obtained for the building of two new ones. This cost will be forwarded to the Department for approval when received.

We have your letters of the 10th instant regarding the Fairford School.

It is noted that you have given instructions to secure prices for certain changes in the lower school in order to provide more accommodation and also for the erection of two new toilets.

You may obtain a quotation, if possible, for the installation of a furnace and other necessary repairs to the Fairford Improved school and submit this for our consideration. As much detail as possible should be forwarded as the matter will have to be submitted to our Purchasing Branch.

I am forwarding an account received from Mr. R. Zettergren, General Merchant, Fairford, Manitoba. You will notice that the supplies were purchased for the Fairford Improved Indian Day School in February and March of this year. I have endeavoured to find out who made the purchase. The teacher claims he was ordered to buy the goods by Mr. Favelle the Farm Instructor. Mr. Favelle in turn cannot recall giving permission for the teacher to do so. The items shown were all received by the school and I would request that payment be made.

Your File 126-5-5 (E.1)

I have discussed this purchase and it appears there is no definite instructions to make the purchase. However, Mr. Waite felt in view of the scarcity of materials and the wording of the Department letter reading as follows " Could you please advise whether you will require our Department Purchasing Agent to secure the items or whether they can be purchased locally" as sufficient authority to proceed with the purchase. It is regretted that the action was not immediately reported.

Fairford No. 1 Indian Day School

This will confirm our discussion with Mr. Hamilton and yourself with regard to the establishment of a new day school on the Fairford Reserve to care for those children on the far side of the river from the Lower Fairford School.

[redacted] arranged for the rental of an Indian home which will cost

(a) $95.00 for necessary materials,

(b) $150.00 for labour, to carry out the necessary repairs.

Authority has therefore been granted for the local purchase of the materials required. An accountable advance is being forwarded to Mr. Hamilton for the labour needed to carry out these alterations.

Attached herewith is Voucher S.1579 covering invoice of R. Zettergren for supplies purchased for the Lower Fairford Day School for the amount of $43.20.

The supplies appearing on the invoice without proper authority were in great demand at the time that the School re-opended and were purchased for sanitary reasons on the orders of Mr. R. E. Favelle, Asst. Indian Agency and Dept. Nurse Raynor, both at Gypsumville.

We trust that this information may enable the Depat. to have this account passed for payment.

Indian Affairs Branch

Re: Furnace grates for Fairford Indian Day School.

On receipt of Mr. Boyne's requisition of November 29th, I.A.B.File 510-5, we wrote Clare Bros. and Company Limited, 216 King St., Preston, Ontario, requesting them to ship immediately one set of grates for Clare Bros. No. 65 four-foot furnace. We wrote this firm again on January 3rd, asking if they had made shipment, and to advise us of the price so that we could issue a confirming purchase order.

As we have had no response to either of these two letters to the above firm, will you be good enough to advise if Mr. Favelle has received the grates and if you have received any covering invoices.

Attached, hereto, is a copy of a letter received from Mr. A. G. Hamilton, Superintendent, Portage la Prairie, to the effect that an account for the Monarch Lumber Company has been outstanding since 1947.

On further consultation with the Portage office I find that this account was material to complete building chimney and roof repairs on the Fairford Improved Day School and the amount of the account was $476.65.

This account was vouchered to Ottawa from Portage office on January 21, 1948, S53, quoting authority as Departmental letter 126-5-5 (M T) August 7, 1947.

If your records show this account to be outstanding may same be paid as soon as possible.

Dear Sir:

The Monarch Lumber Company, Winnipeg, have again written this office in connection with material shipped to Reuben McKay at Fairford, Manitoba. The material was shipped October, 1947 for use at the school at Fairford, on the Fairford Reserve.

The Department's authority was contained in their letter No. 2170. This matter has been taken up with the Department on previous occasions but for some reason the account has not been paid to date. Will you kindly advise.

Yours very truly,

A. G. Hamilton,
Superintendent.

Mr. R.S. Davis,

Winnipeg, Manitoba.

We have your letter of the 17th ultimo in connection with Voucher S53, forwarded to this office in January of 1948.

We have reviewed our file very carefully and we have found the Voucher. The reason for its non-payment is due to the fact that we cannot find any reply to our letter of 4th February, 1948, addressed to the former Indian Superintendent, Mr. Waite. I enclose a copy of this letter for your information.

You will note that no authority was given for the expenditure, and we required a further explanation in order to assist us in securing a Purchase Order.

I suppose it is difficult to obtain further information at the present, but if you can advise if the material was urgently required or was used, we will endeavour to have the account passed for payment.

Further to your letter under file No. 510-5 (E.1) dated 4th March, 1949, regarding the invoice in the amount of $476.66 outstanding to the Monarch Lumber Company of Winnipeg, for repairs to the Fairford Improved Indian Day School. I have spoken to Mr. Waite regarding this matter, as per the correspondence mentioned in your letter, and Mr. Waite has advised as follows:

The repairs to the roof of the Fairford school were absolutely necessary before commencement of the school term, and while the carpenter was completing this work it was deemed advisable to have the chimney repaired at this time.

In view of the length of time which this account has been outstanding, I trust that the above information will be what you require in order to have this account passed by our treasury.

DEPARTMENTAL PURCHASING AGENT

Attached is an account amounting to $476.65 covering the cost of material used to complete the building of a chimney and roof repairs at the Fairford Day School.

As you will note this expenditure was obtained some time ago, and I attach to the Voucher copy of official letter of 4th February, 1948, to Mr. Waite. No reply was received to that letter and further consideration of the account was overlooked. Recently we had an enquiry about the non-payment of the account, and we communicated with Regional Supervisor Davis. I enclose a copy of his reply.

We would appreciate it if you would issue Purchase Order so that the account may be paid. The coding is as follows:

Dear Mr. Davis-

We attach hereto Requisition #19 re a chimney extension for Fairford #1 School. Also, tie rods. We have not prices available, and have omitted these.

In this connection, PETER SEABAGA of Gypsumville, has quoted $35.00 for erecting the extension, putting up eave troughing on Lower Fairford School Residence, and repairing the eave troughing at #1 Fairford school. #1.

These repairs are necessary and we would be pleased if the materials could be secured and an accountable cheque for $35.00 for labour forwarded in care of this office.

EXTRACT FROM INSPECTOR CHRISTIANSON'S REPORT, addressed to Commissioner Graham, dated Feb. 15, 1926. (#208-9)

Original on 77-126.

FAIRFORD IMPROVED INDIAN DAY SCHOOL:

This school was built on the same standard as the school we have at Polly. It has the same living quarters and 1 classroom. A new school was built here last summer, so there are now 2 classrooms; previous to that, the dining room was used as a classroom. The

The senior room is taught by Miss Thomas and the junior room by Miss McCabe. There are 67 children on the register and on the day of my visit at the school there were 32 in the junior room and 28 in the senior room, a total of 60. The average attendance, I believe, was about 55.

Two vans are used in transporting the children to and from school, one from Lower Fairford and the other from Upper Fairford. These children are also supplied with a mid-day meal. An Indian who lives about two miles from the school acts as Janitor, keeps on fires, etc., and a girl is employed in the kitchen to do the housework, look after meals, etc. This is generally an Indian girl.

I spent half a day in the classrooms and I was favourably impressed with the work that is being done here. I consider that Miss Thomas and Miss McCabe are splendid teachers and they are certainly very much interested in their work. They keep the children clean and tidy and take an interest in their health just as much as they do in their school work. They have a pony at the school, that they drive around wit.. and in cases of sickness they always give all possible assistance. They have also done considerable work in advising the mothers about keeping their children clean, etc. These two ladies are now in their fourth year on the reserve.

Miss Thomas asked me if there was any such a thing as an increase in salary for teachers on an Indian Reserve, as she pointed out that they were still getting the same salary as they did when they started. Miss McCabe is getting $700.00 a year and Miss Thomas, $900.00. Out of this, of course, they have to board themselves and the girl that is in the kitchen. Miss Thomas further stated that it was not just for the sake of getting more money, but that even if they got a small increase in salary, she would feel that their work was satisfactory to the Department.

One thing I would recommend is that they be furnished with a little more furniture. These women are living an isolated life and I think we should make them as comfortable as possible. And when I see how well some of the boarding schools are furnished, I think the Department should supply this place with the bare necessities, as most of their furniture is makeshift, made out of boxes, etc. Should the Department have funds for this purpose, I can furnish a list of what is actually required. The school building as a whole is in good shape.

Comm. Graham's letter Feb. 23, 1926, #208-[illegible]

(Original on 77-12[illegible]

The Inspector comments favourably on the Improved Day School on the Fairford Reserve. The teachers, Miss Thomas and Miss McCabe, seem to be doing good work, and they have a large attendance at the school. I would draw your attention to the Inspector's remarks regarding an increase in salary for these teachers, and I am of the opinion that if there is any way of granting the request it should be done.

With reference to the Inspector's remarks regarding the poorly furnished condition of the living quarters at this school, I think, myself, that we should do something to make living conditions more comfortable for these women. And for an outlay of about $200.00 we might be able to buy the necessary furniture. I do not know whether any rugs or linoleum are required or not; if so, they would be additional.

Ottawa, March 5th, 1926.

Sir:

Relative to the request made by Mr. Inspector Christianson in his report on his inspection of the Fairford Improved Indian Day School that a quantity of furniture be supplied for the use of the teachers' residence, and also to your comment regarding this request as contained in your No. 208-9 of the 23rd ultimo, I beg to say that the Department will approve of an expenditure not exceeding $200 in the supplying of the necessary furnishings. I shall be pleased if you will arrange for the purchase and delivery of the furnishings which you consider necessary, the cost of which should not exceed the above authorized amount. We will have funds in our next year's appropriation to cover this expenditure.

Please forward accounts in the usual manner covering the cost of the furnishings supplied.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Dear Miss Walton:

We are writing you in connection with the small balance outstanding on last years account for the house at Fairford, Man. The amount is $231.00 covering the furnace supplied for the above mentioned.

This is the last remaining balance on your accounts for 1947. Your action on my previous letters is appreciated, and trust this matter will receive your usual prompt attention.

Yours truly,

D. Lambert,
Accountant.

Gentlemen:

With reference to the attached statement requesting an additional payment of $231.00, I enclose for your information a copy of your invoice of December 8th.

If you add the items that are specifically mentioned on this invoice you will note that the correct total is $1,968.72 and not $2,199.72. Evidently you neglected to include the gravity furnace in your December 8th invoice which, of course, would bring the invoice to the total mentioned on it, namely $2,199.72. We noticed this mistake when we received the account and we added to your invoice the cost of the furnace and forwarded you cheque No. 84741 for $2,199.72 on March 4, 1948.

Yours sincerely,

Bernard F. Neary

I beg to advise the the work of erecting the prefabricated house at Lower Fairford is completed, except for painting inside and out. The cost of labour was forwarded under Vouchers Nos. 335 and 340, amounting to $287.50. If it is the intention of the Department to have this building painted, the attached letter from North American Buildings Limited gives the quantities of paint required. The cost of labour I would estimate at approximately $300.00. The fiscal year may be too far advanced for this work to be finished in time to have vouchers paid before the year closes. However, it might be possible to obtain the paint under the present year's allotment.

The above letter gave authority to have a well drilled at this house and also one at Lake St. Martin proposed school site. The season was too far advanced to have the work started and I would be pleased to be advised if this authority will be approved during the coming fiscal year.

Indian Agent.

With reference to your letter of the 23rd ultimo, regarding the painting of the teacher's residence on the Fairford Reserve, in your letter you stated that you were forwarding the quantities of paint required. This was not received.

The cost of labour appears high. Would it not be possible to have the painting done at a lower cost?

With reference to drilling the well, the same authority is given as was in our letter of last year.

July 31, 1948.

Attention : Mr. B. F. Neary

Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Ontario.

I just returned from the Fairford Reserve, and on checking over the buildings, I found that the new teacher's residence at Lower Fairford School, was sinking in the middle causing the partition to come away from the floor about 1½ inches. Also, there is a leak in the roof. I believe this was caused by water getting into the basement, the building not having any eavestroughs.

I have ordered eavestroughs to be put on the school at once, and also for Mr. Helgasson from Ashern to come up and repair the building before it gets any worse. The cost of this should not be very great.

I will be forwarding accounts for this at a later date, and hope my actions meet with your approval.

APRIL 28th 1949

Mr. R.S. Davis,
Regional Supervisor Indian Agencies,
538 Dominion Public Building,
WINNIPEG, Manitoba.

Dear Mr. Davis-

We attach hereto a Requisition for school residence furniture and items for the Fairford Indian Day School, Mrs Dora E Olds, Teacher.

Apparently, this is a large residence, and Mrs Olds has requested many items not on the standard list for one-room day school residences.

We have ommitted from her list several items, such as chairs, 2 complete bed outfits, she ordered 3, bath tub, etc., If there are several rooms not required, there should be no need to furnish them. However, Mrs Olds has probably, people staying with her, and we feel that they should look after their own requirements. We trust though, that the items listed on the requisition will be allowed to stand to make the residence reasonably well furnished, keeping in mind the standard allowed.

We are attaching her letter herewith (copy) and also listed the items ommitted from her list at the end of the requisition.

Yours very truly

R.L.Bewell,
Superintendent.

June 13th, 1949.

Mr. R.L. Bevall,
Superintendent, Indian Agency,
Hodgson, Manitoba.

Regional Supervisor Davis has forwarded to us your letter to him dated April 28th, and also requisition for furniture and other items for the teacher's residence at the Fairford Indian Day School.

I would appreciate it if you would let meknow exactly what residence you intend to place the furniture in. If it is the residence attached to the original two-room school, we understand that it was furnished, although it is quite possible that several of the articles of furniture need replacement.

Our file shows that we supplied furnishings to a value of $417.70 for the teacher's residence at the Lower Fairford Indian Day School. In this regard, see your Voucher No. S.1328 dated August 19th, 1948.

In view of the above, we would appreciate receiving a letter from you explaining the whole situation to us.

FISHER RIVER AGENCY
HODGSON MANITOBA
SEPTEMBER 17th 1949

Mr. Philip Phelan,
Chief, Education Division,
Indian Affairs Branch,

Sir,

I Transmit under separate cover, School Returns and Cheque for salary to Dec 31st 90. from Rich'd T. Stevens Teacher Tuscarora Indian Reserve. In this connection I beg to state that it would appear as though Mr. Stevens had made up his mind to have the dates of vacations changed and in order to show same he would in all probability endeavour to influence the Trustees at school during 1891 to ask that it should be opened two weeks later in the spring and by all indications would succeed. Rev.Sir,

I am in receipt of a number of reports upon the schools of the Northern part of Lake Winnipeg,and must say that the school educational work is not generally carried on very satisfactorily,whilst there are very great defects of a more material nature.

Fisher River. The complaint here is that up to lately and for a year past inefficient teachers have been in charge. With the large population to be found at this point,it seems essential that a well qualified and permanent teacher should be employed.

Berens River. Here there is a fine building and good chances of a fair attendance,but since last June either through the absence of a teacher,or the presence of measles, or even when a teacher was in charge,the school has been practically closed right along. True the grant has not been paid,but little good can be effected unless the school is continually kept open.

Poplar River. At this point there appears to be the need of a new building. Unfortunately we have no funds and it will take some time before provision is made for the purpose.

granted that same can be carried through the House.

Rossville Day School. Here the funds are available but nothing very great has been achieved. Part of the lumber has not yet reached the premises and no work has been done and the probabilities are that a part of the $600.voted will lapse.

Cross Lake. Up to lately the teachers have been inefficient. This is to be regretted as the population offers fair prospects of success. The building is not in good shape, but nothing can be done by the Department just now.

Norway House Boarding. Here the defects are especially in connection with the buildings,but I am sure you will agree with me that the Department has contributed its full share towards this institution. At present the cellar is full of water and remains that way when a cheap hand pump it could be emptied in a short time. There is no curtain between head of stairs and girls bedroom - this is really such an important matter and the remedy so cheap that one would think this trouble should never have existed. The accommodation is very cramped and several rooms are needed - at the same time the Principal's family live in the building which,besides the room they occupy,is otherwise objectionable.

I think that it is the duty of the Methodist Missionary Society to remedy matters at an early date.

Yours truly,

(Sgd)D.Laird.

Ottawa, April 6, 1909.

Sir,-

I have to acknowledge the receipt of your letter of the 30th ult., inclosing a communication from the teacher of the Fisher River reserve, in which she asks to be allowed to teach during the months of July and August, next, but gives no reason for the request.

In reply I beg to say that, if there is any good reason why the school should be kept open during those months and the usual vacation taken at some other period, the Department would have no objection to such an arrangement. It would not, however, consent to such a change, unless it would be in the interests of the Indians and not the teacher herself. If the Indians are on the reserve during these months and absent at some other ~~part~~ time of the year, it might be well to change the holiday season accordingly.

Before finally deciding the matter the Department would like to have a report from you.

Dear Sir:

Yours of may 19th to hand yesterday in which you spoke of the Fisher River school. You spoke of having decided to give me a grant of $50.00. I am not going to teach this year. I would like to know if I get this increase or will my successor benefit by my hard work?

You asked for a report of my work at Fisher River, suggestions to improvements..

I might say that the "Indian" was an entirely new subject to me when I went to Fisher River two years ago.

I found the children very reserved but not stupid.

In fact I may say I found some of the children (especially boys) what you might term brilliant.

I endeavoured to engage them in

English conversation as much as possible and I found much improvement during my stay.
The Indian children are very easily disciplined.
They are excellent writers and drawers.
If something could be done to interest the parents it would be a great encouragement to the teacher.
I think the Dept. should pass some kind of a law compelling the parents to send their children to school. I had 47 children on the roll out of 50 but some days I would have 5 present and probably 32 the next - now a teacher cannot do perfect work with the attendance so irregular.
If I take a school next year I would be quite willing to take up sewing and gardening. In fact I tried to interest some of them at Dishen River along the line of a school garden. I also asked to have the school ground fenced in but

In reply I beg to say that it is regretted that you had not previously intimated your intention to resign so that the question of appointing a successor could have at once been taken up.

Your remarks with regard to the aptitude of the children have been noted with much interest and there is no doubt good results would have been attained had you remained at the school.

As to the increase granted you on the 1st of April, last, I beg to say that you will be paid at the rate of $350.00 from that date and can, of course, only draw the portion of the increase earned during the three months.

Sir,

In my recent two visits to Fisher River I have sought to inspect the School at that point and have found it closed.

I think it most unfortunate that since the 24 th of May until the end of October no Teacher could be found for this School. Surely some person is to blame for this state of things. Meantime the Indian children are the losers.

I took a photograph of this School Building and inclose it .

It is rumored that the Department is proposing to make it a semi-boarding School . In this case some addition must be made at the rear of the present building in which a kitchen and a dining room could be placed with a door cut through the back of the School to connect the same with the present room.

If the Department desires to take action I shall be glad to prepare plans and cost estimates for a guide in making these improvements

In ~~reply to~~ your letter No 118277/1 of November 18 1910 you say that the Department would be glad to have my views as to the desirability of making provision for the giving of a mid-day meal at the Fisher River Day School.

Before saying anything in reply I must call the attention of the Department to a Report of mine on the question of a School for the Peguis Reserve sent to Ottawa on the 22 nd inst . This has reference to the whole situation at Fisher River and it must be understood that anything which I may have said there takes preference over this.

In this letter I am simply answering your query in the letter quoted above and am just speaking of things as they are to day and as they might be at a given place under other conditions. I am by no means abandoning the idea of the Boarding school at [illegible] River which as I said before would do away with Day Schools in this locality.

In providing a Mid- day meal the first consideration is a suitable kitchen and dining room where the meal could be prepared and eaten without disturbing the routine of school work.

The Kitchen should not be less than 10 x10 in size. The Dining Room should be 12 x 15 at least . That is to say you want a building 12 feet broad and 25 feet long to be divided up into kitchen pantry and dining room .

Then you will have to consider who shall do the cooking and whether house room must be provided for

the person who prepares the meals takes care of materials and keeps the place clean. If such a person were married and had no family possibly we might consider them in planning the new building so as to make room for them over head . That is to say again that an upstaire might be added when we were constructing the building for the accommodation of the Cook who if a woman could not live alone in the place.

This then will give us a basis from which to calculate the cost of the necessary building. I write this down as likely to cost $775.00

Next comes the cost of furnishing the place providing tables,chairs,dishes,cooking utensils,Cook-stove, table cloths,towels and fuel . This would cost us in the neighbourhood of $200.00

Then comes the cost of Provisions for say thirty hearty youngsters every day. The cost at the Lumber Camps of a single meal is 10 cents . The number of School days in the year is say 216 . The average attendance if a meal be given might be twenty . This gives us a simple calculation like this:-

"

30 Scholars at 10 cents per day equals 2.00

$2.00 multiplied by 216 days in year equals the astonishing sum of $432.00 for the school days of the year

Next is the salary of the cook which at the low sum of $1.00 per day is $216.00 If it be suggested that the Teacher can do this without extra salary I for one would not take such a proposition seriously. Not one in forty Teachers could or would do it.

It is likely that wood and water might be provided by the ratepayers without cost .

The wear and tear would not be great if the right sort of dishes and utensils were provided.

20 Now let us put these charges together :-

Building	$ 375.00
Furnishings	200.00
Provisions	432.00
Salary-Cook	216.00
Cost	1223.00

For the first year or for each succeeding year say for provisions and Cook only $648.00

The next question that comes to one is how many extra children can be drawn to the School in this way and on this point I am confident that there would be a large increase possibly so great that you would have to build a new school somewhere to take the overflow away and then add another kitchen at proportionate expense.

It would seem to me to be an immensely popular idea and every Reserve would demand similar privileges and the expense of extension on these lines would be enormous.

If we were to have two such establishments in Old Fisher River and there are children enough for that then the yearly expense there would be $1296.00 Then do the same in Iaguis at each end of the Reserve and we have $2592.00 as against a Boarding School expense of 40 Pupils at $72.00 or $2880.00 but the Boarding School would be an all day and every day School and twice the work could be done at nearly the same expense.

So far as I see it there is much in the proposition to commend. It is evidently creditable to the heart of the man who suggested it . It would indeed be a boon to the children who attend school. It would no doubt popularize the Department and attract many pupils . The only question in the case is that of expense . It would be easy to make a start in the new direction but hard to tell where it would have an.

During the past 3 months I have had
three disappointments in as
to Teacher Rivers. The Rev Mr Stevens is
expelled at Swimpy next week and I
am expecting a teacher to return with
him. The smallness of the salary the difficulty
of reaching there are factors that make
it difficult to secure a teacher, however
the offer of the Department may help a little. at the same time it must be
remembered that teachers salaries range
from $500 up. Lady teachers averaging
about $650. The children returned with
their parents to the reserve from all
parts about the end of Oct: and since
that time Mrs Stevens (who is a teacher) has
been teaching the school and will keep it open

EX'D

Ottawa, [illegible], 1920.

Dear Sir,

I have to acknowledge the receipt of your letter of the 7th inst., in duplicate, and your views as to the possibility of erecting a Soldier's Memorial at the Upper Town School.

In reply I beg to say that we quite agree with your suggestion of the manner of the treatment in this respect. In a small way of course it might look in keeping with the surroundings, but in the case of the Upper Town School, as you point out, it would be somewhat out of keeping with the character of the building. The proposal is not to erect a full size, but rather to supplement the bronze tablet by the addition of a memorial stone, on which the names of the fallen will be inscribed. The cost of such a memorial would be very moderate, and we shall be pleased to receive your suggestions in the matter.

Yours truly,

Secretary.

Dear Sir/

I wish to call your attention to the nature of my work in connection with the school at Fisher River.

As you are aware I came here a year ago, and during last year had in my register 76 with an average attendance of 41, thus making the Fisher River school the largest of the Indian schools and the heaviest in it's demands upon the teacher.

I believe my work was satisfactory to all concerned last year, while the remuneration was only $50.00 per month. This year the enrollment is at present 82 and the prospective enrollment, by Christmas time 88. The average attendance for September was 81.

It requires that 5 different classes shall be kept going all the time in addition to something for the smallest children.

I would like to enquire whether it is not possible to obtain some additional salary recognition for the work that I have to do. I may be permitted to add that I am doing all I can to increase the attractiveness of the schoolroom, andthe school life, and have organized for the children such things as sewing and singing classes outside of school hours. I hope my request for additional consideration will not seem unreasonable after 12 years of successful teaching in England and here.

TO DATE OF THIS LETTER.

Sir,—

I enclose herewith a copy of a letter from Miss Royan, teacher of the Fisher River school, who asks for an increase of salary.

You will have observed upon the estimates for the coming fiscal year an amount for a new school at Fisher River. A larger and new building is greatly needed there, and I would respectfully recommend that a school with a class room built so that an assistant teacher could have charge of the junior grades. I should think for this an ex pupil from the Brandon Industrial school would be able to give the teacher valuable assistance for a small salary. I am of the opinion that assistance in the Fisher River school is necessary, the attendance there being a large one and the work for one person being too hard. If this does not meet with the approval of the Department it would seem that Miss Royan's request for an increase of her salary to be a reasonable one.

I respectfully submit the matter for the judgement of the Department.

MEMORANDUM.

Mr. Scott.

Miss Emily Royan, teacher of the Fisher River Day school, has forwarded through Mr. Agent Carter a request for an increase in her salary.

She is at present in receipt of $500.00 and has been teaching in this school about one year. There is a large attendance of pupils at this school, varying in number from 65 to 80, with an average attendance of about 41. Miss Royan is a qualified teacher with twelve years' experience previous to her entering on Indian school work. This school is conducted under the auspices of the Methodist Church and Rev. Mr. Ferrier, in the list of salaries he requested for the various day schools conducted under the auspices of that church, only asked for a salary of $500.00 for the teacher of this school. As Miss Royan, however, has such a large attendance and as this is one of the largest day schools in Manitoba, I would recommend that she be granted an increase in salary of $50.00 per year.

The Agent brings up the question of providing a larger

larger school building, which, he states, is greatly needed on this reserve. Mr. Ferrier also made the same request a short time ago and he was informed that this matter would receive consideration. The same reply might be made to Mr. Carter, as there is no provision in next year's estimates for a new building at this point.

In reply I beg to inform you that the Department has decided to allow an increase of $50.00 per year in the salary of Miss Royan from the first of the current quarter and you may so inform her.

With reference to the question of providing a larger school building at this point I beg to say that this matter will receive consideration.

There are always some children late and there would be at 9 when Peter says if the bell were rung at 8 a.m. We have been back at school just five months, and Mr Stevens has never said one word to me about it. If he had said, "I would like the bell rung at 8 30" or anything at all, and I had taken no notice of what he said, he might then in a measure be grateful for putting such a puzzling matter ...

Sir,

I beg to transmit for your consideration a copy of a communication written by Rev. J. G. especially successful in her work on the Fisher River reserve for a span and a half. The attitude of the Methodist Missionary has been on several occasions such as to make her work more difficult and this last interposition seems to make it impossible for her to retain self respect and continue as teacher after this span, seeing that she must be a member of her Master's household if she remains. The work she has been able to do seems to me of such value to the Indian community that her departure would be a misfortune. Would it be possible to so define the teacher's position in relation to the resident Missionary in an authoritative communication to her as to protect her from possible recurrence of such interference

Dear Sir,

I have your communication of the 8th. instant with enclosure from Miss Royea, your sister-in-law and teacher of the Fisher River school, with reference to interference in school matters by the resident missionary, Rev. F. C. Stevens. I am today writing to the local Indian Agent requesting him to inform Mr. Stevens that the Department will not tolerate any interference in school matters whatever. I trust that this action will have the desired effect.

Dear Sir,

My attention has just been called to a matter of interference in the management of the school on the Fisher River reserve by the resident missionary, Rev. Mr. F. J. Stevens. Some time ago he sent the following discourteous note to the teacher:-

" Nearly all winter long I have been greatly
" annoyed about the half-past eight bell. I should
" have spoken about it long ago, but I don't want to
" have any words with you, nor will I have.

" I am taking this mode of procedure to let
" you know that I must insist on promptness in this
" matter from this time on."

I have to ask you to be good enough to give Mr. Stevens to understand that he has no say whatever in the internal management of the school, and

that the responsibility of the teacher is to the Department, through you, and to the Department alone. While we are at all times glad to have the cooperation of the missionary on the reserve in matters pertaining to the education of the children, you will readily understand that the teacher can only serve one master, otherwise her position would be unendurable.

Without bringing to Mr. Stevens attention this particular incident, you will be good enough to inform him that you have been instructed by the Department to advise him that he has no authority and must not endeavour to exercise any in the management of the school.

Sir,--

I beg to acknowledge the receipt of your letter of the 15th ultimo in reference to the attitude of the Rev J.C. Stevens towards Miss Royan at Fisher River.

In reply I respectfully beg to state that Miss Royan had informed me of this and I advised her that she was quite within her rights to refuse the request of Mr Stevens if it was inconvenient or if she objected to the carrying out of Mr Stevens' command.

Referring to your instructions that Mr Stevens be advised by me that he has no authority in the matter, I may say that I have spoken to Miss Royan about it, and Miss Royan has asked me to refrain from giving Mr Stevens this advice until after the end of the June quarter, stating that as she has to live in the home of Mr Stevens, it would greatly add to her discomfort if Mr Stevens was so advised.

Miss Royan informed me that she will not continue her office as teacher of the Fisher River school if she has to live at the home of Mr Stevens, but would continue if teacher's quarters are erected when the required new school is built.

Miss Royan is a good teacher and I shall regret to see her go.

Chief John Cochrane and Daniel Cochrane, Councillor, both of the Fisher River Band have complained to me that Mr Willie Stevens, son of the Revd F.C.Stevens, who is the teacher of the Fisher River school, punishes the children in a severe and cruel manner.

The Chief and Councillor stated that they spoke to the teacher of this and were informed that, if there was any trouble about it the children would be punished more severely. The Chief stated that the fathers of children punished had said that if the teacher continued his cruelty they would take it upon themselves to chastise the Teacher, and that many parents would not send their children to school so long as Mr Stevens was a teacher.

I warned the Chief and Councillor, and impressed it upon them that they must notify their people that they must refrain from any act of violence and that the matter would be investigated.

The Teacher denies having punished the children too severely and exhibited a small strap with which he states the chastisement was given. This strap could not hurt anyone.

I took the opportunity of a meeting with the Revd T.Ferrier in Winnipeg to place this matter before him and to advise that a married man be obtained for this school or two

qualified teachers, and that they reside in the quarters provided for the teachers.

It is greatly to be regretted that any break should occour in the efficient and smooth running of this school which has been so encouraging during the past three or four years.

At Fisher River many of the people are of the faith, known as Shakers, and I am afraid neither they or their opponents always shew a true Christian Spirit so that any permanent improvement under existing conditions cannot be hoped for.

Rev. Sir,-

I beg to enclose herewith a copy of letter received from Mr. Agent Carter in reference to severe punishment to the pupils of the Fisher River School by Mr. Willie Stevens, the son of the Rev. F. G. Stevens, who is the teacher of this school.

The Department would like to know which of the two Stevens referred to is at present teaching this school, as we have not been advised of any change having been made there lately, and if Mr. Willie Stevens is teacher what qualifications he holds and what is his previous experience, if any. If the statements contained in Mr. Carter's leter are borne out by the inquiries the Department would like you to make, Mr. Willie Stevens would not appear to be a suitable person to have charge of this school.

Mr. Carter is being advised that the matter is being referred to you and I should be glad if you would favour the Department with an early report.

Dear Sir:-

I received yours of the 1st, # 118277/1, and also Mr. Carter's report of Nov. 15th, which you enclosed, and the following is my reply.

When looking for teachers to fill vacancies at mid-summer, I had no guarantee nor assurance that the new school at Fisher River was going to be ready for occupation at an early date. It appeared to be doubtful whether it would be ready before Christmas. As the Department is probably aware, it was opened on the 15th of November. I endeavored to get a male teacher for the Senior room who would be a suitable person to look after and supervise both of the rooms, but while I had several applications, there did not appear to be one that was just suitable for that particular position. In the meantime, Mr. Carter's daughter had written me asking for the position of Junior teacher. I may say that his daughter has a professional teacher's certificate, and I have every reason to believe that she is a good teacher, having taught in other schools. She is about 25 years of age. So I accepted her application to take charge of the Senior room.

In the meantime, the Rev. Mr. Steven's son, W. G. Stevens, who has taken up the Junior and Senior Matriculation work in Winnipeg schools, applied for the position, and not being sure just how long the Junior teacher's services were needed until we had given the school a trial, I engaged him. It may be found that two teachers will be required between April and the summer holidays.

Now as to the trouble that has arisen. I find on enquiry that there are just two boys that have been trouble-some, and they have been troublesome to other teachers and as soon as Mr. Stevens took charge they deliberately set to work to interrupt the school and defy authority. These two boys were punished with a strap about 20 inches long and a little heavier than an ordinary skate strap. It was on the hands, and with such an instrument could not be called severe and cruel. The Chief and Councillors were informed, and rightly so, that the boys would be punished more severely if they continued as they had done.

I understand that there has been no trouble since that date, and that, at the present time, things are moving along very pleasantly. The school is well attended and none are staying away on account of the fracas.

Rev. T. Ferrier
Superintendent of Methodist
Indian Schools and Hospitals in Canada

I talked this matter over with Mr. Carter and Rev. Mr. Stevens and pointed out to them that If I took any steps whatever to remove either of the teachers on such a slight pretext, it would establish such a precedent that would be difficult to keep order and discipline in the future, inasmuch as the Chief and Council would consider that all they had to do was to kick up a fuss and the teacher would be dismissed.

These engagements are for the present fiscal year. I have not seen the building, but I understand that there is room for a married man to live in it. This being the case, we will endeavor to have a suitable man to take charge after June. In order to do this, a salary of at least $1000 per year will have to be provided for the same and an additional grant of $500 for the Junior teacher.

As Mr. Carter stated in his report, the school has been running smoothly and handled effectively, and good progress has been made during the last 3 or 4 years. I think we will be safe in assuming that there will be no break in this record, but that it will rather be increased on account of a better building and more hopeful signs for the future.

In the meantime, we have two smart, bright persons in charge and the school seems to be moving along nicely, and it is to be hoped we will have no further trouble.

Trusting that this explanation will be satisfactory,

Yours respectfully,

J. Ferrier

Sir,—

Referring to your letter No. 118277/I. of the 1st instant, relative to the complaint of severe punishment inflicted upon the children of the Fisher River Day school, by the teacher, Mr W.Stevens, I respectfully beg to state that I have delayed my reply until now in order that I might visit Fisher River and obtain more information.

I also beg to state that Mr Ferrier has sent me a copy of his report upon the matter.

My opinion is that a very grave mistake was made by placing in charge of a school a youth entirely devoid of training or experience in teaching. The literary attainments of a person, however praiseworthy in themselves as a guarantee of the ability to conduct a school, and I can see no reason why only qualified teachers cannot be obtained for the Fisher River school.

My daughter, who is at present in charge of the Berens River was trained in the Winnipeg Normal school and has had some five years experience in teaching, but she cannot instruct at Fisher River longer than about April next, having then ought to wed for the more permanent occupation of marriage.

I would strongly recommend that, at any rate not later than the end of the summer term, two trained and experienced teachers be obtained for the Fisher River school.

Mr Ferrier's remarks that $1,000.00 be allowed as salary for these teachers, and that, possibly between April and the summer holidays two teachers will not be required,

would appear to be an oversight. $1,000.00 with quarters and fuel is fully equal to the remuneration received by any two trained certificated teachers in the rural schools of the Province of Manitoba, and the attendance during the time referred to should be quite equal to the best at any time of the year.

I quite agree with Mr Perrier that it would not be wise for the Indians to have the idea that they can have a teacher removed whenever they may happen to wish it, and should think the appointment of two teachers to commence the fall term would settle the whole matter satisfactory to all.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 9th ultimo reporting upon the complaints made by the Chief and Councillor of the Fisher River Band on the ~~severe~~ punishment inflicted on the children attending the Fisher River school by Mr. W. G. Stevens, one of the teachers there.

In reply I beg to say that, ~~while there may have been provocation and justification to some extent for the punishment inflicted,~~ the Department is of the opinion that it would be in the best interests of the school if two qualified lady teachers were placed in charge. They would be preferable to a married man and his wife or to young, inexperienced male teachers and there should not be much difficulty in securing competent lady teachers at the salary the Department is prepared to pay, as there is excellent accommodation provided. The Department would be glad if you would give this suggestion your early and favourable consideration.

Rev.Sir,-

I have to acknowledge the receipt of your letter of the 3rd instant suggesting the employment of a married man as head teacher of the Fisher River School and a lady teacher as assistant.

In reply I beg to say that the Department is still of the opinion that two competent lady teachers would best meet the requirements of this school, as there would not be sufficient accommodation in the teachers quarters for a married man and his wife and family and an assistant teacher, while the accommodation would be ample for two lady teachers. This experiment of having a married man and his wife in charge of a school with a lady as assistant has been tried and has not been found to work satisfactorily. The Department would be pleased if you would do your best to secure the services of two lady teachers for this school.

Dear Sir,-

Attached hereto you will find a list of names of members of the Fisher River band brought to me yesterday by the Chief John Cochrane and Councillor Daniel Cochrane who stated that they are the signatures of their people who wish, that, if The Revd F.G.Stevens will be continued as missionary at Fisher River, that the Department supply them with teachers and that the Missionary be instructed that he must have nothing to do with the school.

I informed them that the Department had advised me that the Revd T.Ferrier had been asked to attend to this matter and they replied that Mr Ferrier would not believe anything that the people might state, that about six years ago they had asked Mr Ferrier to remove Mr Stevens, but Mr Ferrier had informed them that he would not, and that all that the Missionary stated was accepted but that the people were not listened to.

There is no doubt something to be said for both sides, but I would respectfully urge that the proposal contained in your letter of January 12th, last, that two lady teachers be appointed and required to board themselves in the quarters provided, be strictly insisted upon.

Councillor Cochrane said that Mr Stevens had stated, that he, Mr Stevens was the one who had caused the new school to be built and that he was responsible for the teachers.

Additional charges were made against the teacher, Mr W. Stevens, but the whole affair has become very wearisome and disappointing and I hope that the appointment of the teachers proposed by yourself will be a solution of the difficulty.

Dear Mr. Ferrier -

In connection with the appointment of teachers for the Fisher River School, I have just received a communication which strengthens my previous attitude that this school should be placed in charge of two qualified lady teachers, who would be entirely independent of the mission in so far as the management of the school is concerned.

I am very much interested in this school, and we have erected at considerable expenditure a modern building, which,I presume, would compare favourably with any similar institution in white settlements in the west. There are children available and everything would point to a successful school, if we were fortunate in our selection of teachers.

I hope,therefore, that you will be able, without much further delay,to nominate two competent lady teachers for this school.

Yours very truly,

Dear Sir:

I have secured the service of Miss Alice Higginbotham and Miss Edele Gibson as teachers at the Elsmer River school. Both of these ladies have passed the Second-class teacher's examination and I would like your approval of the appointment.

This is in harmony with the request that two lady teachers be appointed.

I have received a letter from the Principal of the Fisher River school, Miss E.H.Gibson, stating that the cold spell recently experienced has demonstrated the fact that the heating system at the school is inadequate and asks that a stove be supplied for each room.

This would appear to be necessary and I therefore respectfully beg to recommend that the request of Miss Gibson be granted. I should estimate the cost of this addition to the heating plant of the Fisher River school at about $50.00 as it will necessitate the services of a mechanic to make the necessary connections with the flues from the furnace.

Extract from report of Agent Carter on his visits to the reserves of Fisher River, Jackhead, Berens River and Bloodvein. Report dated January 17, 1917. Original on 427000/36.

On January 2nd I visited the Fisher River School and found 8 pupils in attendance. Miss Higginbotham was away to have her teeth attended to in Winnipeg and Miss Gibson conducted all the classes during her absence. The attendance at this school is very poor considering the number of pupils of school age in the reserve.

Sir,-

In your monthly report for January, it is noted that you visited the Fisher River day school and found that the attendance is very poor.

As you are , no doubt, familiar with conditions on this reserve, the Department considers that you should be able to devise means for increasing the attendance.

The advantage of education should be pointed out to the Indians and they should be encouraged both by the teacher and yourself to send their children to school regularly.They might, also, be warned that if they do not comply, the compulsory sections of the regulations will have to be enforced.

The Department trusts that by means of your earnest cooperation the attendance at this school will improve in the near future, and will expect a report from you as soon as you have an opportunity of taking up this important matter.

The Headmen reminded me of the resolution passed on November 6th 1916 asking for accommodation for children of families living at too long a distance from the school to allow their attendance, and also pointed out that several of the children had arrived at or about the age limit and the parents were keeping them at home to work.

This is true, some families having moved to the west end of the Fisher River reserve in order to take advantage of the land more suitable for gardens and farming operations.

I trust an improvement in the attendance at the Fisher River school will able to be reported in the future when the school is re-opened . The school is now closed on account of measles.

Replying to your letter No. II8277-I of the 6th instant requiring a report of my endeavour to secure a better attendance at the Fisher River Day school, I respectfully beg to say that I visited the Fisher River on the I5th and I6th instant.

Miss Gibson, the Principal of the school stated that some of the children had been sent home on account of itch, some were absent with very bad colds and some with measles.

Miss Gibson stated that she would do her best to induce a larger and more regular attendance.

I spoke to the Chief and Councillors upon this subject and pointed out to them that the Department had been most kind to the Fisher River people in establishing a splendid school in their reserve, had provided qualified teachers and upon the matter being brought to it's notice, had installed an addition to the heating system for the comfort of their children. I drew attention to the poor attendance and impressed it upon the Headmen that the apparent indifference and lack of appreciation was far from encouraging and that the education which could be derived from the facilities provided would be of great value to their children in the future.

I also warned them that if the attendance of the children of school age did not improve the neglected children would have to be committed to an Industrial School.

The Assistant Deputy & Secretary,

Sir,-

After the election of a chief and three councillors at Fisher River reserve on the 21st inst,I had a talk with these new officials of the band.

The new Chief is Joseph Everett,a very, terrible and intriguing man,so far as I have known him. The Councillors elected are Daniel Cochran,John Thomas Cochran and David Rundle,these with the old life councillor Henry Costatat,make up the full council. The election was orderly, and the solution of the men elected,was most definite.

The chief in his remarks spoke of the school,and he desired that the school should kept open according to resolutions,and in accordance with the wishes of his people in this regard,he stated that he was sorry that the school had been closed so early this summer. He also promised to give his duties careful attention,without neglecting his personal obligations to his family. I congratulated him for his sensible and common sense address. He was followed by his councillors,in the same strain of expression. They all intimated that they desired good teachers,and that they would do all/in they could to have good attendance. Mr Ferrier was present and heard this,and their full remarks.

They asked for a team of oxen,this I promised to submit,intimating that during our times,their wants would have to be very carefully considered,as there was not much money to provide these things.

They spoke,appreciative in language of their needs. I

I told them that it would not be possible to expect this for old and established roads or bridges,but if any new roads were needed,and absolutely necessary,the Department might consider the matter,but again the war conditions made this a very difficult matter,and this would be so,for the whole period of the war.

Lieut Joseph Jones made an appeal for men to go to the front,with #2 Forestry Company,the Indians did not take this in a favorable way at first,I told them of the war,and asked them to seriously think this matter over,the work of such a company would be most useful,and they were men who could do much for the cause in using their skill to assist in this way. I might now say that some of the young men of this band have made the supreme sacrifice,and there are a number of others in the fighting line. I am hopeful that they will respond,in some measure,to the appeal made.

This covers the natters brought forward at this meeting,and the manner in which they were handled.

As to the opening and closing of the school,I have treated that in my letter,of this date,dealing with the school building,its condition,and school matters in general.

Sir,—

I beg to acknowledge the receipt of your letter No. II6277-I of the Ist instant referring to the closing of the Fisher River School before the end of the June term.

Replying to this I respectfully beg to direct your attention to the resolution No. I of the Fisher River Band passed on May 21st last, asking that the Fisher River School be kept open until the end of June. So far this resolution has not received the acknowledge-ment of the Department.

After the meeting of the Band I asked the teachers of the Fisher River School if they had any intention of closing the school before the end of the June month and was informed that they had targained to teach the Fisher River School for 200 days and as this amount would be reached about the 8th of June the teachers were expecting to leave about that date.

The school returns for the quarter ended June 30th will show that the Fisher River School was closed on June 10th. last.

I do not know why or by whose authority the Fisher River School was closed at the time stated, but I do know that the attitude of the teachers was strongly indicative that they considered they were not under the management of the Department or its officials and as I have had occasion to many times refer to the drawback to efficient or smooth running of the Fisher River School, I feld diffident about making any further reference to the matter lest I be judged to have a grouch or ill-feeling.

I pointedly asked Miss Gibson if Mr Steven's conversation

had the tendency to prejudice her against the Indians, the Department and it's officials and was informed that it had most decidedly, and that also both Mr and Mrs Stevens had stated that the teachers were mostly responsible to the Missionary in charge.

Dear Sir,-,-

At the time treaty was paid at Fisher River, I accompanied Mr. Bunn, your inspector, and we made an inspection of the school building and premises. Mr. Bunn took a list of furniture that would be required to make it at least habitable for a couple of lady teachers. I am engaging a Miss Menzies and a Miss Follett to take charge of the school for the coming year. Both are excellent women for this type of work. Miss Follett taught our junior room in this institute for about seven years. She is a first class teacher for Indian children. I have engaged them with the understanding that this furniture would be supplied by the Department. School will be opened next Monday.

Reverend Sir,-

The Department is in receipt of the September quarter return of the Fisher River Day School.

This return shows that Miss Lilly M. Taylor has given up her duties as one of the teachers of this school and has been succeeded by Miss Jennie Y. Huntsman. The Department has received no intimation as to change of teachers at this school and you will be good enough to state whether Miss Huntsman was appointed by you and if so, what are her qualifications and the amount of salary which she is to receive.

The salary due for the September quarter is being withheld until the above information is received from you. The date upon which Miss Huntsman began duties should also be stated. An early reply is requested.

Dear Sir,-

Miss Menzies who has been teaching at Fisher River is leaving and I am sending her to Kishpiox, B. C. The Department is aware that there have been two teachers at Fisher River. There was not perfect harmony between them it was thought best to make a change. On account of the Influenza epidemic it is quite likely that the one will be able to manage all right for the balance of the school year, and I do not think any serious effect will result from this arrangement for a short time. The people may ask for the second teacher and if so it might be well for the Department to suggest to them that one is quite able to finish for this year. Miss Huntsman is a Second-Class Professional teacher and is doing excellent work.

Miss Menzies will be entitled to the balance of the war bonus [illegible] as she continues in the service.

Trusting that this will be satisfactory to the Department, I remain

Reverend Sir,-

I have to acknowledge the receipt of your letter of the 23rd ultimo, informing the Department that Miss Menzies, one of the teachers at the Fisher River Day School, is being transferred by you to Kishpiox, B. C., as teacher at that point.

In reply I beg to say that the transfer of Miss Menzies is approved. Her salary and war bonus will be paid her as teacher of the Fisher River school until the 31st ultimo. The balance of the bonus will be paid her at Kishpiox at the end of the March quarter if she continues in the service. Her salary will be continued at the same rate as was paid her at Fisher River.

It is noted that you consider that one teacher will be sufficient to carry on the work at Fisher River until the end of the current school year, namely, June 30th next.

Mr. Agent Carter will be informed accordingly.

I have to acknowledge the receipt of your letter of the 1st instant in which you inform the Department that you had appointed Miss M. E. Williams to succeed Miss Menzies as teacher at the Fisher River Indian Day School.

In reply I beg to say that it was under stood at the time Miss Menzies was transferred to Kinhpiox, that Miss Huntsman would be quite able to manage for the balance of the school year as the attendance was not large enough to justify the appointment of a second teacher at the present time.

I may say that the chief and councillors of the band forwarded, in January last, a request for another teacher to succeed Miss Menzies, and Mr. Agent Carter was instructed to inform them that the Department did not consider that another teacher was necessary. It would have been well if you had consulted the Department before appointing Miss Williams. You should state whether she is to be paid salary at the same rate as was granted Miss Menzies.

It has been brought to my attention that the attendance at the Fisher River school is exceptionally poor. The Department takes a very serious view of this matter, and will expect you to take prompt and efficient measures to bring about a radical improvement in the near future.

In connection with this subject I would draw your attention to section 8 of the school regulations, whereby any Indian child whose education is not being properly provided for may be placed in a boarding or industrial school, and I would point out that in the present case, if the Indians persist in their refractory attitude, it may be necessary for the Department to invoke this section with a view to placing the children concerned in the Brandon Industrial school. Dear Sir,—

Will you please advise me regarding the following matter? The ordinary academic year has 200 teaching days. On the Quarterly Report. Instructions to Teachers" It reads. "All authorized holidays will be paid for."

Does this mean that legal holidays e.g. Good Friday. Labor Day. and such, if coming on a school day and observed, will be paid for?

Also where schools are more than 30 miles from a railway station and difficult to reach does the Dept make any slight allowance of time, that is does the Dept figure. It's harder to come and and cannot exactly on time as it has to. beg the distance.

Sir,-

I have to acknowledge the receipt of your letter of the 5th instant regarding the holidays allowed during each school year.

In reply I beg to say that all Indian day schools are required to be kept open not less than two hundred days in each year, except the Roman Catholic schools, which are allowed five days extra holidays as days of obligation. It is considered that, allowing for all holidays, there is ample time in each year to teach the required number of days, and, in order to draw the full yearly salary, teachers of day schools should teach the required number of days. The Department makes no provision to allow extra leave for teachers who live at a distance from the school in which they teach to travel to and from their homes during vacations.

Dear Mr Ferrier;

I am writing to you in regard to my salary as teacher here. I am going to ask you for an increase of a hundred and fifty dollars. on the fixed salary of seven hundred dollars, which, plus the bonus, would bring the total salary to one thousand dollars.

My reason for doing this is the increase in the cost of living since last autumn. This is greatly augmented in here by high freight rates as we are so far from the railroad. It is impossible for a married man to keep things going on the present salary plus bonus. One cannot live under a thousand dollars per year.

I honestly think my work is worth this increase. And again, living so far from town or city should make the salary more attractive than that of the ordinary school, which however, is not the case. You will probably have noticed the increases which have been granted to the teachers in the ordinary schools. Quite recently I was offered a good school in the Province by the Dept of Education but rather than accept I determined first to ask you about an increase in salary.

I trust you will see fit to forward this to the Indian Department with any recommendation you may see fit to add.

Ottawa, March 24, 1920.

MEMORANDUM.

Mr. Scott,-

Regarding the request made by H. G. Mingay, teacher of the Fisher River Indian Day School, to the Rev. T. Ferrier for an increase of $150.00 in his present salary I beg to say that Mr. Mingay began duties at this school on August 20th, 1919, with salary at the rate of $700.00 per annum, and his wife was appointed assistant teacher at a salary of $600.00 per annum.

Mr. Mingay is a returned soldier. He completed his second year in Arts at Toronto University, but has never taught school before. Mrs. Mingay has Ontario Normal Entrance and was in her first year in Arts at Queens. She has had two and a half years' experience in ~~the~~ white schools in the Province of Ontario. There are 75 pupils enrolled at this school, with an average of 35.

Mr. Ferrier informed me that Mr. Mingay was greatly interested in his work and was making a success as teacher and that he would be very sorry to lose his services.

At present the combined salaries and bonus received by Mr. and Mrs. Mingay amount to $1600.00. Mr. Mingay personally is receiving the highest salary paid to teachers in the Indian schools in Manitoba. We pay as high as $900.00 to several teachers in British Columbia. Mr. Ferrier strongly recommended that an increase be granted, and I would advise, in order to retain the services of the Mingays at this school, that he be granted an increase of $100.00, making his salary $800.00 per annum, and that such increase date from the first of April, next.

Rev. Mr. Ferrier, Superintendent of Methodist Indian Schools, during his recent visit, placed before the Department a communication which he received from you applying for an increase in your salary as teacher of the Fisher River Indian Day School.

I beg to inform you that the Department has agreed to increase your salary from the first of April, next, the beginning of the next fiscal year, to $800.00 per annum. This is the highest salary paid to teachers in Indian day schools in the province of Manitoba, and will make, with the salary allowed Mrs. Mingay, a combined amount of $1400.00. You will both be entitled to receive the bonus, should it be continued during the next fiscal year.

Ottawa, May 12, 1920.

Sir,-

The Department is in receipt of a communication from Meriel Cochrane, Fisher River, Man., in which he states that he has one girl over fifteen years of age and she was told that she could not attend the school next year.

Kindly make inquiries in regard to this matter and ascertain whether this statement is correct and, if so, why she would not be allowed to attend the school next year. The Department would like to have a full report from you in regard to this matter. It is considered that a pupil sixteen years of age is not too old to attend a day school, and this girl should be allowed to attend the Fisher River School, unless there are some very good reasons to the contrary.

Asst. Deputy and Secretary.

IN YOUR REPLY REFER TO

SIR:
TO DATE OF THIS LETTER

June 1st, 1920. 19

538817

Referring to your letter No. 118277/1 of the 11th ultimo requiring information as to the correctness of a report received from Daniel Cochrane of the Tobique River Band to the effect that he has a girl over fifteen years of age who was told that she could not attend school next year, I respectfully beg to state that the teacher Mr W.J.Wrigley has informed me that the girl who is fifteen is still attending the Tobique River Day School, but the other two girls of Daniel Cochrane, he has discharged as Mr Wrigley states they have been at a stand still for some time, taking attention that could be more profitably given to others.
Mr Wrigley reports in writing as follows,-

"In reference to the children of Daniel Cochrane I might say that when I took the school I found three girls of Mr Cochrane in attendance. On consulting birth registers of the Mission and comparing these with old registers of the school I found their ages to be 18 and 14 respectively. I discharged the girl who was eighteen and the other girl attended all winter. After the year's work was covered and the mail was over I discharged her as I did not wish to review the work with her. She had been on the same form for three years. I gave my attention to the advancement of a junior class. She has not completed her fifteenth birthday and attended school the whole year."

Sir,-

I have to acknowledge the receipt of your letter of the 4th instant with reference to the children of Daniel Cochrane of the Fisher River Band who have been attending the Fisher River Indian Day School.

In reply I beg to say that it is considered that the youngest girl is not too old to attend the day school and she may be allowed to attend when the school re-ppens after the summer holidays for another year, provided she complies with the discipline of the school and shows an interest in her studies. It is considered, however, that the two other girls are too old to attend the day school, as the attention that would be given by the teacher to them could be more profitably given to the younger pupils. You will be good enough to inform Daniel Cochrane accordingly.

Dear Sir;-

Just before I left the school at Fisher River, Mr Agent Carter showed me a letter from you to the effect, that if Mrs Mingay and myself were leaving the school at the end of the year would we please forward our resignation.

I might say I am not going to teach at Fisher River next year but intend to get more professional training and for the reason, and also that Mrs Mingay's health was not too good we have come out for a year.

We liked the work and rather than resign would prefer a years leave of absence, without salary of course, so that we are normally employed servants If this could be done will you kindly let me know.

If you have any pamphlets regarding the new Indian Act I would very much like to have one. My present address is as above.

Sir,-

I have to acknowledge the receipt of your letter dated the 2nd instant, which only reached the Department yesterday, requesting that a years leave of absence without salary be granted to Mrs. Mingay and yourself, as it is not your intention to resume duty at the Fisher River Indian Day School next year.

In reply I beg to say that this school is conducted under the auspices of the Methodist Church, and the nomination of teachers for Methodists schools is in the hands of the Rev. T. Ferrier, Superintendent of Methodist Indian Schools. It might be well next year, if you and Mrs. Mingay wish to return to the work as teachers in an Indian school, to communicate with Mr. Ferrier.

The new Indian Act is in the hands of the printer and has not yet been received. Your request for a copy has been noted and as soon as they are received a copy will be sent you.

INDIAN AGENT'S OFFICE

The Halfway P.O.Man.

Oct 28th, 1920.

Sir,--

I respectfully beg to submit herewith a letter received from the teacher of the Fisher River Day School.

I have gone over with Mr Donagh the matters mentioned therein and have advised him that the supplies he is expecting would perhaps be at the Hodgson Express Office and I have requested the mail-carrier to be good enough to call for the supplies and freight to Mr Donagh at Fisher River.

In reference to a musical instrument for the Fisher River School Mrs Donagh would prefer a piano, but I pointed out that the distance from Winnipeg would entail great difficulty and expense for the services of a tuner which would be frequently required,and suggested that an organ would be more suitable for the Fisher River School. I would submit this request for your consideration and would recommend that an organ be supplied.

In the matter of the remuneration of the Janitor I am quite in accord with the views express by Mr Donagh; there being considerable work in connection with the Fisher River School and it cannot be expected the janitor will give the amount of time required for this work at his present pay.

In talking over with Mr Donagh matters of a general character pertaining to the School and grounds etc I advised that consideration of requests made for things extra to ordinary requirements would be much more likely to receive favour if the intention of the teachers was for a permanent service with a due interest.

I regret to state that Mr Donagh feels that his attainments which qualify him for high school work, are wasted to a considerable extent at Fisher River and that he does not expect to stay at Fisher River longer than the end of the June quarter.

Ottawa, November 5, 1920.

Sir,-

I have to acknowledge the receipt of your letter of the 28th ultimo enclosing a communication from W. T. Donagh, principal of the Fisher River Indian Day School.

In reply I beg to say with reference to the school supplies asked for that a requisition reached the Department on the 25th of September and, as you were advised by letter of following date, the articles considered necessary were ordered from the Government Stationery Office, to be forwarded to the teacher's address. Information has been received from the Stationery Office that the sixty scribblers and six blackboard erasers have been sent, while the readers, plasticine, drawing books and weaving material will be forwarded at a later date. The Stationery Office is now being requested to endeavour to have all the supplies asked for forwarded as soon as possible.

With reference to the musical instrument asked for I beg to say that the Department does not provide pianos nor organs for Indian schools.

With reference to the salary of the caretaker I beg to say that $100.00 per annum is allowed for this work. This is as high a salary as is paid caretakers of two roomed schools. If the present caretaker will not perform the duties for that amount, you should endeavour to obtain the services of a competent person who will.

Ottawa, January 10, 1921.

Sir,-

The attention of the Department has been drawn to the poor attendance of Indian children at the Fisher River Indian Day School. The average attendance, as shown by the returns received during the last year, is less than fifty per cent of the enrolment. There does not seem to be any reason why all the children in good health should not attend regularly. The Department has been under considerable expense in the past year in repairs and improvements at this school and good educational facilities are provided and the Indian parents should take advantage of the same and see that their children derive full benefit by regular attendance.

You will, therefore, be good enough to inform the parents that it is expected that their children of school age and in good health will attend regularly each day school is open. If, after this notice is given, any of the parents refuse or neglect to see that their children attend, steps will be taken in the case of the worst offenders to have their children sent to the Brandon Industrial School, or to a residential school of the religious denomination to which the parents belong. The Department will expect you to give your attention to the matter of attendance at this school and you can obtain from the teacher a list of those children who do not attend regularly and at a later date inform the Department, when the question of placing such delinquent children in residential schools will receive consideration and you will be advised as to the steps you should take in the matter. You will, therefore, inform the parents that the Department must insist on a more regular attendance at this school and, if they neglect this warning, their children will be sent to a residential school. Be good enough to give this matter your earnest attention.

I respectfully beg to acknowledge the receipt of your letter No. 13[illegible]-5-7 of the 10th instant relative to a report sent the Department about the attendance of children at the Fisher River Day School.

A number of Indian families have removed further up the Fisher River in order to take advantage of better lands; the children of these families are considerably over 2½ miles from the school and sometimes reside with friendsnear to the school

The attendance of these children is consequently irregular Several requests for school in the Vicinity of these families have been submitted. There are, however, some who neglect to send their children to school who live near to the school and I will at once again notify the parents of children living within reasonable distance from the school as you direct and report to you as desired.

OTTAWA, May 4th, 1922.

Sir, -

Mr. W. C. Tong, teacher of the Fisher River Indian Day School, states, in his annual report, that the Indian parents are taking a great interest in the education of their children and encourage regularity of attendance, and that some of them leave their children with friends while they themselves are away hunting. He recommends that it would greatly encourage the children if a few prizes were given for punctuality and regularity of attendance.

We have, in the past, allowed a small grant to a few Indian schools for the purpose of purchasing suitable prizes to be distributed to the children before the schools close for the summer holidays. In the case of the Fisher River School we will authorize an amount not to exceed $10.00 in the purchase of books or other articles which would be considered appropriate by the teacher to be given to the children as prizes. You may, therefore, arrange with the teacher for the purchase of books or other articles at a cost not to exceed the above amount.

Itemized accounts, in duplicate, should be received, which you will be good enough to attach to proper voucher forms and certify the same and forward to the Department for payment.

These prizes should be given to the pupils whom the teacher considers should be awarded the same on some day before the school closes for the summer holidays, and the parents and others interested should be present on the occasion of the distribution of these prizes. You will be good enough to inform the teacher accordingly.

Sir,

We the Indians of the Fisher River Reserve in the Province of Manitoba beg to petition your Department that your Department graciously by grant and enact that our present Teacher Mr. and Mrs. Long be appointed and remain in office as Teachers of the Fisher River School for a period of five years.

We have had a efficient Teacher in every way and one whom we have made much progress since that we desire to retain their services for an indefinite time. Under the tuition of Mr. & Mrs. Long our children are advancing in their studies to a (grammar) point suitable for a first class at the first time in the history of the Fisher River School.

Ottawa, June 26, 1923.

Sir:

I have to inform you that the Department is in receipt of a petition, signed by Chief Dan Cochrane and some 70 of the Fisher River Indian Band, in which they request the retention of the services of Mr. and Mrs. Tong for a period of five years, and the establishment of a day school for the children living on the western portion of the reserve.

I am enclosing, for your information, a copy of official communication in answer to this petition. I should be pleased if you would make a report on the need for a day school at the western end of the Fisher River Reserve. You should mention the number of children of school age who are living to the west of the present school and who are too far distant to attend regularly. You should also intimate how many of these children would be within reasonable distance of a new school, if one were erected on a central site.

Your obedient servant,

J. D. McLean.

Sir:

I have to acknowledge a petition dated the 15th instant, signed by yourself and other members of the Fisher River Indian band. I have noted that you request that the Department retain the services of Mr. and Mrs. Tong, the present incumbents at the Fisher River Indian Day School, and that you urge the establishment of a day school at the western end of the reserve.

In reply I beg to state that the Department is satisfied with the services of Mr. and Mrs. Tong, and arrangements are being made to have them continue their work for at least the coming academic year. I wish to inform you, also, that a communication has been addressed to Mr. Agent McCuish, asking him to report on the advisability of establishing a day school at the western end of the reserve.

Sir.—

I beg to acknowledge receipt of your letter I36-2-I of June 26th.last,enclosseing copy of petition from Chief Dan Cochrane of the Fisher River Band of Indians and 70 others,in which they ask for a new school to be built in ~~XXXXXXXXXXXXXXX~~ the Western end of the Fisher River Reserve.

I have visited Fisher River Reserveon two occasions and find it very hard to get any reliable information from any of the Indians living in that end of the Reserve.

However according to the register of births for Fisher River Reserve,I find the following pupils living over 2½ miles from the present school.

Children of Ben Cochrane, boy II years,girl 6 years.

" W.T.Murdock, 2 boys I2 & I4 years, 2 girls 7 & I0 years

" Alex.Hudson I girl 7 years.

At the present time there are only the 7 children of school age.

On this Reserve,in the case of boys,when they become the age of I2 & I4 it practically requires a special policeman,for each family to get them to school.
As it is 5 miles from the west boundry of the Fisher River Reserve to the present school,by putting a new school in the centre,the benefit,I do not think,justifies the expence.

I have the honour to be,
your obedient servant,

M. McCuish

Dear Mr Fernie:

I am forwarding to you a copy of programme of closing concert at our day school.

The whole affair was excellent. I cannot speak too highly of the way Mr & Mrs Long trained the children. Even Mrs Ebanne has not done any better and that says a great deal.

I thought I should write you about this. I wish you a prosperous and happy year in 1925.

Dear Sir:—

I am sorry to have again to refer to your letter No 136-2-1 of June 26th & July 21st 1923.
My people of the Fisher River Band are continually bothering me about the establisment of a School at the Western end of the Reserve for the tuition of those children who live altogether too far from the present School to obtain education.
It is thought that the matter of distance from the present School to the homes of the children referd to was overlooked in the (the) information Supplied you and if you will be good enough to send us a copy of a Map of

the Fisher River Reserve we will mark upon it the exact location of the homes of the children in question, when it will readily be seen that the distance the children would have to travel to the present School altogether unreasonable.

The Suggestion by some that conveniences be supplied to bring to, and take from the (the) present School the children of the western end of the Reserve does not meet with the approval of the Band, it would also cost far more than a school and a teacher. On behalf of the Fisher River Band I again ask for a school to be established on the Western Side of the Reserve, as the children there cannot attend the present School, and we do not wish any more of our children to be sent to Brandon Industrial School.

Sir:

I have to acknowledge your letter of the 19th instant, requesting the Department to establish a school at the western end of the Fisher River Reserve. I wish to assure you that the Department is aware of the distance of some of the homes from the Fisher River Day School. The last report which we have received from Mr. Indian Agent McCuish in this connection indicates that there are not a sufficient number of children to warrant a new school. It is the Department's opinion that the parents who live remote from the day school would be well advised to apply to have their children educated at an Indian residential school. I should be pleased if you would let me have the names and ages of the children who are living at the western end of the reserve, more than two miles from the present school. The Fisher River Band is very much opposed to sending their children to a residential School and would wish to refer to their treaty which states, that, "a School shall be established and maintained upon the reserve when the Indians shall require."

On behalf of the Fisher River Band I would again ask for a School to be built for the education of the children living over two miles from the the School. If this cannot be done then I would ask that a conveyance be provided to bring the children to the present school and take them home in the evening.

Ottawa, March 24th, 1925.

Sir:

The Department has again been requested by Chief Dan Cochrane, of the Fisher River Reserve, to establish a school for the benefit of the Indian children residing at the western end of the Reserve and who live at too great a distance from the present school to attend. The Chief submits the following statement of children of school age residing over two miles from the Fisher River School: -

Willie Stevenson	...	2 children	... 2½ miles from school,
Fred Amos	...	3 children	... 2½ " " " ,
James Murdock	...	1 child	... 4 " " " ,
William Murdock	...	3 children	... 4 " " " ,
Ben Cochrane	...	3 children	... 4½ " " " ,
Alex Hudson	...	1 child	... 3 " " " .

The Chief further states that there are several other children who will, in a short time, as they come of age, be available for the school, and that the population in this section of the Reserve will increase, as it is the best part of the Reserve for cultivation. The Chief asks that a school be built for the education of these children, or, if this cannot be done, that a conveyance be provided to take the children to and from the present school.

Please enquire into this request of the Chief, and furnish a recommendation as to whether you would advise that the expenditure necessary be provided to erect a building and conduct a school on the west end of the Reserve, or whether arrangements could not be made for the transportation of children to the present school. I should be pleased if you would give any information you can regarding the cost of carrying out any suggestions made by you for providing for the education of these children on the west end of the Reserve. I may say that the Chief states that the parents are very much opposed to sending their children to a residential school.

IN YOUR REPLY REFER TO

AND
TO DATE OF THIS LETTER

The Halfway P.O.,Man.,April 7th, 1925

Sir,—

I beg to acknowledge receipt of your letter #136-2-I of the 24th,ultimo,with reference to a request made by Chief Dan. Cochrane of the Fisher River Band,for a school in the West end of Fisher River Reserve.

I have looked into this matter,and I find the Chief has not stayed within the facts.The Chief gives thirteen children of school age.As a matter of fact,there are only ten,ranging from seven to thirteen years of age.The distance the majority of these children would travel is not as great as the milage given by the Chief. This school question looms up very prominently when times are hard on this reserve,to provide work for some of the men on the reserve. There is also a belief among the people on this reserve,that any money that comes from the Department grows on trees.

I have discussed this matter at different times with the missionery on Fisher River Reserve,also with the two teachers at present on the reserve,and we have always come to the conclusion that Fisher River,has a first class school,at present large enough to accomadate all the children on the reserve,and with the present school accomadation,and arrangements,there is no extra hardship put on the children from the West end,as there are children attending school,from the East end,who have as far to travel,and not nearly as good a road,among them being Chief Dan.Cochrane's Children. This not only applies to the Fisher River Reserve,but also to the schools on Peguis Reserve,where we have children attending regularlly from a greater distance.

After taking all facts into consideration,I cannot recommend any expendature for the errection of a new school,or the transportation of any children to the present school,as I find to erect,and equipt a school would cost a greater amount than $1000.00 and that would be for a log building such as we have on Peguis, which I hope never will be built.

For transporting the children 200 teaching days at $3.00 per day,would be $600.00.

I am enclosing a list of children,with date of birth,living in the West end of the reserve.

I have the honour to be,

Sir:

With further reference to your letter of the 12th ultimo, relative to the establishment of a school at the western end of the Fisher River Reserve, I have to inform you that careful enquiries have been made and favourable consideration cannot be given. The present Fisher River school is large enough to accommodate all the children on the reserve and the children living at the west end have no more difficulty going to school than have some at the eastern end of the reserve. The cost of transporting the children daily would be so heavy that the expense is not warranted.

Dear Sir,

I am writing on behalf of the children, under my care, at the Fisher River Indian Day School, Koostatak, to thank you for your most kind and generous consideration in sending a dentist Dr R.H.Murdoch, to attend the dental work on this reserve. It is, to my estimation, a great necessity to have all the children's teeth attended to.

Dr Murdoch, before doing any extractions etc examined all the children of the school and found only 4 per cent perfect. By his kindly, courteous and friendly way, he easily won the children over to put confidence in him.

After the examination was over, I gave the children a short lecture on the care of the teeth and then asked for volunteers to go to the dentist and in this way kept the dental parlor well supplied with patients until his departure, which was all too soon.

I have 78 children enrolled and only one third of them were able to receive dental treatment, owing to the large amount of work to be done on each child.

Unfortunately, for Dr Murdoch, Treaty payments were on and no children attended for the first 3 or 4 days of his visit.

It is the great desire of all my pupils, that you be so good as to use your every power, to send Dr Murdoch to this reserve in the near future to finish the good work he has started.

Mrs Tong and myself and the pupils of this school thank you most heartily for your kind thoughts for the welfare and health of the children of this reserve.

I have the honor to be,

Your obedient servant,

W.C.Tong.

INDIAN KIDDIES SING OF POLICEMAN FRIENDS.

R.C.M.P. Check sale of liquor to Fisher River Indians.

Up at Fisher River, the Indian children have a song about the R.C.M.P. who have checked the worst type of criminal—the seller of liquor to the Indians. In a Christmas season letter, the Free Press correspondent at Fisher River tells of the training of the Treaty Indians in Canadian citizenship, mentions the fight against liquor, and sends a copy of the song, the Indian children sing.

I am sure that your readers will be interested in hearing about how the work of training our Treaty Indians in Canadian citizenship is being carried on.

Your readers have been informed from time to time during the last two years as to the efforts of the R.C.M. police to put down the traffic in intoxicants among the Indians about and adjacent to Lake Winnipeg. After a long, tedious fight against the vendors of intoxicants—aided by lawyers whose whole effort is to protect criminals—this to their shame!—this iniquitous business has been pretty well curtailed. Friends of the Indians are glad and are thankful to the R.C.M. police for their good work.

We know that there are people in Canada who think we have come to the day when the R.C.M.P. should be disbanded but if they lived among Indians or on the edges of civilization—the last frontiers—they would not think so.

Recently Inspector Meade visited Fisher River and we hope he has put the lid on the liquor traffic among the Indians. When here, our school teachers Mr and Mrs W.C.Tong invited him to visit our day school. Indian Agent McQuish and Constable Curry and Rev Mr Stevens were also invited.

The school children, seventy in number, all looking very clean and happy had been taught to sing a song for the occasion.

The Mountie is a very good man,
He will help us all he can;
We will work with all our might
Helping him to enforce the right.

If we fail our bit to do,
We will never think us true,
In the promise, that we say
We will try and keep each day.

When our Agent comes this way
We often get a holiday,
For this "Thank you" we will say.
Come again some other day.

Farewell Mr Mountie, farewell, adieu,
When in Winnipeg we, llthink of you,
We were a little frightened
When the Mounties first came through
But now we find them faithful friends
Who're constant, brave and true.

"Teaching like this must have an effect for good on the rising generation of Indians.

Dear Mr. Ferrier:-

Enclosed I am enclosing a copy of a news item from the Winnipeg Free Press. I think it will interest you. Our day school is fine. You ought to come and visit us and see for yourself.

You will see from this news item that this whiskey business of which I wrote you some years ago has been successfully dealt with. As I write Inspector Meade is over to Blood Vein. We are very thankful to know that our Indians are being protected by the law. With lots of good wishes.

Yours sincerely

INDIAN BOYS AND GIRLS ARE KEEN EXHIBITORS

ROSSTHERN, SASK. SEPT. 30

A splendid showing was made by the pupils of the Fisher River Indian Day School at their fourth annual fair held on Monday. There were high class exhibits in all sections. All made and grown by the Indian Boys and Girls.

The judging was done by Mrs (Rev) Stevens and Miss Frances Stevens, who looked after the cooking and sewing exhibits. The display of various kinds of cooking, such as bread, cakes, preserves, butter, etc, were really good and the sewing, knitting, [illegible], and needle work on deerskin very fine.

Frederick Kardel and Rev F.G. Stevens judged the vegetables, manual work, school work etc. These exhibits were also very creditable.

Interested visitors at the fair were— Nurse Lucas of the Indian Department and Miss Wilkins of the Central day school of the Peguis Reserve, who drove through the snow and mud to be present.

Fisher River Indian children give concert.

Remarkable performance by Cree children result of careful training.

Keesttatak, Man. Dec 27.
To Mr and Mrs W.C.Tong, teachers at the school in Fisher River Indian Reserve, are being extended very hearty congratulations on the splendid Christmas programme presented by the children in their charge. The Junior school-room was very tastefully decorated for the occasion. The programme consisted of songs, recitations, dialogues and a splendid lay by the girls. When it is remembered that the performers were Indians, and more familiar with the Cree language than with the English, the performance was remarkable. The children were well and tastefully dressed and all clean and neat. There was a big crowd of parents and friends present, all proud of their children and taking keen interest in the whole performance.

FISHER RIVER CHRISTMAS TREE
Fisher River Christmas Tree was held in the United Church on Christmas Eve. There was a great crowd present, room not being found for all. The tree was a great spruce 20 ft tall and having a spread of branches 14 to 16ft. Lines extended to both sides of the church and a great display of gifts was to be seen. All embroidery on dress in or exposed in use much in evidence. Mitts, moccasins, coats, etc, were very bright and beautiful. The school children gave a number of Christmas songs being directed by W.C.Tong.

FISHER RIVER DAY SCHOOL (Cont'd.)

is a heavy class room and would tax the resources of a well qualified teacher. The present teacher is not qualified and her methods, to say the least, are poor. No matter how good a senior teacher we may secure, if the pupil has not received the elementary training, progress will be slow and the child will be handicapped all through the grades.

The class room was clean and tidy and the seats and furniture all in good repair. The room is well equipped with blackboards, which are all in good shape. The children in this room are also provided with individual towels and cups, which are neatly arranged on the side wall.

This year the basement was fitted up with tables and benches for the purpose of providing a noon-day meal. This makes a splendid dining room with ample accommodation for 60 or 70 pupils. It is also supplied with a range, cooking utensils and dishes.

At noon the children are served with a vegetable soup made with meat or, in the absence of meat, beans, rice or potatoes are served, with sometimes dried prunes or peaches. Cocoa and milk are also served at times. The meal was so elaborate that the biscuits were not needed and were being issued at the close of school - two to each pupil. In many cases these were taken home and given to other members of the family. I explained, both to Mr. Tong and the Agent, that this must not continue and the meal must be reduced so that the biscuits may make up part of the dinner. The meals served have been very reasonable, never exceeding the cost of 3½¢ per child per meal.

I learned further that to serve this meal, Mrs. Tong was obliged to be in the kitchen from 9 A.M. until 2 P.M. each day. She claimed it was impossible to trust this work to the school girls. This simply means we are paying

paying Mrs. Tong $75.00 per month as a teacher and scarcely 2 hours per day is spent in the class room. Mr. Tong tries to carry on both rooms with the result that neither are receiving proper attention. This is a situation that the Indian Agent should have known as he was aware of the Department's wishes as regards this work. He was informed that the meal was to be a simple one, prepared by two girls under Mrs. Tong's supervision and the biscuits were to make up part of this meal. This was not to take Mrs. Tong from her class room work. Both Mr. & Mrs. Tong claim it is impossible to carry on unless she or some capable woman supervises the meal. However, I believe that a meal, such as the Department wish served, can be done by the girls, but if the meals are to continue in the manner in which they are now served, help will need to be employed. Even then, I believe it could be carried on for about 5¢ per child per meal.

I also noticed that after dinner the children were allowed out until 1.30 P.M., and then the girls were called to the kitchen to wash up, which spoiled the first half hour of school. I pointed out that this should not be and again met with opposition from Mr. & Mrs. Tong - that the girls needed the play and Mrs. Tong needed the rest. However, I explained that this washing up could be done in 20 minutes, and it certainly would not hurt the girls, nor did I think Mrs. Tong needed to be present while it was being carried on. The outside doors could be locked and the girls left to clean up.

Both Mr. & Mrs. Tong are very enthusiastic over the work, but they are simply carrying it too far and making too muchunnecessary work for Mrs. Tong and thus keeping her from the class room. I pointed this out, but

they both

they both feel that the meal should not be cut down, but that extra help should be provided.

Mr. Tong is very much interested in his work and I believe is a fair teacher, although he does not hold a Manitoba certificate nor Normal training.

Mrs. Tong I consider a poor teacher. She is interested in the work, but as far as I can learn has no special training to fit her as a teacher. The cause here is big and I believe good qualified teachers could do splendid work.

FISHER RIVER DAY SCHOOL.

This is a two roomed school with living accommodation for the teachers. The building is heated by two furnaces and can be kept quite comfortable, even in severe weather.

The class work is divided into junior and senior classes. The junior room is taught by Mrs. Tong and the senior room by Mr. Tong.

In the senior room I found present 11 girls and 16 boys, a total of 27. The roll called for 31 pupils. The grades range from 3 to 8 and the class room work examined was fair. The reading was very poor with no expression and was scarcely audible. The spelling was good. Their exercise books were tidy and their writing showed care.

The seats are all single and in good repair. The class room was clean and tidy. All the children were provided with towels and drinking cups, which were neatly hung on one wall.

In the junior room 35 were present, with 37 on the roll. The attendance has been good. The children were quite neat and their faces and hands were clean. Only grades 1 and 2 are kept in this room. The work heard was only fair and I doubt if much headway is being made. This is a heavy

Ottawa, December 19, 1927.

Sir:

Mr. Inspector Hamilton, in a report on his recent inspection of the Fisher River Indian Day School, has drawn attention to the time taken up by the assistant teacher in the preparation and serving of the midday lunch. He states that the lunch served is too elaborate and should be reduced so that biscuits will make up part of the food served.

The preparation and serving of this lunch should not interfere with the regular classroom duties of Mrs. Tong, the assistant teacher. The older girls should assist her in the preparation and serving of this meal. I would point out that the purpose of the midday meal is to supplement the lunches brought by the pupils from their homes by a few items of hot food. You should take this matter up with Mrs. Tong and explain the Department's requirements. The lunch served should be a simple one, and should be prepared by the older girls under Mrs. Tong's supervision. It is expected, however, that the classroom duties will be carried on during the regular hours for that purpose. I shall be pleased to have a report from you after you have discussed the matter of the midday lunch with Mrs. Tong and impressed upon her the necessity of serving a very simple lunch, using the minimum of her time in the preparation and serving of same.

A. F. MacKenzie.

7. The washing-up of dishes and utensils after meal is done by all the girl pupils and the sweeping of dining room, splitting of wood, and filling of wood box for the next day's meal by the boy pupils between 12.30 p.m. and 1 p.m. Mrs. Tong re-enters her classroom at the regular time of 1 p.m. and is there until 4 p.m.

8. The average cost of meals since the commencement has been 3.26 cents per meal per pupil per diem. This is the lowest I have heard of in any institution.

In view of the fact that Dr. Bird, whose knowledge of such matters is superior to that of anyone not acquainted with dieting from the health standpoint, does not consider the meal too elaborate, I, myself, do not consider it too elaborate and feel that my recommendation of any reduction in the items of diet would not be in the best interests of the pupils.

Under these circumstances, I beg to recommend that a woman be hired from the Reserve to superintend the preparation of the meal each day, she being assisted by two of the girl pupils, two different girls being appointed each day to assist her. This would do away with the necessity of Mrs. Tong visiting the kitchen and dining room at other than during the times of forenoon recess and would enable her to spend her whole time during the morning in her classroom. The services of such woman could be obtained for not less than $10 or more than $12 per month.

RECORDS

No. 7-D.

.....January 18,.....1928.

Sir,—

[illegible]

Replying to your letter of the 19th ultimo with reference to the above-stated matter, I beg to advise that I have gone thoroughly into this matter with both Mr. and Mrs. Tong, have observed the preparation and serving of the number of occasions since the visit of Mr. Inspector Hamilton and beg to report as follows:

1. The total time spent each day in the basement kitchen and dining room by Mrs. Tong is from 9.50 a.m. until 12 noon, amounting to two hours and 10 minutes each day during which she is absent from the classroom.

2. The preparation each morning consists cutting up meat, washing potatoes, peeling carrots, onions and turnips. In addition, food on stove has to be watched and fire in range kept going. On days during which beans, split peas, rice, etc., are used in place of fresh vegetables, preparation consists in cutting up of meat and cooking of dinner. During these days, Mrs. Tong usually makes dumplings or fresh biscuits for the meal.

3. The average amount of vegetables used each day consists of 25 lbs. potatoes, 4 lbs. carrots, 6 lbs. turnips and 2 lbs. onions. Average amount of fresh meat used each day is 10 lbs.

4. After a number of trials, both Mr. and Mrs. Tong state that it is not possible to carry out the daily preparation of meal without her constant supervision. There are no girls attending school who are over 15 years of age and girls under that age who do the work each day in the kitchen are not dependable unless Mrs. Tong is thereto watch them.

5. The meals served are the simplest possible taking into consideration what growing children need. The created appetite for vegetables and the increased consumption of them by the children has brought about a great improvement in their health. Dr. Bird has looked over the daily menus and states that there is nothing superfluous in any of the meals. Vegetables especially, from the point of view of health, are essential.

6. Regarding Biscuits, one is now served with the meal and the other given to the children at 4 p.m. When the meal was first started, Mr. Tong asked Mr. Inspector Christianson about reduction in supply of biscuits. He was informed that there would be no reduction in the supply of these and to use them as he thought fit.

Ottawa, January 25, 1928.

Sir:

I have your letter of the 18th instant, reporting on the work which is undertaken by Mrs. Tong, the assistant teacher at the Fisher River Indian Day School, in the preparation and serving of the midday lunch for the pupils.

It is considered that the time occupied by Mrs. Tong in the preparing of this lunch militates against her duties in the classroom. In order that she can devote more attention to these duties, the Department will approve of engaging the services of a woman from the reserve to prepare the midday meal with the assistance of two of the older girl pupils. If you can obtain the services of an Indian woman, who would be competent to prepare the meal, the Department will be prepared to allow her a remuneration not exceeding the sum of $12 per month. It may be that you can secure the services of a woman for the sum of $10 per month.

If this woman is engaged, you may forward certified vouchers, from time to time, for the amount of salary due her. Mrs. Tong might exercise supervision over the work, but this should not take up her time from the regular classroom duties.

We note that both yourself and Dr. Bird do not consider the meal being served to be too elaborate and that you believe any reduction in the items of diet would not be in the best interests of the pupils. It is hoped, however, that all expense for the food supplies and the preparation and serving of the meal will be kept down to the lowest possible cost.

Dear Mr. Parrien:—

Allow me please to address you regarding the appointment of Mrs. W.S. Long as teacher of the junior room of the Fisher River Day school for the year 1932-33.

I would like to state that at no time was her first engagement as a school teacher. Only because she is the wife of W.S. Long have I recommended her promotion to year.

In last September I decided to write to Mr. Banner requesting him to try and procure the assistance of Mrs. Long.

Mr. Banner informs me that so far as he knows no decision has been reached in this matter.

I think you know me well enough to commise for that I would not act with ~~[illegible]~~ and I am still hoping that a change in teachers will be decided on for Fisher River.

Dear Mr. Stevens:

I have your letter of the 6th instant, from Norway House, with reference to the teacher of the junior room at the Fisher River Indian Day School. The Department is glad to have your recommendation in this matter, and I am writing to the church authorities by concurrent mail.

Dear Mr. Beaton:

The Reverend F. C. Stevens writes, recommending that the Department make a change in the junior room at the Fisher River Indian Day School. It is his opinion that Mrs. W. C. Tong is not suitable for this post. Has your office had any complaints in this connection? The information on the Department's files does not warrant such drastic action as dismissal. In fact, the Public School Inspector writes in part as follows: "Mrs. Tong is sympathetic with little people and has a motherly attitude that appeals. The results are all that I would expect in this community."

Yours very truly.

Dear Mr. Ferrier: Re: Mrs. W. G. Tong

In reply to your letter of July 18th (File 136-2-1), concerning Mrs. W. G. Tong, the teacher of the junior room at Fisher River, I may say that Mr. Stevens, both in correspondence and in conversation, has made the same suggestion to Mr. Barner and myself.

Mrs. Tong is not a qualified teacher and she is not the least bit missionary. Both Mr. and Mrs. Tong, as I understand the situation, attend church very infrequently and take no interest in the Sunday School so that, so far as the missionary and his share of the work on the Fisher River Indian mission are concerned, they are of no help but more or less of a hindrance.

On the other hand, Mr. Tong is an exceptionally fine teacher and they have, on the whole, rendered quite satisfactory service from the educational standpoint. Sooner or later there must be a change at Fisher River but I doubt if Mr. Barner and I are prepared to say that it should take place this year. Unfortunately when I visited Fisher River myself Mr. and Mrs. Tong were both away so that I did not see them at work in the school.

Yours very sincerely,

Dear Doctor McGill:-

This school is in charge of Mr. W.G. Tong, and consists of two classrooms and living quarters. He is assisted in the junior room by his wife. In the senior room there are 38 children on the roll, and the grades range from 3 to 7. The children speak out well, are bright and alert. I found their exercise books neat and the work nicely set out. Mr. Tong is very interested in his work, and the children have made good progress under his supervision. The average attendance for November was 29.26, and should be well over 30 for December.

In the junior room there are 28 children on the roll, 18 in Grade I and 10 in Grade II. Mrs. Tong is not a qualified teacher, but with the assistance which she obtains from Mr. Tong, the children make fair progress. A qualified teacher should be placed in charge of this classroom. Here the average attendance for November was 22, and for December it should reach 24.

The children were all neatly dressed and clean in appearance.

A noon-day meal is served in the basement of the school where a dining room and kitchen have been provided. Three days a week the meal consists of vegetable soup with meat, potatoes, and water to drink. On the other two days, rice or beans are served with biscuits and

biscuits and cocoa. The vegetables used in the preparation of the noon meals are grown at the school and consist of potatoes, carrots, parsnips, turnips, and onions. The children certainly appreciate this noon meal, and I have no doubt that it contributes largely to the splendid attendance which is obtained. The pupils are made to wash before lunch, and are all supplied with individual towels. Cod Liver Oil is given twice a day to all who require it.

The school building is in need of interior decoration as the walls are dark and badly smoked. The furnaces appeared in good repair, and all Department property is well looked after.

To The Secretary

Ottawa. Canada.

Sir. -

We. the Chief and Councillors of the Fisher River Band of Indians. on behalf of the Band duly assembled. respectfully beg to address you upon the matter of the reported dismissal of the teachers of the day School upon our Reserve. Mr and Mrs W. L. Tong.
These teachers have been with us since the year 1921 and are well liked by us all and are entirely satisfactory in every way.

We understand that the move for the termination of the Services of these teachers was made by the Missionary here and supported by the Officials of the United Church.
we would respectfully beg to remind you that we made a treaty. of which reserve Schools is a part. with the Government of Canada and not with any Church. and we resent any interference in our School or any other treaty matters by any Church or Missionary.
It is through the arrogant interference of the Missionary supported by his church that has caused all the trouble with our teachers and other Officials and many petitions has been sent to the Church for his removal but no notice has been taken of them and many of our people have left - the United Church and became members of the Apostolic Church. in consequence.

No one could do more for the Church or Sunday School than has Mr. Long. who has always taken the Sunday School lessons with our Children and has always made every endeavour to assist- in all Church matters. but- it- is impossible for any teacher or other Official to cooperate with Mr Stevens.

we respectfully but- firmly protest- against- the removal of Mr and Mrs Long through misrepresentations of facts and we hereby ask the Government- to order a thorough investigation. which we feel sure will result- in the establishment of the complete fitness of Mr and Mrs Long for the position of teachers. and we further ask that they be permitted to remain with us indefinitely

It- is never known in the history of Fisher River Reserve for the School teacher of different Denomination to do the work or to teach our Children of United Church of Canada.

It- is something new and important for a Child of Fisher River Reserve to pass examination and get- a Diploma or Certificate as we are fully sure that the Indian Department- knows by his reports. we the Council of Fisher River Reserve think it- is a good idea to keep a teacher like Mr Long among the Indians.

Reverend Sir:

I am enclosing, for your consideration, copy of a petition received from the Chief and Councillors of the Fisher River Band, requesting that the services of Mr. and Mrs. W. G. Tong be retained as teachers. From reports received, the Department understands that Mr. Tong is performing satisfactory service as teacher. There would appear to be some friction between the teachers and the missionary. You will remember discussing the situation at Fisher River during your last visit to the Department. The petition received has merely been acknowledged.

I should be pleased to hear if a change in teaching service at Fisher River is recommended by the authorities of the United Church and, if so, if you could offer any suggestion regarding a transfer of Mr. and Mrs. Tong to another Indian school. The Department would not desire to make a change in teaching service at Fisher River, unless there are strong reasons from the church standpoint.

Dear Sir:

Re: Fisher River Indian Day School.

As I expect to be in Ottawa soon and will have the opportunity of discussing with you personally the whole situation at Fisher River, I do not wish to go into detail in answering your very kind letter of May 26th, enclosing copy of a petition from the Chief and Councillors of the Fisher River Band regarding the removal of Mr. and Mrs. Tong. I wish merely to state that it is now three years since I raised this question personally with Mr. and Mrs. Tong and with Mr. Ferrier, who was then Superintendent of Indian Education. We have also had some communication with Mr. Hamilton, the Department's Inspector in Winnipeg. I tried to see him last Saturday in Winnipeg, but unfortunately he was out of the city.

I have tried to be as fair as possible to all the parties concerned in this very difficult situation. We have on file a letter from Mr. Tong, accepting the suggestion that a Junior Teacher should be appointed in place of his wife, who has no professional qualifications, and stating that he considered that the United Church had dealt very fairly with him in permitting him to remain as teacher of the Senior Room for one more year.

I have my own ideas as to what has stirred up the Chief and the Councillors to send in the petition in question but cannot see that anything is to be gained by discussing the matter in correspondence.

In the meantime, I wish to nominate for the Junior Room at Fisher River, Miss Esther Gaudin. Miss Gaudin was, as you will remember, previously in the service of the United Church and the Department, but had a rather serious illness two years ago which made it necessary for her to resign from her school. I saw her in Winnipeg last week and she now has a splendid medical report and has been doing during the last year practically full time work as a reserve teacher in the Winnipeg Public Schools. I feel satisfied that she will fit into the rather strained relationships which will inevitably exist at Fisher River for the next academic year very much better than a teacher who knows nothing whatever about Indian Reserves and Indian missionaries. She is well

Rev. Sir:

I have your letter of the 15th instant, nominating the services of Miss Esther Gaudin as junior teacher in the Fisher River Indian Day School to succeed Mrs. W. G. Tong. The Department notes that Miss Gaudin is well qualified professionally, and that her health is now satisfactory, also that you feel satisfied she will fit into the rather strained relationships which at present exist at Fisher River.

The Department will approve of the appointment of Miss Gaudin as junior teacher as from September 1st, next, at a salary of $65 per teaching month, less 10% during the present fiscal year. It is hoped that Miss Gaudin will use tact in her dealings with the Indians and in her relationship with Mr. and Mrs. Tong. I would request that you arrange with her to take up duties on the date above mentioned.

Mr. Inspector Hamilton, Winnipeg, and Mr. Agent Lavender, Hodgson, Man., will be informed of the appointment of Miss Gaudin.

Dear Sir;-

Your File 136-2-1.
Re: Fisher River Indian Day School.

This is not a new problem, as the files of both the Department of Indian Affairs and the Board of Home Missions can testify. I would prefer not to discuss the issue in detail by correspondence, but merely to state that it is now four years since I raised with Mr. Russell Ferrier the question of a change in the teachers at Fisher River, and it is three years since I told Mr. and Mrs. Tong personally that we had to look forward to a change. There has also been some correspondence with Mr. Hamilton, the Inspector in Manitoba.

I merely want to state that on March 13th, 1933, I wrote Mr. Tong that while it was impossible to continue the employment of his wife, I would be willing to nominate him for one more year. These two paragraphs, taken from my letter of that date, explain the attitude of the Board of Home Missions, and I feel free to state that there is no way in which Mr. Tong can continue at Fisher River after the end of June:

> "As you are undoubtedly well aware, there are hundreds of United Church teachers - University graduates and others possessing the very highest professional qualifications - without employment at the present time. It is often difficult for us to explain to those who raise the issue why we should employ people who belong to another Church and who are not vitally interested in the missionary work of the Reserve, of which the School should be an integral and related part. On the other hand, we cannot overlook the splendid reports which have been given concerning your work in the class-room during the years that you have served with us in our programme of Indian Education at Fisher River.
>
> "The conclusion at which we finally arrived was that, if you desire to continue with us, we will recommend your appointment as Principal of the School for the year

"1933-1934, the understanding being that during that year you will make whatever plans are necessary in order to secure another position. Beginning with the new school year, we will recommend a new teacher for the Junior Room, with the necessary professional qualifications. So far, we have done nothing towards the securing of this specialist in primary and junior work, but will try to find an experienced teacher with a vital missionary purpose, who will be able to direct a certain amount of extra-curriculum activity."

The main issues, of course, are not mentioned in this correspondence, but I shall be in Ottawa before the end of next week and be glad to go over with you in detail the whole situation.

Dear Sir: Re: Fisher River Indian Day School.

I wish to recommend that Miss Mabel Farris, who for the last three years has been the teacher of the Day School at Cross Lake, should be transferred to the Senior Room at Fisher River at the beginning of the Fall term.

Miss Farris has served the Department of Indian Affairs and the Church for three years in a very difficult and very isolated school and merits promotion.

I believe that this recommendation has the support of Mr. A. G. Hamilton, Inspector for Manitoba.

Ord'd text acted Thro
Ass't Secretary of Interior 29/6/34

130-8-1.

June 26, 1934.

Memorandum:

The Honourable the Superintendent General,-

In the past, the Department has permitted the Board of Home Missions of the United Church of Canada to select the teacher for the Fisher River Indian Day School, (Reserve No. 44 - Electoral District of Selkirk).

The Indians of this Band are practically all members of the United Church of Canada, and, for several years past, Mr. W. G. Tong has been the teacher of the senior room. Mr. Tong is a member of the Anglican Church, and the Board of Home Missions of the United Church of Canada have advised the Department that he does not work in harmony with the United Church Missionary on the reserve. As a result, the progress of the school is impeded.

The Board of Home Missions of the United Church therefore request that Mr. Tong's services be dispensed with, and they nominate Miss Mabel Farris as teacher for the academic year 1934-35. Miss Farris has the necessary qualifications and has had three years' experience in Indian work, as teacher of the Cross Lake Indian Day School.

In view of the interest that the United Church of Canada has always taken in the Fisher River Indian Day School and the cooperation which they have always given to the Department in furthering educational activities on this reserve, I consider that it is advisable to meet their wishes, as outlined above. I would therefore appreciate your concurrence in the dismissal of Mr. Tong and the appointment of Miss Farris.

Dear Sir,

I have received a letter from Rev. T. J. Beaton B.A. of the United Church of Canada, under date of 25th ultimo advising me that he has nominated a new Incumbent for the Fraser River Indian Day School to assume duties on September 1st next as teaching is my only profession it would appear from the above that I shall be permitted to look for another school and in order to satisfy myself in that respect if schools shall have to shew why I have left the Fraser River school.

I am entirely at a loss to know why I am being

dismissed as I hold letters from the Officials of the United Church setting forth their entire satisfaction and appreciation of my work at Pasher Lake and from the Rev J.G. Stevens, my associate in the United Church at Pasher Lake. I have a personal letter in which he states his admiration of my work.

Also the reports of the inspection of the Provincial Dept of Education and various Public and Separate Schools which received the work of the pupils (last month June), and all that would be a valid reason for dismissal.

May I ask, therefore, that you send me enough to advise me what are the reasons for my dismissal and why I cannot be allowed to continue?

My dear Mr. Tong:

In harmony with the letter written you on March 13th, 1933, I have taken the liberty of nominating a new Principal for the Fisher River Indian Day School, to assume duties on September 1st.

I am enclosing herewith a cheque for one month's salary, to assist you in your moving expenses. As you know, it has been the custom of the Board of Home Missions to cover moving expenses of teachers on Indian Missions around Lake Winnipeg who spend a given length of time in our service. As I have no way of estimating how much your moving expenses will amount to, I thought the simplest thing was to give you a month's salary, which would be more than ample to cover your needs in this connection.

I would be glad to receive from you the name of the person whom whom you have left the key of the School, so that I can inform your successor where to look for it. Of course, if you feel free to turn it over to Miss Esther Gaudin, the Junior Teacher, who will be returning in September, that will be quite satisfactory to the Board of Home Missions.

With very kind personal regards,

I am

Yours sincerely,

Sir:-

During the first week of September, I met Mr. W. C. Tong, teacher of the Fisher River Day School, in Winnipeg. In conversation with him, I enquired as to why he was not teaching and he replied that he had been instructed that his services were no longer required. I informed Mr. Tong that there was nothing on my files to show that he was still not the teacher at Fisher River and advised him to return. Mr. Tong was greatly delighted to have the opportunity and assured me that any lost time would be made up. In an indirect way, I know that the church's recommendation, in connection with Miss Farris to fill Mr. Tong's place, had been turned down and that the Department had refused to make any change.

Mr. Tong has rendered excellent service at this point and I trust his services will be retained.

Sir:-

With further reference to my letter of the 18th instant, I have just had a letter from Mr. W. G. Tong, of the Fisher River Day School. He returned to duty and found a letter from Rev. F. G. Stevens; the contents were that he - Mr. Stevens - had received a wire from Rev. K.J.. Beaton to ask him if he would take charge of the school until Christmas.

Mr. Tong is delighted to continue, but would like to hold the school by the year as has been the custom. He had moved out at considerable expense and is now moving back again.

A year ago Mrs. Tong gave up her work at the request of church authorities. Last year Miss Gaudin taught in her place and the work was carried on successfully. I understand Mr. Tong and Miss Gaudin carried on without any friction and, according to Mr. Tong's letter, he received a welcome on his recent return, both from Miss Gaudin and the Indians.

It is hard to work cheerfully and to the best advantage if one feels they are not permanent or might at any time be discharged. I trust that in this respect Mr. Tong might be set at ease, especially until June of next year.

MEMORANDUM:

The Honourable the Superintendent General,-

I attach copy of a letter received from Mr. W. G. Tong, teacher of the senior room at the Fisher River Indian Day School, requesting to be informed regarding the period for which his services will be required.

In this connection I would refer you to my memorandum dated June 29th, last, regarding dispensing with Mr. Tong's services as from the end of the past school year, viz.: June 30th. At that time, you advised that no action for the present be taken. Mr. Tong resumed duties on September 4th, last, and now wishes to be informed if his services will be terminated at the beginning of the Christmas holidays.

The uncertainty occasioned Mr. Tong in his tenure of the position and the difficulty he would have in moving his supplies during the winter would be unfair. He has his winter's supply of vegetables and groceries on hand. I beg to recommend that his services be retained during the balance of the school year, or to June 30, 1935. I should be pleased to have your direction in the matter.

The Secretary,
Department of Indian Affairs,
O t t a w a, Ontario.

Dear Sir: Re: Junior Room, Fisher River Day School.

After an absence of six weeks in Western Canada, I find considerable accumulated correspondence from the Department and I hope to clear it up on Monday. I am replying immediately, however, to your communication of November 14th concerning the Junior Room at Fisher River. Miss Gaudin's letter of resignation is on my desk, but I have not yet replied to it. I shall send you a copy when I write again.

In regard to your enquiry concerning Miss Marguerite Stevens, I would like to say that I know Miss Stevens personally, as she was for a year the Secretary of our Hospital at Port Simpson. In addition to the secretarial work and bookkeeping, she spent one-half of each day teaching the children who are patients in the hospital. She handles children well and has exceptional ability along the line of handicraft and art work. I think that if she were requested to spend the month of December observing in Miss Gaudin's room and the Department were prepared to appoint her for the Spring term, she could carry on acceptably.

The feeling at Fisher River is so tense - both among Indians and whites at the present time - that one hesitates to send in a thoroughly qualified teacher to become embroiled in the feuds. We are prepared to nominate Miss Stevens as teacher of the Junior Room from January to June, on condition that she does spend the month of December, or a considerable part of each day, observing Miss Gaudin's methods and that both Miss Stevens and the Agent are notified that it is only a temporary appointment and no question of re-engagement is to be raised at the end of the six months.

Yours sincerely,

Ottawa, May 22, 1935.

Sir:

I have your letter of the 14th instant, applying for re-engagement as senior teacher of the Fisher River Indian Day School for the coming academic year.

In reply I have to say that, as this school is conducted under the auspices of the United Church in Canada, we look to that church for their nomination of teachers. When we have their directions, you will be informed, through the office of your local Indian agent.

Your obedient servant,

T. R. L. MacInnes,
Acting Secretary.

INSPECTOR'S OFFICE

ED WINNIPEG, MAN., July 12th, 1935.

Dear Mr. Sutherland:-

I have discussed the matter of Mr. Tong's position at Fisher River with Mr. Hamilton, who speaks in the highest terms of the work that Mr. Tong has done in his school at that point. Mr. Hamilton informs me that no day school in his inspectorate has been conducted in a more satisfactory manner.

In consideration of the above, I would think that this situation should be reviewed very carefully before we recommend to our Minister that the services of Mr. Tong be dispensed with.

Yours faithfully,

The Honourable the Superintendent General,-

In further reference to my memoranda of the 17th ultimo and the 5th instant, regarding the nomination, by the authorities of the United Church of Canada, of teachers for the Fisher River Indian Day School (Reserve No. 44 - Electoral District of Selkirk), Man., for the coming academic year, I wish to inform you that a communication has been received from Dr. H. W. McGill, Deputy Superintendent General, dated Winnipeg, the 12th instant, in which he states as follows:-

"I have discussed the matter of Mr. Tong's position at Fisher River with Mr. Hamilton, who speaks in the highest terms of the work that Mr. Tong has done in his school at that point. Mr. Hamilton informs me that no day school in his inspectorate has been conducted in a more satisfactory manner.

"In consideration of the above, I would think that this situation should be reviewed very carefully before we recommend to our Minister that the services of Mr. Tong be dispensed with."

In view of the above, I beg to suggest that Mr. Tong's services as senior teacher be continued until the end of the present calendar year, December 31st, 1935. You have approved that his case be placed before His Grace the Archbishop of Rupert's Land, who has the nomination of teachers for the Anglican schools in Manitoba. I am not aware of any vacancy at present in the Anglican schools, but it may be possible to place Mr. Tong at the beginning of the new year, and, if this arrangement could be carried out at that time, it would, no doubt, please all parties concerned.

I note that the replacement of Miss Marguerite E. Stevens, the junior teacher, is approved.

I should be pleased to have your direction regarding retaining the services of Mr. Tong as senior teacher for the balance of the present calendar year.

Dear Mr. Sutherland:

I have quite made up my mind that we need not expect a favorable reply from the Minister in regard to our nominations for the Fisher River School and there seems small prospect of any change taking place before the date set for the opening of school. I am prepared - if you will recommend it - to withdraw my original nominations, consent to Mr. W. G. Tong remaining for the present, if the Department will agree to leave Miss Stevens in the Junior Room, temporarily.

The relations between Mr. Tong and Rev. F. C. Stevens and his family are so strained - and there is no other place in the community where a junior teacher can board except the Stevens home - that I do not like to consider the possibility of sending a stranger there at the present time. I will await your advice before writing officially.

Thanking you for your co-operation,

INSPECTOR OF SCHOOLS

Winnipeg Oct 22. 36

Dept. of Indian Education
Ottawa Ont.

Dear Sir.

The development in the senior classes at Pequis and Fisher River schools is such, that we would need some statement of policy in regard to junior high school. It seems to me that the somewhat simple course in General Science in Grades VII, VIII and IX would be both useful and attractive to the pupils just at the time they are likely to think of dropping off from school. This will call for an expenditure of $75 to $100, with possibly a two dollar expenditure annually, to maintain the equipment in each school where the pupils reach this grade.

As you may already be aware the Provincial Inspectors are recommending an initial expenditure of $5.00 for such equipment. I understand that up to date the Department has been making no such outlay; and would be glad of a statement of the attitude of the Department on this question.

Ottawa, November 10th, 1936.

Dear Sir,-

With reference to his recent visit to the Peguis Centre and Fisher River Indian Day Schools, Inspector Bartlett states that the development in the senior classrooms is such that he considers it advisable to encourage junior high school work, particularly the simple course on general science for Grades VII; VIII and IX.

At the present time, he recommends an initial expenditure of $5.00 for the equipment necessary to follow the general science course.

No doubt, the teachers of both the Peguis Centre and Fisher River Schools know what equipment is necessary and you may, therefore, expend the amount mentioned above at each of these schools.

Yours truly,

A. F. MacKenzie.

Dear Sir:

I have your letter 136-7-1 of October 27th re the Fisher River Day School.

The reason for the small attendance at this school is due to the parents taking their families out on the lake during the fishing season.

With reference to the van, an Indian will supply a suitable conveyance and drive the children to and from school for 3.00 per day.

Ottawa, November 17, 1936.

Dear Sir:

The Department is in receipt of your letter of the 13th instant, with reference to the Fisher River Day School.

You may arrange for driving the children mentioned in official letter of the 27th ultimo from December 1st to December 18th. This latter date is that on which the school will close for the Christmas holidays. It is noted that you can have this work done for $3 a day. You should arrange to have a statement prepared each day showing the names of the children who have been driven for the period December 1st to December 18th. This information should be forwarded to the Department immediately following the close of the school for the Christmas holidays, and we will then decide whether or not the attendance justifies our continuing transporting the children for the balance of the winter.

Miss Stevens, Fisher River Sch.

Dear Sir,

I beg to acknowledge yours of 10th re above named teacher. My plan is to require a reading course sufficient for an academic year, but which she may be allowed to take in a longer time up to two years or more; so long as she shows evidence of progressive thinking and a tendency to apply her reading in her school work.

If she shows such professional growth it might not be necessary to tie her down to Tests or final examinations, but merely to assure ourselves that the studies are going on. Such work might somewhat follow the pedagogy and psychology of a Grade IV. normal, together with official methods in Arithmetic and Reading.

Ottawa, November 23, 1936.

Dear Sir,-

I enclose another letter which has just been received from the Fisher River Indians.

The Department cannot understand why Farm Instructor Murdoch has apparently given them the impression that the Department is considering the erection of another school.

Our decision to permit the driving of the pupils for a limited time was conveyed to you in official letter of the 17th instant.

It is noted that, while you stated in your letter of the 13th instant that it would cost $3.00 a day for suitable conveyance, the Indians state that a driver could be obtained for $2.00 a day. If it is possible to secure a driver at the lower rate, you should do so.

Please return the letter for our file.

The Secretary,
Department of Indian Affairs,
Ottawa, Ontario.

Sir,-

Reverting to our letter of the 22nd, ultimo we respectfully beg to state that we have received no reply, except that one of our people, James Albert Murdoch, received some indefinite information to the effect that it was understood that some consideration had been given by the Department of Indian Affairs for the erection of a school in the western portion of our reserve.

J.A.Murdoch states that this information was given to him by the Farm Instructor, upon the Pequis Reserve.

If the Department of Indian Affairs will be good enough to give favourable consideration for the establishment of a school for the children living in the west of the Fisher River Reserve, it would seem that it will be about a year before a school can be in readiness for use.

Will, therefore, the Department kindly instruct that a conveyance be provided for our children to attend the present school, pending the building of a school in the western part of the Fisher River Reserve.?

One of our number is willing to convey our children to and from the present school for the sum of two dollars per day.

May we hear from you at your earliest convenience in the matter?

Yours respectfully,

Indian Affairs. (RG 10, Volume 6233, file 511-1, part 2)

DEC 10 1936

Fisher River Agency,
Hodgson, Man., Dec 7/36.

Dear Sir:

I have your letter 136-7-1 of Nov 25th re the driver for the van at the Fisher River Day School.

The Indians had asked Mr Spence, our Farming Instruc or what the Department were going to do re a van or a new school. He told them that he did not know but that he understood that some consideration was being given the matter of getting the children to the school. I might add that on investigation I found that some of the Indians, whose names are on the letter, did not sign the letter submitted to you.

With regards to the hire of a van driver, the man whom offered his services for $2.00 per day can not be considered a reliable person for this job. I do not believe he would continue to run the van at that price. I am of the opinion that $3.00 per day is a fair wage for this job. You will understand that while the van is running it is a full time job for the driver and he will have practically no time to earn any other money and whoever takes this job will have to buy grain for his team which is a considerable item this year.

I might say that on the authority of your letter of Nov 17th., I hired Jas A. Murdoch to drive the van at the rate of $3.00 per day. This man had practically no means of earning a living except by trapping and he has a family of eight children to support. If the Department decide to continue the van after the new year I would recommend that the above named continue as the driver @ $3.00 providing his services continue to be satisfactory.

Dear Sir:

I would like to be advised as soon as possible if it is the intention of the Department to to continue the van at the Fisher River Day School.

Personally, I would recommend that this service be continued. Enclosed are records kept by the teacher showing the number of pupils brought to school on the van for the last three months.

EX'D.

Ottawa, April 7, 1937.

Dear Sir:

With reference to your letter of the 31st ultimo, you may continue driving the children to the Fisher River School for the month of April. The driving of the children should be discontinued at the end of this month, and, during the months of May and June, the teacher should keep a statement showing the attendance during those two months of those children who have been driven to the school since last November.

When the driving of these children was first authorized, the Department understood that this would be necessary only during the winter months. To drive the children during the whole academic year involves a very considerable expenditure and is something that is not done at other Indian day schools. Would it not be possible to have the Indians whose children live at a distance from the school take turns in driving all the children to Fisher River, either without any expense to the Department or at a much lower cost than we are paying at the present time? I would appreciate your discussing this suggestion with the Indians concerned and advising me before the beginning of the next academic year, on September first.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Sir,-

Enclosed, for your information, is a letter which has just been received from a Fisher River Indian regarding our decision to discontinue driving the children to the Fisher River Indian Day School for the months of May and June.

In this connection, I would refer you to the second paragraph of official letter of the 7th ultimo. Is it not possible to carry out the suggestion contained in my previous letter? When replying, you should return the enclosed letter.

Yours truly,

it has proven the pupils were attending school Regularly. The general average attendance are 17.06 we therfore requesting you to raise this school van going yearly until we have sufficient amount of Children to raise a school build for them.

We also learned from our Agent that the wages for this van service must be cut down to a lower cost, But we want to point out to you that the wages of three dollars (3) per day is not to little for the Amount of Children attending school. And the cost of feed for horses and the Condition of the roads are in this Country, and Nobody Can do this service for Nothing,

Dear Sir:

As requested in your letter 136-2-1 of May 4/37 I am returning herewith the letter of the Chief and Council of the Fisher River Band re the school van.

I have discussed this matter with the Indians and they are not prepared to take turns in driving the children to school. There are only a few teams in this area, consequently all of the men could not take their turn at driving. I would also state thatI do not think the van can be operated for less than the $3.00 per day.

Dear Sir,-

The Department regrets to note from your letter of the 14th instant that the Indian parents of the Fisher River Band are not prepared to cooperate with the Department in the education of their children by assisting in driving them to school.

No change can be made in the decision conveyed to you in official letter of April 7th with reference to the discontinuance of driving of children during the months of May and June of this year.

In the late Fall, you may again write the Department and we will then decide whether or not provision can be made for driving the children during the months of the winter of 1937-38.

As mentioned in official letter of April 7th, the teacher should submit a statement showing the attendance during May and June of those children who were driven to the school from November, 1936. This statement should be forwarded to the Department early in July.

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.

Dear Sir,

We, the residents [illegible] of the Fisher River Indian Reserve in the Province of Manitoba, join [illegible] to make application to you for further consideration of our request for the establishment of a school in the eastern part of our reserve or for the supply of a van to convey our children to the present school.

Since Albert Burke, who has conveyed our children to the present school during the past winter has been informed by the Indian Agent that the services of the van will be discontinued until the commencement of the September quarter.

This will deprive our children of education for the months of July and August. The average daily attendance during the winter through the medium of the van has been nearly 17. which has shown that the removal of only one or two children or even [illegible] children of school age living in the eastern part of our reserve, to be entirely unreasonable.

It is therefore our earnest wish that you will consider the matter favourably, for your favourable consideration of the early erection of a school in the east part of the Fisher River Reserve as the continuation of the Van until a school is in readiness for occupation.

Respectfully yours,

Indian Affairs. (RG 10, Volume 6233, file 511-1, part 2)

Dear Sir,-

The Department is in receipt of a letter, dated the 20th ultimo, from the Indians of the western part of the Fisher River Reserve, with reference to driving their children to school.

It is still considered that these Indians should cooperate with the Department by assisting in the transportation of their children to the Fisher River School.

If you still feel that it is impossible to have them do this, you might obtain competitive prices from different persons for driving the children for the period September 1st, 1937, to June 30th, 1938. Any quotations you receive should be forwarded for our consideration.

Dear Sir.

I regret to have to report that, after over twenty years in your employment, that I have developed a severe eyestrain. I have consulted Doctor Turpel, who recommended a short rest period, also suggested that I have a thorough examination by a Specialist in Winnipeg.

I have consulted an Eye Specialist and a Doctor who have advised me that it will be necessary to wait a few weeks for my eyes to improve before fitting for glasses.

The Doctor to whom I explained my position, has stated it would be advisable to abstain from the use of any ordinary printing matter until glasses can be worn, but that I can give oral lessons and blackboard work.

Fisher River Indian Day School

Dear Sir:

I wish to submit the following report on the above school, inspected on February 24, 1941.

The senior room was in the charge of Mrs. Tong, with 21 pupils present. There are 36 pupils enrolled in this room, but severe colds have greatly affected the attendance. The grades are arranged as follows:

Grade	3	-	18 pupils
"	[illegible]	-	8 "
"	5	-	6 "
"	[illegible]	-	2 "
"	8	-	2 "

The children appeared to be interested in their work. The book-work was very neat and in most cases well done.

The children were well-dressed, clean and neat in appearance.

The class-room was bright and tidy, and the walls in fair condition.

Mr. Tong, the teacher, was home but unable to work. He appeared in poor condition and did not know when he would be able to return to work. Personally, I doubt if he will be able to do much work before Easter.

Miss Margaret Stevens is in charge of the junior room, with 46 pupils enrolled. There were 19 present and the average attendance during the past month was 22. Here, again, the attendance has been affected by bad colds which in many cases required attention from the Doctor. I consider the children are making fair progress. There are 26 in Grade 1, and 20 in Grade 2. They were quite well clothed, and clean.

The room was tidy, cl[illegible] Miss Stevens thoroughly understands l[illegible] her work quite satisfactory.

The school buildin[illegible] has been delivered and is [illegible] school. The flag has bee[illegible] and a new one should be [illegible]

Dear Sir:

I am in receipt of Inspector Bartlett's report regarding his visit to the Fisher River School on the 14th instant which reads in part as follows:

"Mr. Tong has been in the hospital for nearly three months during the present term. Mrs. Tong has been attempting to keep the work going. He is able to look in for a little while each day and help direct the work to some extent. The year's work has been badly broken up and the attendance is poor."

In reviewing our file the only reference to the proposed absence of Mr. Tong is contained in your letter of January 20 at which time it was presumed that Mr. Tong would resume duties at an early date. In view of his continued sickness it is difficult to understand why you have not notified this Branch. Please let me have a complete report on Mr. Tong's present condition and you should state definitely if you consider he will be able to resume duties on October 1 when this school will re-open for the academic year 1941-42. Quite likely the absence of Mr. Tong has affected the attendance which you will note the Inspector reports as being very poor. In replying to this letter you might let me know what action you have taken to improve the attendance at this school.

Dear Sir:

I have your letter 136-2-1 of May 21/41 re the report of Mr. Bartlett on the Fisher River Day School.

I am of the opinion that the epidemic of colds and light Flu was responsible for the lack of attendance at this school rather than the illness of Mr. Tong, during the winter months. The van did not operate after Apr 30th.

Mr. Tong states that he will be able to take over his duties when the school opens on Oct 1/41. I am not in a position to pass an opinion on this, it might be well to have Mr Tong submit a Doctor's report on his condition.

Dear Mr. Hoey: Re - Fisher River School

In a letter from Dr. Cormie, I am informed that Mr. W. G. Tong has given up the school at Fisher River, being seriously ill. In his place we are thinking of nominating Miss Edith Smith-Windsor, but before actually doing so, may I ask what salary will be paid. As you know, Miss Windsor is a first-class teacher and has been doing good work up at Norway House.

Dear Sir:

On the nomination of the Board of Home Missions of the United Church of Canada, the Department has approved the following change of teachers at the Fisher River Indian Day School for the academic year 1941-42:-

Senior room - Miss Edith Smith-Windsor.

Junior Room - Miss Gladys Haywahe.

The first mentioned teacher replaces Mr. W. G. Tong, who has retired for the coming academic year owing to illness. Miss Smith-Windsor was formerly at the Rossville Indian Day School.

Miss Haywahe replaces Miss Marguerite Stevens, who has resigned. Miss Haywahe was formerly in charge of the Cross Lake United Church Indian Day School.

The Fisher River School will be re-opened on October 1, and you should give the new teacher every possible assistance.

DEC 5 1941

Dear Sir:

I wish to submit the following report on the schools in the Fisher River Agency, inspected during the week of November 17, 1941:

Fisher River Indian Day School

The senior teacher is Miss E. Smith-Windsor. There are 24 pupils enrolled, arranged in grades as follows:

Grade	3	- 6	pupils
"	4	- 10	"
"	5	- 3	"
"	6	- 4	"
"	7	- 1	"

The junior teacher is Miss G. Haywahe. There are 47 pupils on the roll call, and the grades are arranged as follows:

Grade	1-B	- 22	pupils
"	1-A	- 6	"
"	1	- 12	"
"	2	- 7	"

The children were fairly well clothed, clean and neat in appearance.

The attendance has been quite good, but has been kept down due to the measles and chicken-pox. Even yet cases exist in several homes.

Both teachers are qualified and have teaching experience. Several parents stated their children were making good progress and enjoyed school. I am sure both teachers will do their best to make school life bright and interesting.

The school building is in good repair. On the first floor are two large classrooms and a living room for the teachers. Upstairs there are four bedrooms.

I would recommend that four 1-quart pyrene fire extinguishers be supplied, one for the basement where there are two furnaces, one for the kitchen, one for the front hall and one for the upstairs.

One soft water tank is likely to become useless at any time. There are two tanks joined together so that

the water....

The water remains at the same level in each. One tank already has about 40 holes. The teachers plugged these with sharp pointed slivers of wood. However, new holes are constantly appearing. The tanks are badly rusted and very thin. The tanks cannot be made in Winnipeg and shipped, because they will not pass through the basement door. It will therefore be necessary to ship the material and later have a man go up and put them together. If possible, this work should be done before the early spring rains.

Peguis South Indian Day School

Mrs. Shergold is the teacher here. She is qualified and has had several years of experience. There are 40 pupils enrolled, and the grades are arranged as follows:

Grade	1	- 26	pupils
"	2	- 7	"
"	3	- 3	"
"	4	- 1	"
"	5	- 2	"
"	9	- 1	"

The pupils in attendance were clean and neat in appearance. Their book work was good, and I consider they are making fair progress. It was cold and snowing during the week I was at the Agency, and consequently the attendance was poor. Nineteen were present.

The van is not yet in use, but I think should operate after Christmas. Some children have five and six miles to travel and this is altogether too far when the snow becomes deep and the temperature gets below zero.

The school and residence are in good repair. The house is scantily furnished, and I would recommend that four chairs be provided, two for the dining-room at approximately $2.25 each, and two for the living-room at approximately $8.00 each.

Peguis Centre Indian Day School

Miss Alice Clarke is the teacher in charge. She is qualified and understands Indian children. There are 25 pupils enrolled, and 15 were present. The grades are arranged as follows:

Grade	1	- 16	pupils
"	2	- 4	"
"	5	- 3	"
"	6	- 2	"

The children were alert and apparently keenly interested in their work. They speak out clearly and all book work was neat and tidy. The children were clean but none too well clothed.

The school is in good condition. The teacher's residence has about 8" of water in the basement. This water has been pumped out several times but comes in again within 24 hours. This trouble arose after the well was drilled at the school over a year ago. It not only keeps the house damp but apparently is affecting the cement

wall as.....

Hall as the foundation at one corner is crumbling badly. It looks as though the gravel used in the wall was not free from clay and probably this is why the water has caused it to crumble. It is perhaps too late now to carry out the repair work necessary, but certainly the matter should be attended to next spring.

Peguis North Indian Day School

Miss Eaton is in charge of this school and is doing splendid work. She has made marked progress with these children and has also done good work with her Women's Club. There are 26 pupils enrolled, and 19 were present. The grades are arranged as follows:

Grade	1	- 18	pupils
"	2	- 1	"
"	3	- 2	"
"	4	- 3	"
"	5	- 2	"

136-4-1

The classroom work is good. The children were clean but scantily clad.

Red Cross work is carried on and already five small children have each knit one sock. They have also knit almost enough squares for an afgaan.

The school and residence are in good repair. The repair carried out on the classroom walls by the use of wall board has made a big improvement and looks well.

Yours very truly.

I have your letter of the 6th instant, nominating Miss Olive H. Maxcall as teacher of the junior room of the Fisher River Indian Day School.

We have not received any previous intimation that Miss Gladys Haywahe had decided to resign. However, I understand from your letter that she has done so, and consequently the appointment of Miss Olive H. Maxcall as teacher, at a salary of $90.00 a teaching month, plus bonus, is approved. THE Educational Committee of the Manitoba Game and Fish association, under the chairmanship of R. H. G. Bonnycastle, has conducted a Nature Study competition among a selected group of Manitoba schools. With the approval and advice of the minister of education, Hon. Ivan Schultz, and under the guidance of Miss O. A. Armstrong, science teacher, the competition ran from January to May and covered such subjects as trees, mammals, birds and natural [illegible].

Fifty dollars in prizes was subscribed by two or three members of the Game and Fish association and illustrated booklets on mammals and waterfowl were distributed among the competing schools by the Hudson's Bay Co., and [illegible].

The cost of conducting the competition was borne by the Manitoba Game and Fish association. The prizes were in the form of Nature books for the school libraries and subscriptions to outdoor magazines such as Canadian Nature and Forest and Outdoors.

More than 30 schools competed, the entries being submitted in a letter size loose-leaf note book in which drawing paper and ruled writing paper was provided. Essays, sketches, colored drawings and personal observations made up the subject matter.

First prize was won by Fisher River Indian school, Grades 1 and 2, Koostatak, Man., teacher Miss C. Mascall. The pupils showed remarkable ability in drawing, sketching and originality. Some of the essays are masterpieces of simplicity and lucid statement. For instance, a wealth of accurate information is given by the anonymous author of the following:

"The weasel is white in winter and brown in summer. It has short legs. It kills birds and animals. It will kill chickens. We trap weasels in the winter time." The Indian children revealed their intimate knowledge of nature and their interest in [illegible].

Bowsman school, Grades four to six, Bowsman River, Man., teacher Miss T. Wilson, won second prize with an entry which was particularly rich in forest lore. The pupil showed an unusual grasp of forest conservation principles. The art work was excellent.

Bower rural school, McCreary, Man., teacher Miss M. E. Wood, carried off third prize with an entry which was rich in original drawings and observations.

A special prize was awarded Maidstone school, Fisher Branch, Man., teacher Miss B. Seldon, for an entry which placed it in a class by itself.

Four days of steady, cold rains starting May 23 caught the warbler migration at its height. The mortality among these insect eaters has been heavy. I was in Portage la Prairie May 25 and was surprised to see a Redstart dodging among the people on the sidewalk of Saskatchewan ave.—the main business street—searching in the corners of the buildings for insects.

As I write (June 3) we are into the second day of another cold, rainy spell. A gale of wind is blowing from the north and driving rain is slanting down from leaden skies. I am at the Delta Marshes. Yesterday Ed. Ward of Delta told me that Hungarian Partridges have reappeared along the roads without young. He suspects that they have lost their eggs in the last prolonged cold spell.

Dr. Fred Cadham raked up a hummingbird—a male Ruby-throat—in his garden at Delta on May 26. It was on the point of death from cold and hunger. He and his visitors fed it honey and water in the warmth of the house and brought it back to full health and vigor. It was released when warm sunshine promised the advent of summer weather at last. It was a false promise for here we are again with April weather in June.

The past week saw the arrival of Yellow-throated vireos and Wood pewees at Island Park, Portage la Prairie. I heard them singing there on June 2. A male Scarlet Tanager was seen at Delta, Man., on May 31, by Torrey Ward.

REPORT ON SCHOOLS OF FISHER RIVER AGENCY INSPECTED
JANUARY 17th & 21st, 1944.

Indian Improved Day School - Fisher River.

In this school we have Miss Smith-Windsor in charge of the senior room, with thirty-three enrolled, Miss Mascall in the junior room with forty-three pupils. The attendance has been fair, but there is room for improvement. A number of the Indians have been camped with their families near the lake where they are fishing, and consequently the children could not get to school; however, most of these people have moved back now so that the attendance should be much better.

The pupils are well along in their respective grades and the work seen was well done and neatly set down, I am certain the children are making good progress.

The pupils were all well dressed; many with dresses, skirts, coats and windbreakers made from Army clothing. These were all re-modelled, and the average person would never know the material was from old Army clothes. The sewing Club under the direction of Miss Smith-Windsor has done some excellent work.

The school building is badly in need of exterior painting and if at all possible this should be done during the coming summer. The front and back steps are also badly rotted and must be renewed.

The furnaces appear in good condition and the building was warm and comfortable.

I submit the following report on the Fisher River Improved Day School, inspected June 15th, 1943.

The junior room is in charge of Miss Mascal with 21 pupils in grade 1 and 36 pupils in grade 2. There were 24 pupils present. The children were neatly dressed and clean. The attendance is down now due to the fact that some of the fishermen have left for the summer fishing and have taken their families along.

The other room is in charge of Miss Smith-Windsor with the grades arranged as follows:-

Grade 3	-	9	pupils
4	-	9	"
5	-	4	"
6	-	1	"
7	-	3	"
8	-	1	"
		27	

Sixteen were present and I consider them well along in their respective grades. The children were well dressed and neat in appearance.

The two teachers at this school are doing excellent work; and both are well liked by the Indians.

The building is in good repair; but the walls and ceiling of the class-rooms are dark and gloomy.

The fence around the school yard should be repaired, otherwise the reserve stock may do considerable damage. It will cost about $30.00 for labor and posts. I trust this expense will be authorized.

DIVISION FILE NO. — Re: a Sheet (422) from Fisher River Indian Day School, Fisher Bay, Man. — PAGE 3 — FURTHER CONTINUATION

15. It will be noted from paragraph 7 of this report that a quantity of "Indian Biscuits" were stolen. I might here state that it was ascertained that these biscuits are only issued to the Indians during the school time, and not during the summer holidays of July and August. In this connection also please refer to file under the caption of: "R. & F. with Inland (Ask) of Indian School No. 1470, Indian Affairs, Man." wherein it will be noted that one of these biscuits was picked up by the writer outside the school. This school was broken by the caretaker, [illegible] of Indian Affairs, Man. on the 22-6-43, at which time it was in order, and it was broken into on the 24-6-43, when the biscuit in question was also found. It would therefore appear to be evident that the Fisher River Indian Day School was broken into during the week between the 22-6-43, and the 24-6-43, and also by the same party or parties.

16. It might here be stated that it is alleged that there is a deserter from the army by the name of Harris TAUBAUD, escaped in the bush somewhere in the Dallas District, Man. (reference file under the caption of: Gen. No. H-102444, Pte. Harris [illegible], No. 10, District Depot - Absentee, "F" Div. File No. 44 Z-60). This man is a well known criminal, and there would appear to be little doubt that he is stopping in the Dallas District, about 4 miles from the Fisher River Indian Day School, and is therefore a logical suspect in this case. However, I have so far been unable to obtain any information whatsoever as to where this camp might be.

17. It will be noted from paragraph 6 of this report that the serial number of the radio in question is not known, but that same was purchased from the Aeolian Piano Co., [illegible] Winnipeg, Man., in the fall of 1942 by one [illegible] of the creek, Man. I would therefore respectfully suggest that a check be made by a member of [illegible] to ascertain what records, if any, they have of this sale, and if they have the serial number of [illegible] radio on file.

18. [illegible] has been forwarded [illegible] to the Indian Agent, [illegible] Manitoba, for [illegible].

19. Enquiries in this matter are being continued, and a further report will be submitted in due course.

1. base-ball..... 1.00
1. tin "Spark"..... .35
5. tins other foods @ about .20¢ ea..... .60
Total..... $41.05

7. It was further learned on checking that one of the boxes of "Indian Biscuits" had been opened and about half of the box of biscuits taken. These biscuits are issued to the school by the Department of Indian Affairs, and their value could not be ascertained.

8. Examination was made to see if any possible finger-prints could be found, and it appeared that some of the cups and cooking utensils had some partial prints on them. These were taken to Winnipeg on the 31-8-45, where they were checked by Cpl. J.H. Godkin, F.P.S., who stated that the only prints to be found on them were fragments, and not suitable for comparison purposes and were useless to this investigation.

9. No tracks or other marks could be found that would assist this investigation in any way.

10. I might here mention that this school is practically completely surrounded by trees, and is set back about 50 yards from the main road going by from Dallas, Man., to Koostatak, Man., being about 1½ miles from the Koostatak Post Office. The nearest dwellings to the school are the residence of the Rev. Gordon S. BICKELL, in charge of the Mission at Fisher River, Man., whose home is about 150 yards south-east of the School, and the dwelling of Gladys (Mrs. Fred) KINKEAD, whose home is about 150 yards north-west of the school.

11. I interviewed Mr. BICKELL and his daughter, Marjory and his son, Ivan, who are stopping with him, but none of them had observed anything suspicious in or near the school, and had not even known that same had been broken into until informed of the fact.

12. Gladys (Mrs. Fred)KINKEAD and her sister, Elizabeth McKAY, who is stopping with her, were also interviewed, but were unable to give any ~~information~~ information of value to this ~~case~~.

13. Enquiries were made around the neighborhood, but no-one was able to give any information regarding this matter.

14. A check was made of all local suspects, and youngsters whom it was thought might have had a hand in this offence, but without result.

RE: B.E. & Theft (460) from Fisher River Indian Day School, Fisher River, Manitoba.

(FISHER, MAN. DIV. 1-1-7).

HEADQUARTERS

1. In the P.M. of the 30-8-45, information was received from one William F. Roth of Komarstuk P.O. Dimrist, Man., to the effect that the Fisher River Indian Day School at Fisher River, Man., had been broken into, and a quantity of goods stolen.

SUB-DIVISION

2. I immediately patrolled per P.C. Cole No. 1770 to the Fisher River District, where the teachers of the school, Miss Rose Victoria MARKSTEIN of Winkler District, Man., and Miss Mildred [illegible] of Elm Creek, Man., were interviewed.

DETACHMENT

3. These teachers informed me that they had both taught at this school during the winter and spring terms of 1945, and had left the school on the 27-6-45, and had locked the school before leaving. They had returned to the school in the evening of the 29-8-45, and had found that it had been broken into, entrance having apparently been gained through a basement window at the right front of the building.

P.C.R.

1st d/t.

4. I might here state that this school consists of two class-rooms which open onto a hall in the middle. The front door of this school opens onto this hall. At the back of the hall is a door leading into the living quarters, where the teachers live. This room is used as the kitchen, and there is a stairway leading upstairs from the kitchen, and there are four bed-rooms upstairs, although only three of them are in any way furnished, each of the teachers using a separate room, and one room being kept as a spare room or store-room. The stairway down to the basement is in the hall. There is a full basement to the building, and at the back is a room where various canned foods are kept. In the hall-way are stored what are known as "Indian Biscuits", which are made by Eatons's in Toronto, Ont. These biscuits are about 5 inches in diameter and half an inch thick, and are shipped in 25 lb. boxes. There were 6 boxes of these biscuits in the hall.

A. R. V. No.

5. The teachers informed me that when they arrived at the school in the evening of the 29-8-45, they found that the key to the back door, which had been left in the lock on the inside of the door, was missing. Their beds upstairs had been slept in. Soup and cocoa had been cooked in the kitchen, traces of same being found in utensils and cups. A pair of old felt socks, such as are used by most of the residents of the district during the winter, were in the fire-box of the kitchen range.

AIRMAIL

Indian Affairs Branch, Dep't of Mines & Resources, Ottawa.

I beg to refer to Mr. B.F.Neary's letter, File 136-2-1 (WT 1) of the 3rd April last, regarding the resignation of Miss Julia McGill as teacher at the Fisher River Day School. The position was advertised but no replies were received to the advertisement. However, a Miss Eunice White heard of the position through a friend of Mrs Jean Scott, who is the other teacher at this school, and wrote to me.

Miss White assumed duties at this school on Tuesday morning, May 13th last, and will remain as teacher until June 30th next, and I enclose herewith Miss White's application for this position.

It will be noted that Miss White has not had any experience as a teacher at any Provincial or other school, but she has just completed her third year Arts at University of Manitoba, and I believe that she will creditably fill the position of teacher until June 30th.

I may say that Miss White asked me to request the Department to be kind enough to see that her salary is paid promptly at the end of June, as after that date she intends going to summer school and will need her salary for her expenses.

Dear Colonel Neary: Re: Fisher River Day School

We beg to nominate as teacher of the junior room in the above mentioned school, for the coming academic year, Miss Ruth Henriche, whose application is attached hereto.

Miss Henriche, who taught in the Intermediate room at Norway House last year, will succeed Miss Julia McGill, whose resignation we understand has been submitted.

We shall be glad to have your approval of this nomination at your earliest convenience, and also to know what salary will be allowed.

We regret to notice that the new form of application has not been used by Miss Henriche. A supply of the new forms was sent to our Superintendent of Missions, Dr. C.H. Best, and we requested that the old ones be destroyed. We shall draw Dr. Best's attention to this again, and, if necessary, we can have Miss Henriche complete a copy of the new form and forward it to you direct.

Re: Fisher River Indian Day School, No. 511.

Re: Norway House (Roseville) Indian Day School, No. 540.

The Department has received and accepted the resignation of Miss Eunice White as teacher of the Fisher River Indian Day School, effective 1 July, 1947. No further payment of salary should be made to her after that date.

To succeed her, the Department has approved the transfer of Miss Ruth Hendricks, formerly teacher of the intermediate room at the Norway House (Roseville) Indian Day School (No. 540). At the Fisher River School she should receive the same rate of salary as she was paid at the Norway House School, namely, $121.60 a teaching month.

I beg to acknowledge receipt of your Registered letter of the 7th instant, File 136-2-1 Treas: enclosing cheque in favour of Miss Ruth Hendrichs for $29.10, being refund of her Retirement Fund Account.

In this connection I may say that Miss Hendrichs left her position on September 19th, as teacher at the Fisher River School, without notice. As soon as I had been advised of this, I wired the Department the information.

Under date October 1st, Mr. B.F.Neary, Superintendent of Welfare and Training wrote advising me that Miss Hendrichs salary cheque for the full month of September had been mailed to her, and that she had therefore been overpaid. Mr. Neary asked that I communicate with Miss Hendrichs in an effort to recover either the uncashed cheque, or the amount of her overpayment. This I did as soon as I was able to learn her address. However, to date I have not heard from Miss Hendrichs.

It would appear that the amount of overpayment received by Miss Hendrichs is $50.71. I am therefore holding her Retirement cheque until I hear further from you, as to whether or not this cheque should be returned, if Miss Hendrichs fails to refund her overpayment of salary for September.

AIR MAIL

Mr. P.C. Lazenby, Superintendent,
Indian Agency, Hodgson, Manitoba.

I regret that your letter of May 26th was overlooked and no reply sent.

It is noted that Mrs. Jean Scott and Miss Julia McGill are prepared to continue teaching the Fisher River school for the academic year 1948-49 and we are pleased to have their services.

Bernard J. Neary
Superintendent of Education.

Original on 136-8-1

Ottawa, June 13th, 1927.

Sir,-

I have your letter of the 4th instant, informing the Department that, owing to a death in the family of the teachers at the Fisher River Indian Day School, you have granted permission to close the school for a few days. The action taken by you is approved. The Department regrets the death of this child and extends sympathy to Mr. and Mrs. Tang.

The quarterly return for the current quarter should state the dates between which the school was closed for the reason stated above.

Your obedient servant,

J. D. McLEAN

Dear Mr. Hoey.—

You have the news of the recent bereavement of Mr. W.G. & Mrs Tong, in the death of their son. I decide to add this word to what Bro Barner wrote you. I hope your Department will allow Mr & Mrs Tong the full years salary. The blow broke them up badly and they could not go on at once and them they have been so faithful for so many years, they deserve every consideration

Yours sincerely

Ottawa, May 17th, 1933.

Sir,-

I have your letter of the 11th instant, regarding the cheques which you received in payment of salary of yourself and Mrs. Tong for the quarter ended March 31st, last, as teachers at the Fisher River Indian Day School.

In reply I beg to say that, through error, these cheques were sent direct to you instead of to the Treasurer of the United Church of Canada, Toronto. It will adjust matters if you return to the Church authorities the amount of the cheques which you received covering salary for the March quarter. When your returns of attendance, etc., for the current quarter ending June 30th, next, are received, cheques in payment of salary will be forwarded to the Treasurer of the United Church.

Your obedient servant,

J. D. Sutherland.

Ottawa, May 17th, 1933.

Reverend Sir,-

The Department forwarded, in error, to Mr. and Mrs. W. G. Tong, teachers at the Fisher River Indian Day School, cheques covering their salary for the quarter ended March 31st, last, instead of sending same to the Treasurer of the United Church of Canada.

A communication has been received from Mr. Tong, in which he states that he deposited these cheques to their separate savings accounts and that, subsequently, cheques were received from the Home Mission Board of the United Church for salary to the end of June. We are requesting Mr. Tong to refund to you one quarter's salary of himself and Mrs. Tong. When returns are received from this school for the quarter ending June 30th, next, cheques in payment of the teachers' salaries will be sent to you as Treasurer of the United Church of Canada.

Sir:

I have to inform you that the authorities of the United Church of Canada have nominated the services of Miss Esther Gaudin as junior teacher at the Fisher River Indian Day School to succeed Mrs. W. C. Tom. The Department is approving of the appointment of Miss Gaudin, with salary at the rate of $65 per teaching month, less 10 percent during the present fiscal year. Miss Gaudin is professionally qualified.

It is hoped that she will meet with every success in the work at Fisher River. I have to request that you will give her every assistance you can in her work.

136-2-1

Ottawa, December 3rd, 1934.

Sir,-

The Department has received the resignation of Miss Esther Osmdin, teacher of the junior room at the Fisher River Indian Day School. Her resignation is effective at the close of the present month.

On the nomination of the Board of Home Missions of the United Church of Canada, the Department is approving the appointment of Miss Marguerite Stevens as teacher of the junior room for the period January 1st to June 30th, 1935. It should be distinctly understood with Miss Stevens that her appointment is only for the six months mentioned. You should, also, inform her that it is the Department's wish that she spend part of the current month in the classroom observing Miss Osmdin's methods.

The salary allowed Miss Stevens for the six months of her engagement will be at the rate of $55 a teaching month.

The Honourable the Superintendent General,-

Referring to memoranda of the 6th and 10th instant, regarding the teaching services at the Fisher River Indian Day School (Western No. 44 - Electoral District of Selkirk), Man., for the coming scholastic year, I would say it is noted you direct that the services of Mr. W. G. Tong be retained.

With reference to the last paragraph of memorandum of the 6th instant, you approved the replacement of Miss Pangman by Miss Stevens, the assistant teacher. The authorities of the United Church of Canada now withdraw their original nominations, and, as Mr. Tong's services are being retained, they request that Miss Stevens, also, be retained for a further period. The reason is that there is no place in the community where the junior teacher can board, except the home of the missionary, who is the father of Miss Stevens.

I am therefore of the opinion that it would be in the interests of all concerned to make no change in the teaching services in the junior room at the present time and that Miss Stevens be re-engaged. I submit the matter of her re-engagement for your approval.

Acting Deputy Superintendent General.

Dear Mr. Hoey,- Re: Fisher River School

I understand that Miss Edythe Smith-Windsor and Miss Olive Mascall have both resigned from the above School. In their place, I beg to nominate, for the senior room, Miss Mildred Enns. Miss Enns is about 23, has had three years' teaching experience and expects to have her permanent teaching certificate this fall. For the junior room, I beg to nominate Miss Susan Suderman. She has already taught one year on a permit in Manitoba.

We regret that we cannot get teachers with normal training but, as a matter of fact, there are, I understand, some eight hundred schools in Manitoba now being taught by untrained teachers.

In the letter from the Department enclosed to the Secretary on the 9th instant, it was stated that he informed the Indians that $2,500 was appropriated for repairs &c on their school-house but that as that amount was insufficient an additional $1,500 was asked. I authorized the Agent to expend an amount not exceeding $1,500 in the erection of a new school-house but I gave him

Sir, I'm instructed by the Board
of which the building was
instructed as to the dimensions of
the same, assuming that the Commissioner and the Indians would
attend to that matter, inasmuch
as I was led to understand
during my induction of that
office that the intention was
that the old building was to be

intimated in a new estimate
was sanctioned by Parliament,
but as that amount is now avail-
able for that purpose I would
recommend that an entirely new
frame building be erected upon
an improved modern plan, and

Dear Sir,

I beg to inform you that I am under contract with the Indian Department to build a school house at Fisher River, which has to be completed & reported by the 30th inst. so that I will have the building completed by the 22nd instant, and Mr McCord the Superintendent told me to write you & notify you when the building would be finished, as it has to be accepted by you. Mr McCord told me that he would write you himself on the matter, but he told me to write you also, so that I could see you at Fisher River at as early a date as possible, as there is no one there to give me any instructions whatever. Hoping to see you at Fisher River at an early date.

E. McEll. Esq.

Dear Sir,

I take the liberty of writing you to ascertain if we could get our children into your institution. We have been depending upon getting assistance from Government to build a school house on Indian Creek, but have been disappointed. We are willing to do our part, but cannot afford to build a school house at Bridel River this Spring.

You will remember that the school was to be finished according to Contract on the 30th of June that has not been done, so we were disappointed in not getting assistance. We have also been put to a great deal of trouble and expense in getting our children to school, as we have had to board them in Winnipeg, and consequently the

Winnipeg -

Sir,

In accordance with the request of Agent Mackay I have visited the Fisher River school and take pleasure in reporting that Mr. Bellecourt has taken pains to make the building first class and has carefully regarded the plans and specifications furnished him for the same. I have no hesitation in saying that the whole work will be found to fully carry out every requirement of the contract. I find on all details of finishing have been left in charge of the Agent, such as painting & glass which have not yet arrived, etc. These however will be

gether without damaging the
building. The Rafters may be
read regarding the "Scantling"
only that in that case the
distances apart — which ranged
from 16" to 22" could be ascertain-
ed from the marking on of the
flooring.
"Roofing" The same may
be said as regards the size of the
timber, the manner of fixing them
together as stated re Sills & Joists.
"Sheeting" Ordinary spruce
clapboards were made use of and
where laid — one board taken
out. The overlap was only 1/3". Com-

RECEIVED
FEB 1 1898
OTTAWA

Selkirk Jan 31st 1898

J. A. N. Reed Esq. M.D.P.
Government House Ottawa

Dear Sir. I hope I wont be intruding if I trust on your valuable time by asking your assistance. Regarding a little trouble between myself and the Indian department. The trouble is regarding the building of a School house at Fisher River on Lake Winnipeg. first I entered into a contract with the Department through Indian Inspector Mr. Hall about the 25th of May 1897. to build the School according to plans & specifications furnished by the department. which contract had to be completed & reported to Inspector Mr. Hall at the Indian office Winnipeg on or before the 30th of June. and Agent McKay of Berens river was to be the officer in charge and from him I was to get the certificate for the buildings completion. so that on my way to Fisher river I went with my outfit to build the School. I sent a note to Agent McKay notifying him that the School would be finished on the 24th of June and requested him to be there on that date to inspect the building. so that he called on me to inspect the School on the 20th. but the building was not quite completed. and he said the reason he called before the 24th was that he was on his way to Winnipeg to arrange for the coming Treaty. and told me that he would not be at Fisher River until he came there to the Treaty which was not to be until about the middle of July. so I pointed out to him the last portion it would leave me in if the building was not reported on according to the Contract which report should be in by the 30th of June. so he suggested that he would call the Rev Mr Mc Officer the Missionary there to see in his place regarding the completing of the work

work & to give me a certificate to Inspector McCall as soon as he was satisfied that everything was according to the Contract. So I very gladly accepted his suggestion, but before going further I requested Agent McKay to thoroughly examine the building which was finished on the outside. This he did & at the same time using the plans & Specifications for reference, and he expressed himself well satisfied with the whole work. So he then asked the missionary to act for him & to give me a certificate to McCall as soon as he was satisfied that everything was done in fulfillment of the Contract. This McCall agreed to do and afterwards acted as overseer on the work. This was the first I knew of Agent McKay

I would now like to point out to you that after McCall was in charge that I was in the act of putting down the platform in the school when the teacher said he would rather not have a platform so he talked the matter over with McCall & they wished me not to put in the platform. Then again I looked out special lumber with me to make the required blackboards & table for the School. but the Teacher being a Carpenter himself, had very quickly made two blackboards & a Table for the old School which he showed me and they were equally as good as new. So he. the Teacher suggested to me that if I would make him a cupboard for the school & put a lock on the doors so that he could keep the books away from the children. that he would put his blackboards & Table in the new school. So McCall being satisfied. I accepted the proposition & ~~medal~~ buy on my return to Selkirk I made the cupboard & sent it back by the same boat that brought us home. So I completed the works of the School on the 28th of June & McCall was well satisfied & gave me a Certificate to Inspector.

in every respect than called for, & the stone

of the ground been lower at that end of the

best bill of lumber that ever I saw go out of
this yard. Trusting Dear Sir

Department. I remain Yours Truly

MEMORANDUM.

To Department of Indian Affairs.

Ottawa, 189

When Dr. Inspector Macrae visited the school (15th Feb.) ~~Upon~~ he found that the black board was not properly painted according to specifications & that the Teacher had a Black-board from the old school set up in its place.

In Inst. Mackay's School Report for December 1892 he says referring to the Fisher River School House. "The School Room was clean & tidy, but "very cold. Wardrobe hooks which were too "weak and small almost all broken both "locks (door) have fallen & prices very "inferior kind used." In the specifications strong double cloth hooks, and 5 best 6" American locks each door with two Keys are specified.

They state that with such conflicting testimony it is difficult to make a recommendation but I would suggest respectfully that the money in the Dept's hands should be held until things are satisfactorily proved to the Dept. There is still $60 unpaid on the Contract.

What about the 20th June last Dr. Mackay came to Fisher River and inspected the building and that he was present when Dr. McKay & Mr. Sellick went over the building and compared the work with the Specifications

That Dr. Mackay inspected the Foundation under the building and porch and expressed his satisfaction with it, stone all around underneath both.

The material used - such as siding, flooring & sheeting was some of the best ever made here, and that all defective parts were cut out.

That Dr. Mackay said he might not come back again but would appoint Mr. McKaffie - The missionary & finally pass the building. That Mr. Sellick had started to build a platform when the teacher in charge & Mr. McKaffie expresses a desire not to have it.

That Mr. Sellick was made at the request of Mr. McKaffie and the teacher a cupboard for the school instead of other work to be done.

That Dr. Mackay expressed himself well satisfied with the building as well as the material on hand & complete it. There was no inferior material used on the work - That the siding had a coat of ¼" Lap.

Department of Indian Affairs.

To

Ottawa, 1894

When Dr. Inspector Mucra visited the school (15th Oct.) ~~Septem~~ he found that the black board was not properly mounted according to specifications that the Teacher had a Black-board from the old school set up in its place.

In Mr Mackay's School Report for December 1892 he says referring to the Fisher River School House. "The School Room was Clean & tidy, but "very cold. Wardrobe hooks which were too "weak and small almost all broken both- "locks (door) have fallen & prices very- "inferior Kind used." In the specifications along double Cloths hooks, and best 6" American locks to each door with two Keys are specified.

They state that with such conflicting testimony it is difficult to make a recommendation but I would suggest respectfully that the money in the Depts hands should be held until things are satisfactorily proved to the Dept. There is still $60 unpaid on the Contract.

Feeling confident that the specification would be adhered to in the item of walls i.e. a portion being to the outside & inside of the walls to be made of Common Inch boards and the Tarred paper lining placed on the Inch boards instead of the way it is put on at present I am satisfied that this will materially add to the Heat of the building &c. It must also be remembered that this season has been an extremely cold one all through Canada. This alone will add to the cost of building about $100.

Ottawa, 2nd May 1893

Re your memo 17/3/93 Cm. coming C. Chief Amusman.

They tell me that I agree with Mr McColl in that if the outer & inside linings of the school Buildings (referred to in this letter of the 9th March) were removed, and then replaced that they would suffer [redacted] on account of the nail holes and tearing of the lined felt paper, he is correct in this, but this nevertheless is the easiest way & none other made manner viz. in following the directions given in my memo of the 17 Feby 93, the nail holes in the outer & inner linings would have to be properly stopped with putty — Mr McColl recommends that it is better not to do this & the expense of such things, but in all the future buildings to have the extra linings put in — He informs the Dept. that he has written to the Contractor to have the locks and clothes hooks received on the Fisher River School.

A Mr McColl considers that the siding (ie. outside) should be tongued & grooved and matched instead of merely lapping on each other — This would be an extra expense and of course would be better — but I do not think

Erections are just on is a matter of material moment
carelessness in construction, with no proper party to
see to the work while being constructed is one of the
principal things to ensure in perfect buildings, the Specified Clap Boards if well put on should answer the purpose for these buildings.

Again he objects to the position of the Porch and the placing of the seats - The former i.e. the Porch being on one side of the front of the Building admits of a good window being placed on one side of it in the main building, & also being a more convenient way of breaking the cold drafts of winter blowing in when the doors were opened upon the Children - And as regards the seats, for the widths of the buildings, The School Architecture published by the educational Dept. in Ontario shows that two three row is used, as regards the Ventilation it is just the ordinary mode in these buildings by letting air in at windows doors and the bad air to escape by a small trap in the Ceiling of the School room - For my part I do not see that for the purpose & price that such improvement can be made in these buildings. Respectfully submitted.

There is no Space for passing an outside of the Windows to place the storm Windows properly on the Windows, consequently it is impossible to keep the Schoolhouse warm without properly fitting the Windows and storm windows in their places, for the Cold air comes into the Building between the Windows and Casings with out anything to obviate its ingress. MEMORANDUM

To The Deputy Minister Department of Indian Affairs.

Ottawa 30th August 1893

Rev. Mr. Capt. McColls letter of 7 inst.

I have the honor to state that Mr. McColls letter alone shows that he lately visited the Fisher River School House and that he found a number of things that had not been done in accordance with the specifications and he therefore recommends keeping. In conclusion "I would recommend that the fifty dollars kept back from the Contractor be not paid him, but that amount be expended in providing proper locks &c &c"

I would therefore respectfully suggest that Mr. McColl be referred to his own letter and asked to have the repairs, Changes &c mentioned therein done immediately so that the School at Fisher River may be made comfortable for the coming Winter.

Respectfully submitted &c.

Sir,

Reverting to your letter No. 136-2-5 of February 21st relative to drilling a well at the Fisher River School and at the schools upon the Peguis Reserve, I respectfully beg to submit an offer from Mr W.J.Beard who is drilling in the vicinity of Hodgson at the present time.
Mr Beard's offer is as follows,-

Drilling	$3.00 per foot
Casing	1.25 " "
Pump and Head	25.00
Pump-piping	.27½ " "
Moving outfit, actual cost, receipts to be submitted.	
Board for two men, actual cost, receipts to be submitted.	

In reference to the moving Mr Beard has explained that it takes four teams to move his outfit and that he cannot have his own team teams for this as they would be idle for too long a period while drilling and that the only method he can follow is to hire for the necessary moving to and from the work required.

The above offer is for one well at Fisher River or for four wells; three upon the Peguis Reserve.

Mr Beard would like to be advised of the decision of the Department as soon as possible as the work he has in the Hodgson district will soon be completed.

I have the honour to be
your obedient servant

April 1921.

Mr. Scott

Last July, a request was received from Rev. T. Ferrier to have a well dug at the Fisher River Indian Day School. The Agent was asked to furnish an estimate of the cost of the work, and he states that the well at the Agency, which was dug in 1915, cost $580.00, and that the school is further from the river than the Agency.

In February last, he suggested that if the Department was considering the drilling of a well at Fisher River, it would be advisable at the same time to arrange for the drilling of wells at each of the three schools on the Peguis Reserve.

He now submits an offer which he has received from Mr. W. J. Beard, who has a well drilling outfit and is at present working in the vicinity of the Peguis Reserve. The offer submitted is as follows: -

Drilling	$3.00 per ft.
Casing	1.25 "
Pump and Head	25.00
Pump-piping	.27½ " .

Besides, there would be the cost of moving the outfit and board for two men. The Agent is unable to state the depth it would be necessary to drill at each of these schools to obtain a good supply of water, but it would probably cost from $400.00 to $500.00 per well.

At present the water supply for these schools is obtained from the river, which is stated to be unfit for use. There has never been any wells at these schools and, no doubt, they are needed, but as our funds will be limited this year and there will be many calls, it is doubtful whether the expenditure mentioned should be made. These schools have got along with the present arrangements for obtaining water, and I consider that until funds can be found, the question of digging these wells might remain in abeyance.

However, I shall be glad to have your views on

D REGINA, SASK., May 31st, 1921

Dear Mr. Scott:

Referring to Department letter No. 136/2 of the 6th inst. stating that arequest had been received from Reverend T. Perrier to have a well dug at the Fisher River Indian Day School, and that Mr. Agent Carter had been requested to furnish an estimate of the cost of having the work done, which estimate is submitted in your letter: when I received your letter, it seemed rather strange to me that we should be asked to have wells dug at the three schools, when they were situated on the banks of a running river, and knowing the Indians as I do that they will not use well water if they can get water from a slough or river, I thought it well to investigate the matter. When Mr. Christianson was on the Fisher River Agency investigating other matters, I asked him to go into this matter of watter supply at the schools, and ascertain how they had been getting water in the past, and the necessity for digging wells.

Mr. Christianson tells me the three schools are situated on the banks of the Fisher River, that the stream is rapid and runs over rocks and sand, and that he took samples and had them examined by the Bacteriological Branch of the Provincial Board of Health of Winnipeg, who state that it contains bacteria derived from forage and is not injurious for drinking. Inspector Bunnin reporting on this matter states that the water can be classed as a good, healthy water. My own opinion is that if the Department were to sink wells at this place they would never be used, and I think the Department can figure on a saving here of between $1000 and $3000.

Yours very truly,

W.M.Graham

OTTAWA, June 7th, 1921.

Sir, -

In further reference to your letter of April 22nd last, and previous correspondence regarding the drilling of three wells at the schools at Fisher River and on the Peguis Reserve, I beg to say that Mr. Commissioner Graham states that he has had an investigation made into the matter by Mr. Inspector Christianson.

Mr. Christianson states that the schools are situated on the banks of the Fisher River, that the stream is rapid and runs over rocks and sand, and that he took samples and had them examined by the Bacteriological Branch of the Provincial Board of Health of Winnipeg, who states that it contains bacteria derived from forage and is not injurious for drinking purposes, also that the water can be classed as good healthy water.

The Commissioner is of the opinion that if the Department were to sink wells they would never be used, and it would cost anywhere from $1,000 to $3,000 to sink these wells.

It is considered that the water from the river is satisfactory, and the Department cannot therefore undertake to have the wells drilled at these schools.

I am directed to acknowledge receipt of your letter of the 31st ultimo, regarding the request of the Reverend Mr. Ferrier to have wells dug at the Fisher River and Peguis Indian Day Schools.

In reply, I beg to say that in view of the report furnished by you regarding this matter, that as these schools are situated on the bank of the Fisher River, and that the water of the river is not injurious for drinking purposes, the Department will not authorize the drilling of these wells. Mr. Agent Carter is being informed accordingly.

It is considered that these schools can very well obtain the water they require from the river.

OTTAWA, June 9th, 1921.

Sir, -

I have to acknowledge receipt of your letter of the 28th ultimo, submitting quotations and tenders received for the painting and kalsomining of the Agency residence and the Day School building at Fisher River.

In reply, I beg to say with reference to the painting and kalsomining of the Day School building, both inside and outside, that it has been found necessary this year to curtail expenditure, and the Department is therefore not prepared to have this work carried out during the present fiscal year. I might further add that it is considered that the prices submitted for this work are excessive.

Regarding the painting and kalsomining of the Agency residence, I beg to say that you will be advised in a separate communication regarding this.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

Sir,—

In reference to Voucher No. 1342 herewith respectfully submitted I beg to say that I under-estimated the the amount of materials and labour required to complete the Fisher River School basement.

The floors are now finished and are in a better condition than they ever have been but it would seem that the water that banks up against the south wall of the School would make it necessary to have a better and larger weeping drain.

There is a seakage from a muskeg south of the school that appears to keep the sotth side of the school too damp at all times and the drain is not able to carry the water away.

Sir,-

I have to acknowledge the receipt of your letter of the 21st instant, reporting that a new set of grates is required for the furnace of the Fisher River Indian Day School.

In reply I beg to say that you may arrange with the manufacturers of the furnace which is in the school for the set of grates required. You should give them full instructions as to the type and number of the furnace and shipping directions. You will be good enough to attend to this matter at once in order that these grates may be installed before the cold weather sets in.

Properly receipted vouchers, in duplicate, should be forwarded covering the expenditure incurred.

Sir:-

I have to acknowledge receipt of your letter of the 9th instant, drawing the attention of the Department to certain renovations required to the walls of the classrooms and living rooms at the Fisher River Indian Day School.

In reply I beg to say that the Department will approve of having the walls calcimined. It is noted that you will undertake to perform the labour needed in carrying out this work, for the sum of $25.00 - the necessary material to be supplied. We are requesting Mr. Agent McCuish to purchase the calcimine and brushes and to have them delivered to you. We are also instructing him, upon completion of the work, to forward properly certified vouchers in duplicate, covering the amount allowed for labour and for the cost of the material.

It is expected that a satisfactory job will be completed by you in renovating these walls. You will, no doubt, hear from the local Indian agent, who will be asked to supply you with the material at an early date.

Sir:-

The Department is in receipt of a communication from Mr. W G. Tong, Teacher of the Fisher River Indian Day School, in which he draws attention to the need for certain renovations being made to the walls of the schoolroom and living rooms. He states that the walls should be calcimined, and he has agreed to perform the labour required for the sum of $25.00.

The Department will approve of having this work undertaken and completed at as early a date as possible. Will you please arrange for the purchase and delivery to the teacher of the quantity of calcimine needed, also two brushes. If the expenditure for this purpose exceeds the sum of $10, it will be necessary for you to obtain competitive prices: the purchase of the above materials should be made from the firm quoting the lowest price. You might consult the teacher as to the colour he desires.

When the work has been completed, you should forward properly certified vouchers, in duplicate, covering the amount to be paid Mr. Tong for the labour, viz: $25.00, as well as the cost of the material supplied. It is expected that Mr. Tong will do the work of putting on the calcimine in a satisfactory manner.

The purchase of the above material should receive your early attention, in order that the work can be carried out as soon as possible.

Sir,—

I have to report to you the condition of the basement wall under the Fisher River Indian School.

The west wall is cracked the full length of the building about 18 inches below the ground line, the portion of the basement wall below the crack is leaning in, the portion above is leaning out. The South wall starting ~~starting~~ at the South West corner is cracked about the same distance from the top and extending about half way across the basement wall, this wall is also dividing from top to bottom one half projecting in, the other half projecting out. Not being a building expert or an architect I cannot say positively the cause; but will venture the statement that it is caused from three causes. First poor material used in construction, poor workmanship and thirdly the ground expanding and has the frost went down into the ground the wall was gradually pushed into the basement. As a precautionary measure I have engaged a bridge ~~[illegible]~~ carpenter living outside the reserve to reinforce the South and West wall with square bridge timbers to prevent the colapse of the building and I would recommend that a competent person be sent to Fisher River School at an early date to examine the whole foundation and furnish estimates of the material required for permanent repairs, in order to have the material ~~required~~ delivered on the ground before the 1st of March has the gravel will have to be teamed from the shores of Lake Winnipeg a distance of [illegible] miles, also the cement will have to be teamed from Hodgson during the winter months.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

Ottawa, December 29, 1941.

Mr. [illegible].

Mr. Soper.

Indian Agent McCuish has reported that the foundation of the west wall of the Fisher River Day School has cracked the full length of the building, about 18" below the ground; the portion below the ground is leaning in and the portion above the ground is leaning out. The South wall has also started to crack and is enlarging the collapse of the building. As a precautionary measure the Indian Agent has employed a bricklayer to repair the South end west wall with timber to prevent the cracks. In order to remedy this condition and make the building safe, it will be necessary to rebuild the foundation of the building, at an approximate cost of $2,000.00.

As the material required for mixing the concrete will have to be teamed from the town of Lake Winnipeg, a distance of seven miles, and the cost required from Ottawa before the latter ends, I may be recommend that the funds at the disposal of the Agency be utilized to cover the cost required, after the foundation piles, and have the materials delivered in the winter so that the work may be carried out early in the spring.

The Council Branch have made a vote of $2,000.00 to cover this work.

Hon. Charles Stewart.

The Indian Agent for the Fisher River agency has reported that the foundation of the west wall of the Fisher River day school is cracked the full length of the building about 18 inches below the ground, and, in order to remedy the condition and make the building safe, it will be necessary to rebuild the foundation of the building, at an approximate cost of $1,000.00.

I would ask your approval of this very necessary expenditure, so that an amount may be placed in the Estimates to provide for the cost.

Dear Sir,-

Replying to your letter of the 18th ult., with reference to the foundation of the Fisher River Indian Day School, I beg to advise you that you are authorized to purchase the necessary amount of Portland cement and gravel required to construct this foundation next spring. You should purchase the materials at once in order that they may be delivered this winter.

When the cement arrives, it is very important that it be stored in a perfectly water-tight place. In purchasing the gravel and cement, competitive prices should be obtained and the materials purchased from the firm quoting the lowest price.

In figuring the materials required, it will be on the basis of mixing concrete in the proportion of one part of cement to four of gravel. The gravel should be perfectly clean and free from loam or other foreign substances , and no stones larger then will pass through a 3" ring. It is also very important that the gravel used in mixing the concrete is free from alkalies.

EXTRACT FROM REPORT OF MR. C. W. BARTLETT, PROVINCIAL SCHOOL INSPECTOR, ON HIS INSPECTION OF THE FISHER RIVER INDIAN DAY SCHOOL.

Original on File 136-2-6.

" A beautiful modern school and residence (combined), with a full size basement. Unfortunately owing to defective foundations the south wall is settling badly especially at S.W. corner, so that something must be done at once to prevent wall from falling. Cement badly cracked.

Furnace smokes badly owing to illogical and unworkmanlike arrangement of pipes. It has been necessary to put in stoves to heat classrooms, especially the west room. Though supplied with large hot air pipe, the entrance for hot air into this room is only about 5 inches wide.

Blinds are needed for the junior room, and the turning of the seats to face westward would greatly improve lighting conditions .

I would again repeat what I have had occasion to remark in my other reports, regarding family drinking cups, and towels."

Sir: -

Mr. Bartlett, Provincial School Inspector, in a report of his inspection of the Fisher River Indian Day School, draws attention to the defective foundation. You have already been instructed regarding the purchase of the material required to repair the foundation next spring.

The Inspector also draws attention to the condition of the furnace, which, he states, smokes badly owing to the arrangement of the pipes. He states that it was necessary to put up stoves to heat the classroom, especially the west room. He states that although the furnace is equipped with a large hot air pipe, the entrance for hot air into the west room is only about 5" wide. It should be possible to have the furnace overhauled and put in good condition in order that it will heat the building. Any enlargement required in the entrance from the hot air pipe should also be made.

I shall be pleased to have your report as to what you would recommend in order to have the furnace placed in a satisfactory condition to heat the building, and also an estimate of the cost of the work.

The Inspector also states that blinds are needed for the windows in the junior room, also that the turning of the desks to face westward would greatly improve lighting conditions. You may arrange for the purchase and installation of the blinds required for this room, and it might be advisable to have the seating arrangement changed in order that the desks would face westward.

The matters referred to by the Inspector should receive your early attention.

INDIAN AGENT'S OFFICE

JAN 27 1923

Fisher River Agency.

The Halfway P.O.Man.Jan.23rd 1923

78214

Sir,—

I again wish to refer to the basement under the Fisher River Day School, of which I wrote to you on Dec 18, and your letter I36—2—5 of the 10th inst in reply.

I now wish to advise that I have examined the foundation under this building very thoroughly, and as far as my knowledge of building goes, I would say that the whole of this foundation needs to be taken out and reconstructed. I have also had taken up a portion of the cement basement floor, and find that the present foundation is built on mud, of which there is a thickness of about seventeen inches, under that is hardpan. I was unable to carry my examinationfarther owing to water coming into the hole, that I made in the floor; but by testing with a sharp pick, I do not think it is more than a few inches to the rock, this I cannot state definately. This test satisfied me that before a new wall is put in, some under drainage will be required to be provided for.

while in Fisher River I took the opportunity of visiting the Lake Shore where the gravel will be procured, this is a high grade washed gravel; but hard to get at. I also interviewed a number of Indians, and asked for prices for gravel delivered at the school building, at so much per cubic yard. The only bid I received which I would consider was from Joe Williamson at three dollars and fifty cents per yard. The greatest difficulty in accepting a price for gravel, is they have not got the horse power, to with any degree of certainty deliver the gravel by the break up of sleighing. During the Spring and Summer months teaming over this road would be an impossibility.

In your letter I36—?—5 of the 10th inst you did not state the thickness of the wall required. The size of the building is seventy feet by thirty two, inside measurement, with two dividing walls thirty two feet long. I do not know if these walls would have to be removed, or if they could be undermined, in places, and supported, to build under.

The floor space will be thirty two by seventy feet, and the thickness is not stated in your former letter.

Please inform me by night letter, or otherwise the ammount of material, that tenders should be asked for.

The cement upon arrival will be stored in the old school house, which is perfectly watertight. I have had the entire building supported with tamerack bridge timbers. this is a precautionary measure, as each visit I make to this building, the foundation is cracking in new places.

I have the honour to be,
your obedient servant,

M. McQuish

Ottawa, January 29, 1923.

Dear Sir,-

Replying to your letter of the 23rd inst., with further reference to the rebuilding of the basement under Fisher River Day School, I beg to say that the outside foundation walls should be rebuilt 13" thick, and the floor laid 6" thick of concrete, finished with 1" of cement, in the proportion of two of sand and one of cement, trowelled to a smooth surface.

With reference to the two interior supporting walls , it might be more economical if these have to be rebuilt, to build in a 6 x 12 wood beam supported on wooden posts , spaced approximately 10' apart. If this style of construction is used, it will be necessary to build a suitable concrete footing under each of the posts in order to avoid any settlement. The following is an approximate list of materials required :

OUTSIDE WALLS : (13" thick) 60 cubic yards of gravel;
and 75 barrels of cement.
FLOOR : (6" thick) 30 cubic yards of gravel,
and 37 barrels of cement.

If two inside supporting walls are rebuilt of concrete 12" thick, the following materials will be required : 15 cubic yards of gravel , and 9 barrels of cement.

Every effort should be made to have these materials delivered before the spring in order that the foundation of this school may be put in a safe and satisfactory condition.

Your obedient servant,

(J. D. McLean)

Dear Sir,-

I understand that the Department are preparing to put a new foundation under the Fisher River Day School. This building is a good building but the foundation is wrecked. The only sure remedy is to jack it up, take out the present walls and floor of the basement and rebuilt the same. I have been informed that the rock formation is not far below the present depth. The foundation should be on the rock or the footings must be below the frost line. The whole of the basement should be well drained with tile out to the river bank. To do this you will require about 700 sacks of cement and 125 yeards of gravel. This would give a mixture of about one to five, which would be quite strong enough if the gravel is clean and the cement is fresh.

I am simply offering this as a bit of information.

When this is being done it would be well to have the connection from the warm air pipes to each class-room enlarged. There is a 20" pipe from the furnace to the floor of the class-room and from there up to the grate the passage is in a pipe in a space made by a 2 x 4 scantling with a 14 or 16" centre. The grate is large enough to accommodate the 20" pipe. This can easily be done by an extension in the cloak-rooms and leave the wall of the class-room in each case untouched. These funnels should have been removed instead of putting a stove in each class-room.

Yours sincerely,

Dear Sir,-

I beg to acknowledge receipt of your letter I36-2-5 of Jan 15th with refference to the unsatisfactory condition of the furnace which heats the Fisher River Day School.

I have examined the furnace in this school and as the winter is well advanced,I would recommend that nothing be done at the present time,as when the basement under the school is being reconstructed the furnace will have to be taken out,then I think is the proper time to make any alterations,as the furnace is not in the right place,and part of the wall will have to be removed in order to give a greater space for the heat from the furnace,to enter the West School Room.I would not care to venture an estimate for the cost of the same.

Reffering to the 4th paragraph of the letter I beg to report that I have placed an order for blinds for the Junior Room,and has sugested to the teacher,that the desks be placed Westward,in accordance with the Inspectors recommendations.

OTTAWA, February 24th, 1923.

Sir: -

I have to acknowledge the receipt of your letter of the 15th instant, regarding the unsatisfactory condition of the furnace at the Fisher River Indian Day School.

In reply I beg to say that any alterations or changes in the position of the furnace should be carried out at the time the repairs to the basement walls are being undertaken in the spring. You should draw this matter to the attention of the Department in time to authorize the carrying out of the work when the basement repairs are being made. At the same time you should state what alterations are required to the furnace to place it in good condition, and to provide a satisfactory heating arrangement for the school. It is presumed that, if certain alterations are made to the present furnace, it can be made satisfactory, and it will not be necessary to obtain a new furnace.

We note that you have placed an order for the climax for the junior classroom, and also that the change in the desks, as recommended by the Inspector, will be carried out.

Winnipeg ....22nd February, 1923.

The Assistant Deputy & Secretary,
Department of Indian Affairs,
Ottawa, Ont.-

Sir,-

I have asked for competitive prices for the cement,of a recognized Portland brand,to be used at the Fisher River Day School,from the several frims named in your letter,number and date as given above.

The Commercial Cement Co. quote a product of cement that they manufacture themselves,and known as Commercial Cement.It is a little cheaper than Prtland. I have made inquiry about it, and I am informed that it is immune from Alkali action. It has used quite a lot and has given satisfaction I am informed.

With the quandary of taking Commercial Cement at the lower price as against Prtland at a higher price, I decided to ask you by wire,which I should purchase, I beg now to confirm my wire of last evening,which was as follows,-
"Car Portland Cement costs four hundred and seventy eight dollars
"Car Commercial Cement costs Four hundred and thirty four dollars
"Latter immune from alkali action. Which shall I purchase.

Please advise what action to take. The above prices are all F.O.B. at Hodgson,the nearest railway point to where these supplies will be used.

I have the honor to be,
Your obedient servant,

Inspector of Indian Agencies.

Ref. No.
Re Letter 136-2-5A.
Date 2nd Feb'y,1923.

Winnipeg 2nd March. 1923.

The Assistant Deputy & Secretary,
Department of Indian Affairs,
Ottawa, Ont.-

Sir,-

The attached voucher # 2480 of Lake Winnipeg Inspectorate, covers the cost of Cement purchased to make repairs on the foundation of the Fisher River Indian Day School,on Fisher River Indian reserve.

I beg to point out that the quantity purchased is 124 bbls, the letter of authority called for 112 bbls. Mr.Agent McCrith noted the quantity,and informed me that it would require 12 bbls more,so I added the quantity,with the intention of submitting my action for approval, then I made explanation of why I did this.

The price is given on the attached abstract of tenders,and I have deducted the discount quoted,and submit the account thus corrected for settlement.

Ottawa, April 19, 1923.

Sir:

I have to acknowledge receipt of your letter of the 5th instant, enclosing a requisition from the teacher of the Fisher River Indian Day School for school material and for 10 single school desks.

With reference to the school material, I beg to say that an order has been placed with the Government Stationery Office for the text books and other articles asked for, to be forwarded to the address given by the teacher.

Regarding the 10 single desks required to complete the seating equipment, it is noted that the desks at present in the school are those known as the New Empire, supplied by the E. N. Moyer Co. Ltd. In order to have uniformity in the seating arrangement, it will be necessary to purchase the same type of desk as at present in use. You may, therefore, place an order with the E. N. Moyer Co. Ltd., 110-120 Princess St., Winnipeg, for the supplying of the 10 single desks needed. In placing this order, be careful to give the exact number of the size of desk desired, and the prices charged should include freight charges to the nearest railway station to the school. Please obtain accounts, which you will be good enough to certify and forward to the Department in order that payment can be made. Also furnish the firm with full shipping directions and, when the desks arrive, you should see that they are taken to the school and set up in the classroom.

The teacher also requested that 50 cakes of carbolic soap be supplied, or one for each family. If you consider it necessary, you may purchase a small quantity for the use of the school children, but we are not prepared to furnish soap for each family.

Re, The Fisher River Day School furnace.

Dear Sir,-

Having examined the furnace in Fisher River Day School I have come to the conclusion that the present state of the basement wall,is largely due to the faulty installation of the furnace and I would recommendin reconstructing the basement that the present cross walls,be substituted by pillars,in order to let the hot air circulate through the play rooms in the basement. The furnace at present in use is to small.The firebox will not hold fuel enough to keep fire all night.The consequence is the furnace has to be fired to full capacity,which is very wasteful on fuel. the only two cold air pipes on the furnace,get their cold air from outside.A few feet from the outside intake is a cold air register,in the hall.Much of the cold air taken from outside enters the building through this register.This pipe from outside should be greatly reduced in size,and those in the floor increased This would insure a good circulation,and if the present pipe from the outside was reduced to 10 inches,it would give plenty of cold air from the outside.In addition to the two cold air pipes and the new 10 inch fresh Air pipe,two 22"cold air pipes are required to make up the difference in the cold air supply,and to force a prpper circulation,as it is absoutely necessary to take the cold air out of these rooms before you can get a proper circulation. The class roomhot air pipes are dimished in size from the elbow below the floor,to about 6 ft.above the floor.This should be done away with,and the register put in the floor.The register now in use in the wall would do for use in the floor.The furnace firepot is cracked,which lets the smoke circulate through the building.To what extent I could not say as there was a good fire in the furnace when I examined it.If this furnace was properly installed,with the aid of the two box stoves now in use,it should heat t e entire building.The water pan in this furnace should be raised,as it does not evaporate half enough water.

Installing a larger furnace would be most advisable.All the alterations and additions of pipes are necessary The best furnace not installed properly would be a failure,under any conditions.For doing this job,which consists of taking down the furnace to allow for repairs to building,putting it up again,putting in 1.10"fresh air pipe and damper,putting in 2.22"cold air pipes and registers in class rooms.Closing up cold air pipes and fitting same in first floor.Increasing one pipe to its proper size. Altering all hot air pipes in class rooms,and lenghtening all hot and cold air pipes,will cost 114 dollars.This price does not include any repairs to the furnace itself.I would recommend that if the same furnace is used,that a galvanized casing,and asbestos and tin lined around the furnace instead of brick.This could be done at a slight increase in cost.

The best price I am able to get on a furnace larger than the one in use,has a capacity of 75.000 cu ft.at a cost of $675 set up plus 4½% sale tax.A furnace of this size would require 2350 bricks.Bricks and brickwork extra.

Yours truly,
(Signed) D.Seebach.

Ottawa, May 9th, 1923.

Sir:

I have to acknowledge the receipt of your letter of the 24th ultimo, enclosing copy of a communication which you received from Mr. D. Seebach, regarding the repairs and alterations required to the present furnace and heating system at the Fisher River Indian Day School.

In reply I beg to say it is considered that, if the existing furnace is repaired, as recommended by Mr. Seebach, and the alterations made in the cold air pipes, the difficulty in the present heating system would be overcome. The Department will approve of having this work done in accordance with the report submitted by Mr. Seebach. It will, however, be necessary, if possible, to obtain prices from several persons competent to do the work, and the contract should be given to the one quoting the lowest price. All labour and material required to complete the work should be supplied by the person to whom the contract is given. As you have, no doubt, a copy of the report prepared by Mr. Seebach, you will be good enough to see that the work is performed in accordance therewith, and that tenders are called accordingly. It is hoped that, when the above alterations have been carried out, there will be no further trouble in keeping the school in a comfortable condition. When the work has been completed, you will please forward properly certified vouchers, in duplicate, together with the tenders received.

It is also hoped that you will take the necessary action to have the repairs required to the outside foundation walls carried out, the material for which has been purchased and forwarded.

The repairs to the heating plant and foundation should be carried out and completed before the school re-opens after the summer holidays. The Department will expect you to give this matter your personal attention, and see that all work is completed in a satisfactory manner, and as cheaply as possible.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Re. Alterations at Fisher River Day School.

Specifications.

To [redacted] re up the present building in such manner as to carry out the following work without damaging the building.
Take down and clear away present basement walls including two basement stairways.
Build wwxxx forms for, and construct concrete walls 12" thick to replace present stonework.
Take up present furnace room floor and excavate 4" lower, filling in with broken stone or gravel. Lay new concrete floor and finish with 2" 1:2 mixture steel trowel finish.
Make good floor all round inside of basement, 12" wide (Present wall is 2' thick and proposed new wall will be 12" thick, leaving strip 12" wide all round floor to be made good.)
Excavate for and lay weeper drains all round building, outside foundation. Cover same full width of trench with rubble stone to within 6" of surface.
Put in two cross drains beneath furnace room floor. (re. connecting these drains, see footnote.)
Make good baseboard and any other cutting that may be required to pour concrete.
Cut away over three doors in concrete partitions and make same good.
Make good present defects in flues and chimney breasts in basement.
Raise grade all round building 12" high or, sloping to 12' 0" wide.
Refix two sheds over basement steps.
Clear out of basement all builders rubbish and leave brush cleaned.
Clear away all builders rubbish from school yard.

I agree to carry out the above work according to above specifications, completing same in a workmanlike manner for the sum of $2125.00. (Two thousand one hundred twenty five 00/100 dollars.

This price is for labor only. The Department of Indian Affairs to pay insurance under The Workmans Compensation Act, and deduct 2% from the amount of this contract price to cover same.

Note: Re. weeper drains and rubble filling. It is essential that this should be done, as damage to present building has been caused, not by poor foundations, but by water and expansion by frost bulging in basement walls. Let is saturated by water from muskeg to the south.

These weepers should drain into cess pit in basement, and cess pit be connected to main drain to River bank.

Whether or not this main drain is already in existence or condition of same if there, I am unable to ascertain without excavating, therefore cess pit and drain to river are not included in above contract, but can be done under new contract or day work when job is opened up.

Payments on progress of the work to be made fortnightly, to the extent of 75% of work completed, on verification by the Department's representative.

Sir:

I have your letter of the 6th instant, enclosing a tender for the reconstruction of the basement walls of the Fisher River Indian Day School. The price appears rather high, and I should be pleased to learn if you are in a position to engage a competent foreman and the necessary labour and supervise the work from the agency office. The materials which are needed, other than those already purchased, could be secured by Mr. Inspector Dunn of Winnipeg. Please inform the Department, without delay, wiether you are in a position to supervise this activity and engage the necessary labour.

I beg to acknowledge receipt of your letter I36-2-5 of the I8th inst.with refference to the reconstruction of the foundation under the Fisher River Day School,in which you ask if I am in a position to engage a competent foreman and engage the necessary labour and supervise the work from the Agency office.

In this connection I wish to report that it would be difficult to get a competent man to act as foreman;but while in Winnipeg during the present week,I got in touch with Wyatt & Ireland Ltd.This firm of contractors have done some work for the Department at Fort Alexander and they now have a contract to erect a residence for the Methodist Mission at Fisher River. Mr Wyatt will be at Fisher River on the IOth of July and will give me figures on it as a contract,or furnish a foreman to undertake the work.This firm tell me it will cost in the ~~MeIghbourhood~~ neighbourhood of $I400.They will also take the lumber ~~xxx~~ used for casings and any other building material left over,which has been purchased by the Department,at a valuation.

There is also another firm,of Packer Bros. who wish to tender for this work.

I respectfully wish to recommend,that I be authorized to accept either one of these tenders,if they are in the neighbourhood of $I500.00,as I do not think,the same work,could be done by day work at the same price.

Re heating plant Fisher River Indian School

Dear Sir:-

On examination of this plant we find that the fire pot of furnace is badly cracked and will need replacing. as the smoke is now allowed to enter the rooms through the heating ducts.

The hot air pipes leading from the furnace to the rooms are 22" or 24" in diameter and at the floor lever they are reduced to 6" x 24" ducts which run up between the studding and discharge into the rooms. This cuts down the capacity and will not give service.

The furnaceis too small to handle the building: In this country we rate all,furnaces at 60% of the given rating, but if thepiping was enlargedand the cold air pipes changed so that the cold air could be taken from the rooms instead of from the outside when the building is unoccupied, the present furnace by forcing could be made to heat the class rooms in coldest weather but it would be necessary to put stoves in the basement to heat it.

We would suggest the installation of two furnaces one for either side, which arrangement would handle the heating of the basement.

We would like to hear from you in regard to this matter and if possible receive your instructions to proceed with the work of

Dear Sir,

I wish to acknowledge receipt of your letter I36-2-5 of the 9th inst. in which I was instructed to interview the firm of Wyatt & Ireland of Winnipeg, in connection with the contract for the re-construction, of the basement under the Fisher River School.

I interviewed this firm, in their office, at Winnipeg on the 16th inst. and authorized them, to proceed with the work, on the basis, of proven cost plus 10%.

They have a full gang of men at work.

They assure me that the building will be completed in time for the re-opening of the school about Sept 1st.

Fisher River Agency,

Dear Sir:-

When the foundation was completed at the Fisher River Day School, we had left on hand, about 70 bags of cement.

Some of this I am going to use for the septic tank, at the Agency residence.

Please advise me what has to be done with the balance.

Mr Commissioner Graham mentioned, when I met him in Winnipeg, a few days ago, that there was a probability of a doctors residence being built in Fisher River Agency. If so this cement could be used for that purpose. There is no local sale for it and the haulage from Fisher River to Keigeen, and Railway freight, from Keigeen to Winnipeg, would cost nearly as much as the cement is worth in Winnipeg.

Sir:

I have to acknowledge receipt of your letter of the 18th instant, in which you request to be advised if Messrs. Wyatt & Ireland, the contractors for the foundation work at the Fisher River Indian Day School, are entitled to receive 10% on the price of the material purchased by the Department for the purpose of making repairs to the foundation.

In reply I beg to say it is considered that the contractors would be entitled to receive the above percentage on all material, including that purchased and put on the ground by the Department.

Properly certified vouchers should be forwarded by you covering the amount due the above firm.

We note that there has been left on hand about 70 bags of cement. You should have this cement stored in the Agency to be used for any future repairs, etc., to schools and for other Agency purposes. You will be good enough to see that this cement is stored where it will be kept thoroughly dry and ready for use when required.

Dear Sir:-

I have the honour to enclose herewith voucher #261 amounting to $2419.10. in favour of Wyatt & Ireland Ltd.

For wages,and other expence,in connection,with the reconstruction of the foundation,under the Fisher River Day School.

This expendature was authorized,by letter #136-2-5 July 9th 1923.

All items on sub.voucher #1 are for the construction of the foundation and for alterations made in installing furnaces.

Items shown on sub voucher #2 are for lath and hard wall plaster. This expence was incurred by the breaking of plaster and alterations in installing new furnaces.

All items on sub voucher #3are wages and personal expences of Contractor Wyatt,while inspecting and advising, during the construction of the foundation.

There were expences in connection,with this work,which I had not estimated on. All items shown on sub voucher #4. These were required,as many of the windows were broken,by the settling of the building.Also doors on sub.voucher #5.The old doors in this basement had been made useless,by being whittled down to make them fit,owing to the settlement of the building.

All items shown on sub vouchers #6 to #15 are for freighting equiptment,new coal chute and other incidental expences.

Wyatt & Ireland made a satisfactory job of this work. The best of material was used through out and I am satisfied it would pass the most exacting inspector.

Ref. No.

Lake Winnipeg Inspectorate
Inspector's Office

Winnipeg ...10th....January,...1925.

The Assistant Deputy & Secretary,
Department of Indian Affairs,
Ottawa, Ont.-

Sir,-

The enclosed voucher # 2774 of Lake Winnipeg Inspectorate covers the expense connected with fixing up and putting the lavatories of the Fisher River Indian Day School in a clean and sanitary condition.

When I was at the payments of the Fisher River Band on the Indian Reserve at Fisher River in June 1922, my attention was directed to the conditions of these lavatories by Mr. Tong the teacher of the School, I saw them and Mr. Tong's suggestions to make up new boxes for these conveniences and thus fix them so that they could be dumped and cleaned, were very proper to effect good sanitation, and I asked Mr. Tong to have the work done and send the accounts to me. By some misfortune this has not been done in a regular manner.

I know that the work was done and beg now to submit the account and my action in ordering the work done for approval. If a receipt for the amount paid for wages is necessary I can procure this.

I have the honor to be,
Your obedient servant,

Ina A. Bunn
Inspector of Indian Agencies.

Department of Indian Affairs

Ottawa, Ont.

Dear Sir:

R

Please find enclosed certified copies of accounts for work done on the Indian School at Fisher River which were recently handed to us by the Agent Mr McCuish to have bills receipted, which we have had done and we trust you will now find in proper form.

We might state that these accounts were sent forward in the same condition as the bills we have been forwarding in connection with the work we have been doing at Elkhorn with the exception that the covering statement has been on our own form instead of the form of the Department which we were asked to use in this case by the Agent, and we were at a loss to account for the delay in payment of same as they were originally sent forward in Novemberof last year. If these are now in proper form we would be pleased to have you wire the amount involved to our credit at the Lombard Branch Bank of Montreal, this City.

Thanking you for your early attention to this matter

We are,

Yours very respectfully

Ottawa, March 6th, 1924.

Sir:

I have to acknowledge receipt of a requisition for school supplies from the teacher of the Fisher River Indian Day School.

You may purchase and have delivered at the school 4 gallons floor oil, 4 dozen sewing needles, 12 spools white cotton No. 40, 1 bed mattress, full size, 1 bed spring, full size. You should obtain competitive prices, if possible, and the purchase should be made from the firm quoting the lowest price. Properly certified vouchers, in duplicate, should be forwarded covering the expenditure incurred. The Department cannot authorise the supplying of the 5 yards of awning material asked for by the teacher.

Regarding the 20 rods of Page wire fencing for the school gardens and staples for the same, I have to request that you will state whether you would approve of this fencing being supplied or not. If so, you should state the approximate cost, also whether posts and gates would be required, as well as the cost of the labour in erecting the fence. As soon as we have full information regarding the cost involved in the fencing of the gardens, we will consider the authorizing of the purchase of the material required and having the work done. Your early reply giving the information asked for is desired.

The stationery, etc., will be forwarded to the teacher's address from the Government Stationery Office.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Fisher River Agency,

Thev Halfway, P.O. Man. March 14th 1924

Sir, --

I beg to acknowledge receipt of your letter #136-2-5 of the 6th inst.

Referring to the 3rd paragraph of your letter, with reference to the fence asked for by the teacher of the Fisher River Day School. The approximate cost of 20 rods of fencing and one gate, would be $20.00. Mr. Tong and the senior boys of the school agree to take out the posts and erect the fence, without any cost to the Department.

I would recommend that this expendature be authorized, as the teachers and pupils of this school take great pride in the school and surroundings.

The purpose of this fence is to protect their school garded from cattle, and stray dogs.

I have the honour to be,
your obedient servant,

Sir:

I have to acknowledge receipt of your letter of the 14th instant, regarding the wire fencing required for the school garden at the Fisher River Day School.

In reply I beg to say that you may arrange for the purchase and delivery of 20 rods of wire fencing and 1 gate. If possible, competitive prices should be obtained and the purchase made from the firm quoting the lowest price. We note that you estimate the cost to be approximately $20, and also that the teacher and senior boys of the school have agreed to take out the posts and erect the fence without cost to the Department. When the fencing has been delivered, you should furnish properly certified vouchers, in duplicate, covering the expenditure incurred.

Dear Sir,-

In reply to yours of the 24th instant, re Fisher River Agency, I beg to say that I am aware of letter of 23th October 1923, to the Indian Agent, but notwithstanding same it has been decided upon reconsideration that you are not entitled to the percentage on the cost of materials purchased direct by the Department or on amounts advanced by the Department to the Indian Agent for freighting. If these accounts had been paid by you and the cash advance made by you, you would then have been entitled to the percentage, but not otherwise.

COMMISSIONER'S OFFICE.
REGINA, SASK., August 5, 1924.

Dear Sir:-

I beg to call to your attention that Mr. McCuish, the Agent at Fisher River, has advised me that there was considerable trouble experienced at the Fisher River Day School in connection with the chimney catching fire, and that the teacher was in constant dread of the School burning down.

The Agent informs me that he has had expert advice as to the cause of the chimney catching fire and was advised that the chimney was not high enough from the peak of the roof. I presume that the bush around the school, has something to do with it.

The only remedy would be to add another two or three feet to the top of the chimneys. If I find this is necessary, I would ask your authority to have this done. There are two chimneys on the school.

Sir:

I have your No. 203-11A of the 5th instant, regarding the repairs required to the chimneys at the Fisher River Indian Day School.

In reply I wish to inform you that Mr. Tong, the teacher, had a conversation with the Superintendent of Indian Education at Brandon, Man., and he was most emphatic in his claim that the chimney was very dangerous. You are authorized to make arrangements with the Agent to effect any changes that are necessary to eliminate the danger from fire. Please instruct the Agent to see that the chimneys are kept thoroughly cleaned.

Dear Sir:-

I beg to bring to your attention the matter of painting and repairing the School and Teacher's Residence in the Fisher River Agency. Residence at the South, Centre and North Schools, require painting. The Agent figures that it will cost in the neighborhood of Fifty Dollars for each building, and that the work can be done by Indian labour.

The Fisher River School is in need of a stable. The Agent has already made arrangement for the logs. The cost of purchasing lumber and shingles and erecting the building will be about Sixty Dollars ($60.00).

The school also needs to be painted outside, and kalsomined and painted inside. The figures I have received from the Agent, in connection with this work, are Three Hundred Dollars ($300.00) for the outside, and One Hundred Dollars ($100.00) for the inside work, the total asked for the School in that agency, being Six Hundred and Ten Dollars ($610.00).

I would like to have your authority to have this work done immediately, as it is urgently required.

Sir:

I have your No. 203-11A of the 5th instant, with reference to painting the Fisher River Indian Day School and the erection of a stable. It has also been noted that the residences at the three Peguis schools require painting. I have noted your estimate of $60 for each residence in this connection and I have to authorize you to have this work done.

You may expend $400 for the exterior and interior painting required at the Fisher River Day School and the sum of $60 for the necessary finishing material for a log stable at this school. I have noted that the agent has already made arrangements for the logs.

Please be guided by the regulations which govern purchases and the engagement of labour and, when forwarding accounts, send them in separately for each school, if possible.

Ottawa, January 26, 1925.

Dear Mrs. Speechly:

I have your letter of the 13th instant, with reference to the activity of your dentist, Dr. R. E. Murdoch and in which you offer his services for the Indian school children between Lake Manitoba and Lake Winnipeg. I should be pleased if Dr. Murdoch would hold a clinic for the children of the Peguis and Fisher River Schools, northeast of Hodgson, Man. In the Fairford area we have no local representative who could cooperate with your dentist and I am not prepared to authorize a clinic there. It is understood that the Department will be responsible for the travelling and material expenses and for the board and lodging of Dr. Murdoch while engaged on the clinic. I note that you estimate one month's time for the examination and treatment.

I am writing to Mr. Indian Agent M. McCuaig, The Halfway P. O., Man., informing him of our plans and asking him to complete the arrangements with Dr. Murdoch, who should correspond with him before proceeding to the district. When the work is completed, Dr. Murdoch should submit his account in duplicate, showing his expenses, and should support it with receipts for the payment of board, transportation (except railway fare which is at a standard rate), etc.

I have to thank you for this opportunity and I am hopeful that the general health of the Indian children treated will be much improved.

Yours very truly,

Deputy Superintendent General.

I have to inform you that the Superintendent of the Manitoba Division of the Junior Red Cross has offered the Department the services of a dentist for a clinic for the children of the Peguis and Fisher River Indian Day Schools. The Department has agreed to pay the travelling and material expenses of Dr. R. H. Murdoch and to pay for his board and lodging while engaged on the clinic. It has been estimated that one month's time will be required for the examination and treatment.

Dr. Murdoch will be asked to correspond with you and to make arrangements for the activity, before proceeding to the district. Please make the necessary arrangements upon request of the doctor and give him any assistance you can.

Sir:

Miss Brandon, Travelling Nurse, in a report on her visit to the Fisher River Agency recommends that, as the noonday lunch brought by the pupils is a rather poor one, a hot drink be provided for them at noon, if Mrs. Tong will with the assistance of the older girls prepare a hot drink or serve soup. You may arrange for the purchase and delivery of a sufficient amount of cocoa or supplies for the serving of a hot drink or soup to the pupils until the end of April, next. You may also supply a small quantity of sugar, pearl barley and rice for the soup. Should any utensils be required to prepare and serve a lunch, you may also purchase and supply the utensils absolutely necessary. You should take this matter up with Mrs. Tong, and if she will arrange to serve a hot drink or soup, you may purchase the supplies required as above mentioned. Properly certified vouchers, in duplicate, should be forwarded covering the expenditure incurred for the purpose. It is presumed that there are biscuits on hand which could also be served.

Miss Brandon reports that she drew your attention to the heating plant which she states did not seem to her to be quite safe. She states that dampers are required in the new chimney to distribute the heat. You may enquire into this matter and see that the proper changes and alterations are made to overcome any danger and to evenly distribute the heat in the building. No unnecessary expense should be incurred, and properly certified vouchers, in duplicate, should be forwarded covering any outlay in making any changes in the present heating arrangements.

Sir:-

I beg to forward herewith and recommend for payment, Fisher River Agency voucher #529 in favour of Hodgson Supply Company for $36.75, representing material purchased for repairing the teacher's residence at the South Peguis School.

Under cover of Department letter No. 136-2-5 dated the 11th of August last, authority to expend $210.00 on Fisher River schools was given, including the painting of the three Peguis schools. When the work was in progress it was discovered that the roof of the teacher's residence at the South Peguis school required shingling before painting was undertaken. This work was left until the last in order that it might be ascertained whether the appropriation referred to would cover this. It was found that this would be sufficient and the work was proceeded with.

There is yet another voucher to submit for $30.00 covering the labour, but I have been ~~advised~~ to return this to the Agent for the insertion of certain further particulars, and it will be forwarded at a later date.

Sir,—

I beg to acknowledge receipt of your letter #136-2-5 of the 25th.ultimo, with reference to Nurse Brandon's report on the Fisher River Day School. The matters reported in the first paragraph of your letter will be attended to without delay.

With reference to the second paragraph of your letter referring to the furnaces in the school, I am at a loss to know what to do farther. These two new furnaces were installed by expert mechanics. I again had expert advice, when the new chimney was constructed, and as far as I can understand or find out, these furnaces, and heating apparatus are perfectly satisfactory. As I pointed out to Nurse Brandon on her visit to the above school, that new dampers would be no good, if the ones already installed, were not made use of. It has got to be a mania that nothing is right about this school, unless there is a continued expendature.

The mechanic that installed the new furnaces pointed out to me, that by having no dampers in the hot air pipes there was an even distribution of heat, whereas with dampers in the pipes, where there is no furnace man, such as Fisher River School they are often turned off, and the pipes become heated, and often fires follow. This was pointed out to Nurse Brandon.

I have the honour to be,
your obedient servant,

W. McCuish

Ottawa, March 11, 1925.

Sir,-

I have your letter of the 5th instant, with reference to Nurse Brandon's report on the Fisher River Indian Day School.

We note that you have arranged for the providing of a quantity of supplies for the noonday lunch.

Regarding the furnaces in the school, we are pleased to have your report that they were satisfactorily installed by expert mechanics and that you consider they are perfectly satisfactory. No further action need be taken to make any change in the heating arrangements at this school at the present time.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

REPORT OF DR. W.J. MURDOCH, JUNIOR RED CROSS DENTIST
TO THE DEPARTMENT OF INDIAN AFFAIRS, OTTAWA, ONTARIO.

Fisher River - Halfway House - June 1925.

On the morning of June 5th I left Winnipeg for Hodgson, Manitoba. I had intended to take Mrs. Murdoch with me but owing to her illness at this time I thought it better not to do so. We arrived in Hodgson (by we, I mean the Rev. Stevens, Methodist Missionary and myself) Friday evening. Mr McCuish, Indian Agent for the Halfway was there to meet us. We managed to get as far as Hodgson with his Ford car. We spent a very pleasant evening there at the home of Mr. McCuish and after careful consideration Mr. McCuish decided that it would be best to start the clinic at Fisher River first because just as soon as treaty would be over many of the children would be out on Lake Winnipeg fishing and would not have an opportunity to receive any dental attention should they require it.

Agency

Accordingly Rev. Stevens and myself drove down to Fisher River Saturday June 6th while an Indian with his team came along bringing the dental equipment, personal baggage, etc. From Hodgson to Fisher River, I should judge, is nearly thirty miles. This would not be far on ordinary roads but excepting the few miles between the Halfway and Hodgson the state of the roads was indescribable. On several occasions our horses went down and it was a struggle to get them out. This was before the very heavy rains which started on the Sunday after our arrival and continued almost steadily for about eight or nine days.

After examining all buildings close to the school I accepted Mr. Stevens kind offer of the dispensary of the Mission as an operative room in which we could attend to the children. On Tuesday after checking over the school I found 91% with defective teeth — This Also giving us nearly one hundred children under the ages of eighteen who required dental attention.

Monday I set up my chair and equipment and by Tuesday night the clinic had started. The children came very willingly thanks to the co-operation of Mr. and Mrs. Long the resident teachers at Fisher River.

Right here is a good place to give a slight description of the conditions under which the clinic was conducted. The Mission and school are situated in a few acres of clearing which is higher than the surrounding country. Both the school and the Mission on the banks of the Fisher River are about four miles inland from the mouth of the river at Fisher Bay. The buildings are frame and the out-buildings are log and all well equipped inside so that both missionary and teacher have comfortable living quarters. The buildings extend as far up as Selkirk and down to the lowlands along the bay shore. It is indeed a pretty place in summer and a fine place for Loggitoes. Crossing the river in front of the school is a log foot bridge used by the Indian children when going to and from their day school.

Unfortunately directly the clinic started on the Tuesday down came the rain so that practically all the children had wet feet. This would have made them more inclined to have septic trouble after extractions. Indeed in several cases I postponed treatment until another day when I thought it might be dry. Besides the children would be overanxious wanting extractions and as they had toothache I could not very well turn them down, in spite of the fact that our clinic was really a children's clinic. In the past Rev. Stevens has had to do a lot of extracting because very often the roads are too bad for the doctor to get down, and when the doctor did happen to be there the chances were that the teeth did not ache and so the patient did not know us. The Indians like a lot of other people do not believe in showing a tooth to a dentist unless it is aching.

During my stay in Fisher River it rained nearly every day. On my return on the fifth day of my visit the children's foot bridge was impassable. The day before the bridge went the Indian agent Mr. McCuish who has come to pay our treaty money had a narrow escape from

being drowned when his buggy upset in midriver and he was thrown out in water nearly up to his shoulders with a very rapid current. As Mr. McCuish has had paralysis he is unable to swim and had he been taken off his feet a rescue would have been difficult indeed in such a strong current. As it was he lost his blankets and everything in the rig. The treaty money was being carried over the foot bridge or it would have gone too.

Against all odds, rain and high water, I was kept more than busy during my stay in Fisher River. A test was made of the adult work to see what the cost of a plate would be. While in Fisher River I made up two plates for an Indian woman who had the extractions completed over a year ago. I figured the cost of material approximately five dollars a plate. Of course, this is not the most expensive but is something that I think would do for the majority of treaty cases. For the children some two hundred fillings were completed and about the same number of extractions for children and adults. Some forty children received treatment and there are twice as many more to receive treatment at some future date if arrangements can be made.

I had intended to put a clinic on in Dallas on the way back but owing to the impassable condition of the roads I did not see how the children of the white settlers could possibly hope to get to Hallow and I accordingly called it off.

On June 23rd I finally got an Indian to risk his team through the mud as far as the Halfway. Mr. McCuish had figured that we might take it up the river by boat, but I thought it unwise to do so. The equipment is insured for $1000.00 against fire but not against water and I felt that neither the Indian Department nor the Red Cross Society would care to be faced with a bill of that size!

So on Tuesday evening at nine p.m. after a drive of nearly all day through pouring rain my Indian teamster and I reached the Halfway both soaked to the skin but our equipment dry, as we had big tarpaulins over it.

On Wednesday I set up my equipment in Dr. Bird's office, the resident doctor at Halfway and on Thursday we inspected the Peguis reserve schools [redacted]. We found 95% of the children with defective teeth and several with external openings on their throat as a result of acute abscesses. I do not believe I have ever seen in all my work in outlying districts so much suffering directly caused from dental sources as in these two reserves. In many cases again was a duplication of Fisher River, only the rain had stopped and the roads were much better. Here again we were overwhelmed with work and had to turn over a hundred away. Even with both Dr. Bird and myself working until late in the evenings it was impossible to get anywhere nearly through in the month allowed for work among the Indian children. Here again I had a very worthy adult case -- a halfbreed veteran of the Soudan war in Egypt who I was forced to turn down rather than turn away any more children. The old gentleman was very disappointed. But some day he may be able to get a set of teeth if the Department will help him to come to the city but it will cost much more than it would have done if we could have found the time to do it right on the ground, as five dollars would have covered our expenses as far as material was concerned.

Before closing I wish to mention the case of a boy of fourteen who had been suffering with severe toothache for several years but was afraid to have his tooth extracted. As a result he developed an acute alveolar abscess, the pus burrowing through and discharging on his throat. Dr. Bird and I gave him gas, extracted the roots and in three days he was well on the way to recovery. This is only one case out of five that we had during our stay. No wonder the tuberculin trouble is developing at a rapid rate amongst children living or rather existing in these reserves when they have such septic mouths. That is a sufficient load for the system to fight without the additional load of influenza and tuberculosis following.

In conclusion I wish to thank Mr. and Mrs. McCuish for their kind hospitality at the Halfway House, Dr. Bird for his invaluable assistance, Rev. Stevens for his hospitality at Fisher River and all the teachers and missionaries for their kind assistance because the results could never have been accomplished without co-operation between us all, I am,

Your obedient servant,

There was no express on Red Cross equipment as it is carried on railway Pass. The only express we had was on supplies.

In looking over the dental supplies at the Fisher River dispensary I would recommend that a small pair of tooth forceps be supplied as all there at present are so large that whom the Missionary trys to extract a tooth for a child as he has to sometimes (owing to road conditions making it impossible for Dr. Bird to get down),,he frequently takes two at once. It would also be nice if he could have some mild local anesthetic tablets which do not contain cocaine and a few washers for his hypodermic. Accordingly I would recommend having the Dental Company send him the following order:

I Ash forcep Number 76.
2 packages Imperial washers Numbers 2 and 3.
3 tubes Smiths Procaine tablets and
I sixteen ounce bottle sterilized distilled water.

INDIAN OFFICE

At Fisher River Agency, ...

The Halfway, Man., July 30, 1925.

Sir:

I have the honor to enclose herewith Voucher No.237 amounting to $[illegible].65, in favor of Dr. R. H. Murdoch, 211 McIntyre block, Winnipeg. This expenditure was in connection with the Dental Clinic held in this Agency between June 4 and July 4, 1925. In the summary to the doctor's report he states where one upper and one lower set of false teeth were furnished on Fisher River Reserve and giving the regular dental rates at $40.00. The doctor informs me that the cost of this set to the Department was $4.50. In connection with this set of teeth I wish to offer the following explanation: There are a great number of men and women in this Agency who have practically no teeth left in their head so we decided to furnish one set in Fisher River and one in Pequis. Both parties chosen were women raising young families. This was done in hopes that others on the reserves would supply themselves with teeth at their own expense. The woman picked on Pequis was found to be so loaded with poison that the doctor had not time to fit her teeth and I would recommend that this case be completed. This voucher was authorized by Department Letter I36-2-5, January 28, 1925.

I have the honor to be,
Your obedient servant,

The Asst. Deputy & Secretary,
Department of Indian Affairs,
Ottawa.

136-2-8.

August 13th, 1925.

Sir,-

Referring to your letter of the 20th July and voucher No. 237, amounting to $232.65, therewith submitted in favour of Dr. R.H. Murdock, Dentist of Winnipeg, who visited Fisher River and Peguis Reserves, and treated the teeth of certain Indians, and did other dental work for them, I beg to say that a cheque is going forward in payment of the said voucher, but it will be necessary for receipts in support of the following items to be furnished, namely a receipt for $2.95 covering "exoress supplies on laundry, 5th June". A receipt should be furnished also for $3.00 covering the laundry charge made by Mrs. S.J. Thomas on the 2nd July.

Kindly see that the Department receives the necessary receipts.

You have recommended that the Doctor furnish a set of teeth for an Indian woman at Peguis, but you have omitted to state whether it will be necessary for the woman to visit Winnipeg to have this work done. Your further report in the matter is desired. The Department is prepared to authorize expenditure in this case if the same will not be large. Particulars should be furnished.

Your obedient servant,

(A.F. MacKenzie)
Acting Asst. Deputy and Secretary.

FIRE HALL STORY:

.....This building is in good shape. The only complaint that the teachers had to make was that in the heating. There are openings in the hot air pipes leading from the furnace, and part of the heat goes to the two classrooms, and in cold weather the rooms get so cold that they cannot live there. Ottawa, January 25, 1926.

Sir:-

Mr. Inspector Christianson in a report on his inspection of the Fisher River Indian Day School states as follows:

> "This building is in good shape. The only complaint that the teacher had to make was about the heating. There are no dampers in the hot air pipes leading from the furnace, and most of the heat seems to go to the two classrooms, and in cold weather the upstairs gets so cold that they cannot live there. The only way this could be remedied would be to place dampers in the two large pipes leading to the classrooms. After school is over in the daytime, these could be closed off and the heat diverted to the upstairs. It would be a simple matter to do this, as there is a man at Dallas, about eight miles from the reserve, who is a tinsmith and would put these dampers in at a very small cost. He was not at home when I was there and I, therefore, could not get a price, but I cannot see that it would cost very much. When this building was painted two years ago the front and back doors were not varnished. The teacher said that if he were supplied with the varnish he would do the work. It would take about one quart of varnish and a small brush."

I have to request that you will arrange, as soon as possible, to have the dampers installed in the two large pipes leading to the classroom. It is noted that the Inspector states that it would be a simple matter to have this done and that the cost would be small. You may also purchase and forward to the teacher one quart of varnish and a small brush in order that he can varnish the front and back doors. After the dampers have been installed and the varnish supplied you should furnish properly certified vouchers, in duplicate, covering the expenditure incurred. Please give these matters your early attention.

ACCOUNT AND DATE (IF ANY) TO BE QUOTED

COMMISSIONER'S OFFICE,
REGINA, SASK., Feb. 22nd, 1926

Sir:-

I beg to inform you that the Acting Indian Agent at Fisher River informs me that Mr. Tong, teacher of the Day School on the Fisher River Reserve, has asked that the Department pay for having twelve loads of gravel hauled in order to make a walk approaching and surrounding the school, at a cost of $3.00 per load. He points out that this walk is a semi-quagmire in the spring of the year.

The Acting Agent states that if this gravel is supplied this year he will take up the matter of having an additional supply of gravel hauled gratis by members of the Fisher River Band at the same time and a fresh gratis supply each winter.

Sir:

I have your No. 203-11A of the 22nd instant, relative to the request made to the Acting Indian Agent at Fisher River by the teacher of the day school on the Fisher River Reserve that a quantity of gravel be hauled in order to make a walk approaching and surrounding the school.

In reply I beg to say that the Department will approve of the expenditure required in the supplying of 12 loads of gravel, viz., $3.00 per load. This gravel should be hauled and spread on the walk and surroundings of the school when weather conditions permit.

We note that the question of the supplying of any additional gravel required will be taken up with the members of the Band with a view to having them supply same gratis.

Sir,

Re Requisition,
Fisher River Day School.

I attach hereto Requisition for Material for the above-named school, and considering all items essential, I beg to recommend that the requisition be allowed "in toto".

If approved, I would recommend that authority to purchase be forwarded to Inspector Bunn in Winnipeg, who could procure the articles much cheaper in the city than I could from local merchants.

Your obedient servant,

K Templeman

EXTRACT FROM A REPORT OF INSPECTOR CHRISTIANSON dated October 27th, 1926. Original on File 136-1-6.

Fisher River Day School.

"At the present time the requirements are a bookcase for the senior room and a desk or table for the junior room. Mr. Tong has no bookcase in his classroom and is using a box at the present time. Mrs. Tong is using an old table made out of packing boxes for a desk, and would like to have a desk or table with drawers in. Mr. Tong brought to my attention the matter of supplying a midday meal for the children. Although I have been at the school before, this was the first time Mr. Tong has mentioned the matter to me. He claims, however, to have taken it up several times with the Agent, who evidently never brought it to your attention, as I can find no trace of Mr. McCuish ever having mentioned the supplying of a midday meal. At the present time the children get a cup of cocoa and biscuits. The teacher points out that while some of them bring fair lunches with them, there are others who bring practically nothing, and as he puts it, probably had very little breakfast, and subsisting on a cup of cocoa and a couple of dry biscuits all day does not give them enough nourishment. Arrangements could be made to turn one of the rooms in the basement into a diningroom. The only thing that would have to be done to it would be to paint the basement floor with cement paint to keep down the dust. Cheap tables and benches could be made on the ground, and a cook stove would have to be supplied. It could be worked out on practically the same basis as at Fairford. It would cost about $10.00 a month for additional help. As Mr. and Mrs. Tong both teach they would have to get a woman to come in during the noon hour. There are several women around there who are capable of doing this work and, of course, the bigger girls could help; the services of a woman would only be required for about two hours each day. No doubt if this meal were supplied it would be a great benefit to the children, as the Doctor also pointed out that he knew some of the children were not getting sufficient nourishment."

Under cover of a letter dated October 28th, forwarding the above report, Mr. Commissioner Graham states:-

"In connection with the Fisher River Day School, I think the bookcase and desk asked for should be furnished for the classrooms. The suggestions with regard to fixing up a room in the basement for use as a diningroom might be followed; it would cost very little. I would also recommend that $10.00 a month be allowed as wages for an Indian woman to come in and look after the preparation of the midday meal."

Ottawa, November 12th, 1926.

Sir:

Mr. Inspector Christianson and Mr. Commissioner Graham recommend the supplying of a midday meal for the children of the Fisher River Indian Day School, and the fitting up of one of the rooms in the basement as a dining room for the purpose of serving this meal.

You may, therefore, arrange to have the basement floor painted with cement paint, in order to keep down the dust. You may also purchase and supply the material required to make inexpensive tables and benches. It is thought that this work could be carried out by the older boys under the supervision of the teacher. You may also purchase a cook stove to be used for preparing the meal.

The Department will be unable, owing to lack of funds, to pay for any additional help in the preparation and serving of the meal. It is considered that Mrs. Tong, with the help of the older girls, who should take turns in assisting, should be able to prepare and serve this meal. It is not intended that any large expense be incurred in the supplies for the meal, as it is expected the children will take their lunch with them from home. It is thought that if they were served with a plate of soup, or hot cocoa and biscuits, it would be sufficient.

When the work of fitting up the room is completed, you should furnish properly certified vouchers, in duplicate, covering the expenditure, which it is hoped you will be able to keep down to the lowest possible point.

You may also arrange for the purchase of the cocoa and biscuits, also for a small quantity of rice and barley for soup, for the midday meal.

The Inspector has recommended that a bookcase and teacher's desk and chair be supplied for the use of the classrooms. You may place an order with the Western Seating Company, 179 Bannatyne Ave. E., Winnipeg, for the supplying of the following equipment:

1 Teacher's Sanitary Desk, No. 121,
1 " Chair, No. 1562,
1 Schoolroom Bookcase, No. 2.

When placing the order with this firm, you should give full shipping directions, obtain accounts in duplicate, and when the goods have been received, you should certify the accounts and send them to the Department for payment.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

INDIAN AGENT'S OFFICE

Fisher River Agency,

Hodgson, Manitoba, March 2, 1927.

IN YOUR REPLY REFER TO
No.
AND
TO DATE OF THIS LETTER

Sir,

Re Midday Meal -
Fisher River Day School.

With reference to your letter, file #136-2-5 of the 12th November, 1926, I beg to advise that all necessary work in connection with converting the basement at the Fisher River Day School into a dining room was completed at the end of January, 1927. There was no expense for labour in this connection, the work of painting and whitewashing, erection of tables, benches, cupboards, etc., being carried out by Mr. Tong, the teacher, and the elder boy pupils.

The total cost for lumber, paint, utensils, etc., has been $185.27 made up as follows.

Voucher No.	219	- Nails, hinges, etc.	3.95
	220	- Cook Stove.	46.31
	221	- Table Oilcloth & Dish Towelling.	13.20
	243	- Floor Paint, Kitchen & Table Utensils.	49.57
	244	- Stove Pipe Connections.	1.55
	25[illegible]	- Freighting Lumber.	5.95
	25[illegible]	- Lumber for tables, benches, cupboards, etc.	37.64
	26[illegible]	- Plates & spoons.	23.10
	267	- Sundry small items.	4.00
			$185.27

Beyond a few small items which may be required at a later date, there will be no further expenditure apart from foodstuffs.

The amount of $35.70 was expended for provisions and the serving of the midday meal was commenced on February 1st. From 40 to 68 meals have been served at noon each day and a very careful record of the cost of each days meals has been kept. The average cost has been around 4¢ per pupil per meal. The meals are all prepared by the older girl pupils under the direction and personal supervision of Mrs. Tong.

Mr. Tong reports a marked improvement in the appearance and the schoolroom work of a number of his pupils, which he attributes to the wholesome food they receive at midday.

Your obedient servant,

H. Templeman

INDIAN AGENT'S OFFICE
Fisher River Agency,

... Hodgson, Manitoba, ...

..... April 25..... 1927.

Sir,—

I beg to recommend that an amount not exceeding the sum of $300.00 be allowed for the purpose of carrying on the supplying of the noon meal to the pupils of the Fisher River Day School for the period April 1st 1927 to March 31st, 1928.

The amount of $300.00 is arrived at by keeping of careful record of cost of meals and list during the months of February and March 1927. We have kept a record of provisions used each month and number of meals supplied each day and advise that during the month of February the meals cost 3.00 cents per meal per pupil and during the month of March, 3.07 cents per meal per pupil, making the average for the two months 3.03 cents per meal per pupil. The number of meals supplied each day averages 60 and there being 200 school days in the year, the total cost would be approximately $300.00 for the year.

I am attaching hereto a list of my requirements giving the total amount of each commodity required for the year with the approximate cost. Meat and vegetables, with the exception of onions which do not grow successfully at Fisher River, would be purchased on the reserve. Having a market for their vegetables would be an incentive to the pupils to raise them at their own homes. The other items on the list would be purchased at competitive prices from the local stores on the Fisher River Reserve.

I am also attaching a list of utensils and other supplies required which should be sufficient for the year. We authority be granted to purchase these?

The noon meal has brought about a considerable improvement in the pupils, in health and cleanliness, and in general interest in the school and I would recommend strongly that the meals be carried on under the arrangements of the past two months. They have the additional effect in that they enable us to give the older girls a well needed lesson in cookery. The meals are prepared by two of the older girl pupils under the supervision of the wife. They at each girl take her turn at the work of cooking the meals and washing up.

Your obedient servant,

W. Hodgson,
Indian Agent.

7-D.

Ottawa, April 30th, 1927.

Sir:

I have your letter of the 25th instant, in which you recommend that an amount not exceeding the sum of $400 be allowed for the purchase of supplies required for the noon-day meal to the pupils of the Fisher River Indian Day School for the present fiscal year ending March 31st, 1928, and enclosing a list of the quantities of the various supplies required and the utensils to be used in preparing and serving [redacted].

In reply I beg to say that you may incur, during the present fiscal year, an expenditure not exceeding the above amount in the purchase of the supplies for the midday meal. You should arrange to obtain and forward to the school the quantities required from time to time during the year. Accounts should be forwarded by you at the end of each quarter covering the cost of the various items purchased during that period. You may also purchase the utensils and sundries mentioned in the list. As far as possible, competitive prices should be obtained from local stores in the purchase of supplies other than those obtained from the Indians.

We note that the supplying of the midday meal to the pupils at this school has brought about an improvement in the health of the pupils and in their attention to school work and general interest in the school.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

COMMISSIONER'S OFFICE,
REGINA, SASK., March 13th, 1931.

Inspector Christianson's report on Schools in the Fisher River Agency.

Dear Mr. Graham:-

I have the honour to report that on my last trip to the Fisher River Agency, I inspected all the schools in that Agency.

FISHER RIVER IMPROVED DAY SCHOOL.

There are two classrooms in this school; the junior room is taught by Mrs. W. G. Tong, and the senior classroom by Mr. Tong. At the time of my visit there were 60 pupils in attendance, out of an enrolment of 67. The grades range as follows:-

Grade	I	- 19
"	II	- 18
"	III	- 10
"	IV	- 10
"	V	- 5
"	VI	- 3
"	VIII	- 2

The average attendance for the year is about 57.

I spent considerable time in the classrooms, and must say that I was well impressed with the work that is carried on. The children looked well, and they were clean and tidy. Their reading was good, and, in fact, all the work carried on in the classroom is much above the average found in Indian day schools. In my opinion, Mr. Tong is one of the best teachers we have in the service. Mrs. Tong is probably not as well qualified to teach as her husband, but she has greatly improved during the last few years.

A mid-day meal is served at the school,

W. M. Graham, Esq.,
Indian Commissioner,
Regina, Sask.

and I was

and I was present during the time the children were having it. This is certainly a great blessing as the parents of some of these children are very hard up at times, and it is gratifying to know that the children receive at least one good meal a day.

I might say that Mr. & Mrs. Tong are very much interested in their work and the welfare of the children. They not only take an interest in them while they are in school, but continue their interest after they leave the school. I consider that they are doing all they possibly can to make good citizens of them.

There are certain matters in connection with this school, regarding recruiting for Brandon School, etc., which you instructed me to look into, and which I am dealing with in a separate letter.

The school is in a good state of repair; the exterior was painted last summer, fences, etc. repaired, and the building itself is in A1 shape. The grounds are also well cared for, trees having been planted etc.

Ottawa, May 25th, 1932.

Sir,-

I beg to acknowledge the receipt of a voucher which you forwarded, dated the 11th instant, in favour of W. G. Tong, teacher of the Fisher River Indian Day School, to reimburse him for payments made in taking off storm windows, cleaning windows and fitting screens.

In this connection, I would point out that salary for janitor's services is allowed at this school at the rate of $5.00 per month and, also, payment for sweeper at $5.00 per month. It is considered that the work of taking off and putting on of storm windows, also the cleaning of the windows of the school, should be part of the janitor's regular duties. The costs of conducting this school are rather high each year and, as our funds this year are extremely limited, it will be necessary to curtail all expenditure to the lowest possible point.

The above remarks regarding the services the janitor should perform will apply to all the day schools in your agency where accounts are forwarded for payment of work which it is thought the janitors should perform in the course of their regular duties.

The voucher which you submitted will be paid in this instance.

Your obedient servant,

A. F. Macdonald.

Sir,-

When the Department received your voucher covering the services of Mrs. F. Kirkness as cook at the Fisher River Indian Day School for the month of April, it was overlooked that a 10% deduction should have been made.

The Department is now in receipt of your Voucher 69, covering the services of Mrs. Kirkness for the month of May, and the 10% deduction for the months of April and May is now being made. The deduction amounts to $2.40 for these two months and a cheque for the balance, viz., $9.60, will go forward under separate cover.

Fisher River Agency,
Hodgson, Man., Aug. 19th/32.

Dear Sir:

Re your letter 136-6-4 of July 6/32, I quite agree with you that under present conditions the supplies for mid-day meal purpose should be cut down and your suggestion that rice, sugar, pease, cocoa and dri milk be supplied. The teachers can be instructed that only these foods will be supplied to supplement whatever the children may bring from home.

Reference to other schools in this agency. There is Fisher River day school where there has been a regular mid-day meal served so that the children need not bring anything from home. Do you wish this meal carried on as it has been done.

Kindly advise me what you want done it this regard.

EXD.

Ottawa, August 30th, 1932.

Sir,-

The Department is in receipt of your letter of the 19th instant, in connection with midday meals served at the schools in the Fisher River Agency.

With special reference to the Fisher River Indian Day School, it is found that the amount expended for midday meal purposes during the fiscal year 1931-32 amounted to, approximately, $50.00 a teaching month. Owing to lack of funds, the Department finds it necessary to economize wherever possible and it has been decided that the cost of the midday meal at this school should not exceed, approximately, $25.00 a teaching month. You should confer with the teacher at once and make the necessary arrangements for reducing the expenditure for midday meal purposes.

Your obedient servant,

A. F. Mackenzie.

Sir,-

The Department is in receipt of your voucher 207 of the 6th instant, for $12.00, in favour of Mrs. F. Kirkness, for services as cook at the Fisher River Indian Day School for the month of September.

With regard to the serving of the midday meal at this school, I would refer you to official letter of August 30th, last. In view of the fact that the Department requires the midday meal supplies considerably curtailed, it is considered that it should be possible to dispense with the services of the cook. The teachers and older girls should be able to prepare whatever is served at noon. You should, therefore, dispense with Mrs. Kirkness' services from the 31st instant.

The account which you submitted is being paid.

Ottawa, February 17th, 1933.

Sir,-

The Department is in receipt of your Voucher No. 413, for $6.50, covering the cost of food supplies for the Fisher River Indian Day School. This account is being paid.

It is noted that you state that the expenditure was authorized under Vote No. 7. In this connection, I would appreciate your quoting official letter of August 30th, 1932, when submitting accounts for supplies for the midday meal during the balance of the academic year. I might add that the Department considers that the supplying of the midday meal should be discontinued after April 30th.

Before this school reopens on September 1st, you should write the Department, with a view to ascertaining what amount, if any, can be allowed for midday meal purposes during the academic year 1933-34.

Your obedient servant,

A. F. MacKenzie.

OFFICE OF THE INDIAN AGENT
SEP 16 1933

Fisher River Agency,
Hodgson, Man., Sept. 13th/33

Dear Sir,

Kindly refer to your letter 136-2-5 dated Feb 17/33. This school reopened on Sept 1st, but I instructed the Principal that there would be no grant for a mid-day meal until at least Oct.1st. Would you kindly notify this office what can be allowed for a mid-day meal for this school for the academic year 1933-34.

My opinion is that if rice, oatmeal, raisins, cocoa and milk were supplied, this should be all that is necessary. I estimate that the requirements for this purpose for the two room school could be purchased with a grant of $140.00.

Kindly notify me your desires in this respect.

Your obedient servant,

G. H. Lavender,
Indian Agent

Sir,-

I beg to acknowledge the receipt of your letter of the 15th instant, with reference to the midday meal at the Fisher River Indian Day School.

As you are aware, our appropriation this year has been considerably reduced and it is found that the Department can allow the sum of $80.00 only for the purchase of midday meal supplies. This meal should only be served between November 1st, 1933, and March 31st, 1934.

In addition to the amount authorized in this letter, I would point out that you have been forwarded 2,400 lbs. of biscuits for this school and it is considered that these biscuits, together with the amount authorized above, should give ample midday meal supplies for the period mentioned above.

Your obedient servant,

A. F. MacKenzie.

OFFICE OF THE INDIAN AGENT

Fisher River Agency,
Hodgson, Man., June 30/34.

Dear Sir:

On my recent visit to the Fisher River school and whilst inspecting the condition of the buildings I found a very serious condition in regard to the concrete walls of the basement ~~found-~~ation.

The whole of the east wall of the basement is bowed in by ground pressure from two to six inches. There is a crack from top to bottom at the north-east corner and the south-east corner and the ground pressure is gradually pushing the wall inward. the south wall at the east corner, for about thirty feet has dropped several inches and it also is being pressed inwardly by ground pressure.

The situation as I see it is serious, for in the matter of another year or possibly two, considerable damage is liable to be done to the whole of the structure. /From my examination I would lay the fault to lack of reinforcement of the concrete and a poor mixture of concrete at the extreme footings of the walls.

There are several ways that the condition might be remedied without the expense of entirely new concrete walls, but whatever way you consider this repair it is going to be an expensive proposition. I will bring the condition of these walls to Inspector Hamilton's notice on his next visit to this agency.

I would also bring to your notice that the interior decoration of the classrooms in this school needs attention and the walls should be painted. If any appropriations have been set aside for the upkeep of school buildings I would ask that the matter of decoration be given attention during the vacation period, July to September.

Your obedient servant,

G. H. Lavender,

Ottawa, July 9, 1934.

Sir:

I beg to acknowledge receipt of your letter of the 30th ultimo, with regard to the condition of the concrete walls in the basement of the Fisher River Indian Day School. Please bring this matter to the attention of Inspector Hamilton when he next visits the Reserve, and forward a full report to the Department, stating the approximate cost of having the foundation repaired and placed in good condition. You should keep in mind that our funds are limited.

With reference to the interior painting of the classrooms, you should let me know the approximate cost of this improvement.

Regarding your second letter of the 30th ultimo, I beg to say that an order has already been placed for biscuits, but it is not the Department's intention to ship these until about the first of September. During past years the Department has received frequent reports regarding deterioration of biscuits owing to hot weather, and it is considered that if the biscuits were not forwarded until later in the year, this loss would be avoided.

T. R. L. MacInnes,

Sir:-

I have received a copy of a letter dated June 30th, 1934, from Mr. G. H. Lavender, Indian Agent, Hodgson, which letter is addressed to The Secretary and deals with the Fisher River Day School.

I note Mr. Lavender's remarks in connection with the basement wall and am of the opinion that it might be well to leave this until such times as I can visit the Agency, which will be late in the summer or early in the fall. I have no doubt the wall is in need of repair, but it is possibly not greatly changed from what it was a year or two ago.

In connection with the interior decoration, this work is needed and should be done during the summer holidays. If permission is granted, I would suggest that the authority be given through this office.

Your obedient servant,

A. G. Hamilton

Sir:

I beg to acknowledge receipt of your 203-11A of the 5th instant, with reference to Mr. Agent Lavender's letter of the 30th ultimo regarding the Fisher River Indian Day School.

In replying to the Agent's letter on the 9th instant, the Department informed him that, on the occasion of your next visit to the Reserve, he should bring to your attention the condition of the concrete walls in the basement of the Fisher River Indian Day School.

There are so many demands on our Appropriation that it is doubtful if funds can be provided for the interior painting of this school. However, the Agent was requested to supply an estimate of the cost, and on receipt of this information, the matter will receive further consideration.

EXTRACT FROM REPORT OF MR. A. G. HAMILTON, INSPECTOR OF INDIAN AGENCIES, ON HIS INSPECTION OF THE FISHER RIVER INDIAN DAY SCHOOL IN OCTOBER, 1934.

Original on No. 136-2-6.

The east basement wall has a bad crack reaching from one end to the other, about half way between the floor and the joists. The wall also has a bulge inward, probably 2 x 3". I do not consider this very serious and it might be remedied by placing an 8 x 8 timber under the floor joist and supporting same with heavy posts, thus somewhat relieving the pressure from the wall. The chimney of the school has a small crack from the basement to the roof. There may not be any danger from this and yet I understand the chimney is only one brick thick. It would perhaps be advisable to have bands of heavy strap iron clamped about the chimney, thus preventing any further spread. The crack could then be filled with mortar.

x x x

New swings have been erected. The work has been well done, but new rope should be provided as that now in use is badly worn out. I would recommend that rope be purchased at once in order that an accident might be avoided.

Sir:

In a report regarding his recent inspection of the Fisher River Indian Day School, Inspector Hamilton writes as follows:

"The east basement wall has a bad crack reaching from one end to the other, about half way between the floor and the joists. The wall also has a bulge inward, probably 2 x 3". I do not consider this very serious, and it might be remedied by placing an 8 x 8 timber under the floor joist and supporting same with heavy posts, thus somewhat relieving the pressure from the wall. It would perhaps be advisable to have bands of heavy strap iron clamped about the chimney, thus preventing any further spread. The crack could then be filled with mortar."

Please let me know the approximate cost of making the above repairs.

DEC 30 1935

Fisher River Agency
Hodgson. Man.
December. 23. 1935.

Dear Sir;-

With reference your letter 136-2-5 and attached letter from the Chief and Councillors Fisher River Band this Agency.

Regarding the question of providing another School or a van for transportation of the children mentioned, On investgating the case I find that there are 11 children of school age whom lives from 2½ to 4 miles from the present improved school on the Fisher River Reserve, no doubt it would be less expense to supply a van than to send these children away to a Residential School it would entail an amount of $2.00 per teaching day for a van. but if this was done we may then have a complaint from others at North end of the reserve as there are some who live about 2½ miles from the present school. I should think that the parents who reside so far distant from the school should resume some responsibility between themselves in getting their children to the school . The present situation does not warrant a new school as there is ample room in the present one.

Re the matter mentioned about the Rev. F. G. Stevens , as near as I can understand they wish him to leave Mr Tong alone and not interfere with him [illegible], as they are quite satisfied with his teaching . they also wish that he would not reccommend any more pupils to be admitted to the Brandon Residential School , they think they can get just as good an education in the Day School on the Reserve.

I enclose herewith letter from the Chief and Councillors as requested.

Trust the above information satisfactory,

I have the honour to be,Sir.
Your obedient servant,

W. J. Clarke.

EXTRACT FROM REPORT OF MR. A. G. HAMILTON, INSPECTOR OF INDIAN AGENCIES, DATED JANUARY 7, 1936, ON HIS INSPECTION OF THE FISHER RIVER INDIAN DAY SCHOOL.

Original on No. 136-2-6.

The attendance is good, considering the fact the some children come a distance of from 2 to 4 miles. There is an agitation on the south end for a van, but if this is granted, I expect the north people will also demand one. I realize two or three families reside from 3 to 4½ miles away, but I consider they should provide their own means of transportation or send the children to boarding school.

FISHER RIVER IMPROVED DAY SCHOOL.

Der Sir:

The Senior Room, which was inspected on September 28th, remains in charge of Mr. W.G. Tong.

x x x

The material for interior decoration had just arrived. The work is being done by the Indians under the supervision of Mr. Tong. The painting will greatly improve the light and general appearance of the two classrooms.

Mr. Tong complains that the roof still leaks around the Cupola. I would recommend that two or three gallons of tar be supplied and that the same be carefully applied to all cracks and joints.

The exterior of the building is badly in need of paint, as is also Mr. Tong's living quarters. If possible, this work should be carried out during the coming year.

Yours truly,

A. G. Hamilton.

Ottawa, October 23, 1936.

Dear Sir:

In a recent report on his inspection of the Fisher River Indian Day School, Inspector Hamilton states that the roof around the cupola leaks. He recommends that two or three gallons of tar be supplied and that the same be carefully applied to all cracks and joints.

Please arrange to have this done at the earliest possible date.

Yours truly,

A. F. MacKenzie,
Secretary.

Dear Sir:

Re: Fisher River Indian Reserve Day School.

As per your instructions of the 28th of October I have examined the foundation of the above named school, and wish to make the following report in this connection.

The building in question is a frame structure, approximately 72' x 36' in size, with a full concrete foundation. This foundation is built partially on a clay and rock strata.

The part of the building reported to be on the rock strata is in excellent shape, while that part on the clay is in very poor condition and should be reconstructed in the near future.

It is interesting to note that this foundation has been reconstructed in its entirety since the original foundation was installed in 1919. I am, however, given to understand that while the whole of the foundation was rebuilt the condition at that time was similar to the condition that exists today.

In investigating this work I examined the ground below the fractured walls to a depth of approximately four feet, and the material encountered was a heavy clay, in a saturated state, immediately below the floor or wall level and gradually decreasing in moisture content until at a depth of approximately 3.5 feet it was quite dry and hard. Two test holes were put down with a post hole auger, one in the entrance to the basement to the South of the building and one in, or rather under, the basement floor in approximately the center of the floor where the failure of the walls has taken place. In the hole in the entrance we did not encounter rock, but in that it is in fairly close proximity to the well, and as the rock strata in the well is encountered at a depth of twelve feet, it is, I believe, reasonable to assume that we would encounter rock at about the same depth. I mean, of course, twelve feet from the ground surface, or approximately four feet from the present basement floor level. Rock was encountered at a depth of four feet two inches in the hole below the basement floor, and the material above the rock was almost identical to that referred to above, very plastic clay at the surface, saturated to such an extent that when the auger was being used a slight trickle of water was perceptible in the hole. Immediately above the rock strata the clay was almost dry.

In considering the failure of these walls, it would appear that the near collapse is a result of the plastic nature of the clay upon which the foundation is constructed. This clay has apparently been forced out by the pressure of the walls, with the result that the walls have settled. The settlement not being uniform has caused the wall to tip, and this action has apparently been supplemented by considerable lateral pressure on the East wall, as this wall is not only badly fractured but is also bulging considerably into the basement. Some disintegration of the concrete is noticeable, but in that the whole of the basement wall was constructed of the same materials and some parts are in excellent shape, it would seem that the disintegration is a result of excessive moisture and perhaps a very weak mix rather than faulty materials. However, before any repair work is carried out the materials to be used can be carefully tested. I am told that the field tile for the reconstruction job, carried out some years ago, was received too late to be installed. I am also advised that the condition of the trench was exceedingly wet when the concrete was poured.

Having carefully considered the above mentioned details, I would suggest that the walls be reconstructed and I would recommend that the new walls be carried down to the rock strata, also that adequate drainage be provided for the ground immediately around that part of the building affected.

The following is an estimate of the cost of the work proposed:-

Size of wall approximately 100' x 1' x 12'

I.A.1456-10

December 6, 1938.

MEMORANDUM:

Mr. Wardle.

Re: Fisher River Indian Day School.

As requested in your memorandum of October 26th last arrangements were made with Mr. Atkinson to make an inspection of the above school and submit a report of repairs required. A copy of a report received from Mr. Atkinson is attached.

Encl.

From this report it would appear that Mr. Atkinson had made a fairly thorough examination of foundation conditions of this school. From such examination Mr. Atkinson's deduction is that the near collapse of the wall is a result of the plastic nature of the clay upon which the foundation is constructed. A further deduction which could apparently be made is that possibly a sufficiently thorough examination of the foundation upon which the walls were constructed was not made at the time of erection. It will be noted that Mr. Atkinson's recommendation is that in re-building these walls, they should be carried down to the rock strata and also that adequate drainage be provided for the ground around that part of the building affected.

In view of Mr. Atkinson's report on the present condition of the walls, it would appear that the only thing to do is to replace them and the recommendation to this effect in the attached report is therefore concurred in. The estimate of cost of work is of course based on such recommendation, and as will be noted, totals slightly over $1,200.00.

Respectfully submitted,

J.M. Wardle, Esq.,

Re: Fisher River Indian Day School

I am in receipt of your memorandum of December 14 reporting on the conditions of the walls of the above-mentioned school and it is noted that the cost of the repairs will be $1,226.90.

We have no funds available for this work at the present time and besides I presume that the present season of the year would not be suitable for doing the work. I will, therefore, bring the matter to your attention early in the spring in order that the building may be repaired during the fine weather.

Many thanks for your letter of March 7th and we find that the information given to us was somewhat inaccurate. We agree with you that there is no Residential School at Fisher River. We find, however, that there is an agency there which was affected by fire.

We should be pleased to know whether we can be of any assistance to you.

Re: Fisher River Indian Day School

I am in receipt of your memorandum of April 20 in connection with repairing the walls of the above-mentioned school.

We hope to be able to obtain the necessary funds for the repairs to this building from the special supplementary appropriation. However, the amount required is not available at the present time; besides, I believe it would be inadvisable to do this work before the school closes for summer holidays. This would mean that the repairing of the walls could be done during July and August.

Dear Sir:

On August 27th of last year we addressed you in connection with matters of importance to us because we are Indians, bound and restricted under the terms of a treaty made with the Dominion Government of Canada.

We, therefore, respectfully beg to again present for your kind consideration matters that we feel sure, if given attention, will be found reasonable.

SCHOOLS

We again beg to request that a school be established at the west side of our reserve and that the materials for the building be hauled before the break up of winter. The west part of our reserve is the most suitable for farming and the future will take more and more of our people to take up residence there.

EXD

Dear Sir:

It has recently been brought to my attention that a letter has been received signed by Chief Murdoch and Councillors Joe Cochrane, E. Bowers and Joe Malett, of the Fisher River Band, in which they make the following statements:

"We again beg to request that a school be established at the west side of our reserve and that the materials for the building be hauled before the break up of winter. The west part of our reserve is the most suitable for farming and the future will take more and more of our people to take up residence there.

"Also as yet there is no yarn distributed to the children attending the Fisher River school. The teacher has advised us that he has not yet received this year's supply of yarn."

I should appreciate having your comments on the above and I may say that it was our understanding that when arrangements were made to drive the children to the Fisher River school you considered it unnecessary to erect a new school on the west side of the reserve. As a result no provision has been made in our current year's appropriation for the erection of a new school on the Fisher River reserve.

I cannot find any record of our having refused to allow yarn for use at the Fisher River school.

Yours truly,

F.J. Clarke, Esq.,

Dear Sir:

I have your letter 136-2-5 of May 4th re a letter written to the Department by the Chief and Councillors of the Fisher River Band.

With reference to their request for a new school on the west end of their reserve. I would not be prepared to recommend this school. The van provided for the transportation of the children from this area is in my opinion sufficient for the present time. The majority of the men on this reserve are fishermen and will not be moving away from the present school to the farming area in the west end of the reserve.

The delivery of the yarn to the schools was late last season as we did not receive same from the company until Feb 15th.

A report received from the Public School Inspector indicates that the teacher of the Fisher River Indian day school is prepared to teach sewing and knitting to the girls. You may expend an amount not exceeding $15.00 in purchasing materials required for this purpose.

The suggestion has been made that the senior teacher of this school could teach wood work, soldering etc. I regret that owing to present conditions the Department has no funds available that could be expended for this purpose.

Memorandum:

Dr. McGill

Re: Fisher River Indian Day School.

We have now received a report from Mr. Sow giving details of the work done at the above school which is covered under the following items,-

1. New concrete footing at N.E. and S.E. corners of the school where the old footing needed replacing.

2. Complete new foundation wall east end of school, 24 feet of the north wall extending from N.E. corner and 60 feet of the south wall extending from the S.E. corner. This concrete wall 12" thick, was reinforced by 3 1/2" rods placed at the bottom of the wall and in addition the corners were reinforced from top to bottom at intervals.

3. A 4" tile drain was placed on the footing around the entire wall of the school and this tile drain connected by tile to the river - a distance of 160 feet.

The tile drain from school to river has a minimum cover of 6' of soil and at the river the remains of the broken concrete from old wall have been placed and this covered with brush and soil to prevent freezing up of the outlet.

4. The grade entrance to the school on the south wall was entirely rebuilt with new concrete wall and floor.

5. Concrete floor was repaired in the east end of basement and adjacent to the new wall.

6. The overflow from the soft water tanks was connected by tile under the concrete floor to the old drain in the boiler room - this is connected by an existing pipeline to the river.

7. The grade around school was levelled off with a slope away from the building and the same topped with gravel, making a clean walk around the school.

Dear Sir:

In a report dated the 16th instant the Surveys & Engineering Branch report that the following work has been completed at the Fisher River Indian day school:

1. New concrete footing at N.E. and S.E. corners of the school where the old footing needed replacing.

2. Complete new foundation wall east end of school, 24 feet of the north wall extending from N.E. corner and 30 feet of the south wall extending from the S.E. corner. This concrete wall 12" thick, was reinforced by 3/8" rods placed at the bottom of the wall and in addition the corners were reinforced from top to bottom at intervals.

3. A 4" tile drain was placed on the footing around the entire wall of the school and this tile drain connected by tile to the river -- a distance of 160 feet.

To the Secretary,
Department of Indian Affairs,
Ottawa, Canada.

Sir,-

On behalf of the Fisher River Band of Indians in the Province of Manitoba, we again, respectfully beg to request that a school be erected and maintained at the west of our reserve. While we appreciate having been granted conveyance for our children to the present school building, weather conditions are sometimes a serious drawback and also the fact that side roads are as yet only trails, making in bad weather, difficult travelling.

There are in the western portion of our Reserve sufficient children of school age. This fact, we believe warrants our request for your kind consideration of our plea for a school building in the vicinity of the homes of the children now being conveyed for a considerable distance.

Signed.

Ottawa,
September 19, 1940.

Dear Sir:

I have your letter of the 12th instant regarding transportation of children to the Fisher River School. As you are aware it is necessary to avoid all expenditures that are not vital and necessary.

Please let me know the number of children that are transported to the Fisher River School each day, also the distance they are transported. A rough sketch of the Reserve, showing the location of the children transported and also the location of the Fisher River School, would be appreciated. When this information is received further consideration will be given to the question of transporting them.

Yours truly,

Dear Sir:

With reference to the van Route to the Fisher River School, I am enclosing a sketch showing the location of the school and the homes of the children using the van.

There are 4 children at J.A.Murdoch's,3 at Walter Murdoch's, 1 at J. McKay's, 1 at Chas Sinclair's, 3 at Alex Hudson's, 3 at J. Keeper's, 3 at W.D. Murdoch's, 3 at Geo Sinclair's. It is difficult to state the exact mileage because the road is not straight, but each lot being 5 chains wide, Geo Sinclair's, the home nearest to the school, would be approximately four miles.

There is a school outside the reserve to the south at which the children in the west end of the reserve might attend. If the Dept would consider this I can make enquiries re their attending the provincial school.

Your obedient servant,

F. J. Clarke,

Dear Sir:

I have your letter of the 9th instant with reference to the transportation of children to the Fisher River School.

Please make inquiries with a view to ascertaining what would be the yearly charge per pupil to have some of the Indian children at the west end of the reserve attend the neighbouring white school.

At the same time you should let me know if it still would be necessary to employ two teachers at the Fisher River School if this arrangement were completed.

Ottawa,
November 19, 1941.

Dear Sir:

With reference to your letter of October 29, in connection with the transportation of children to the Peguis South and Fisher River Schools, the following allowances will be made:

1. Peguis South School -- January 1 to April 30, 1942, $3.50 a teaching day:

2. Fisher River School -- January 1 to April 30, 1942, $3.00 a teaching day.

It is hoped that the driver of the van will make every possible effort to secure all the children who should attend school. You should also point out to the Indians concerned that the Department expects their co-operation in arranging to have their children ready when the van calls. In forwarding the voucher at the end of each month you should show on it the average number of children transported daily.

Yours truly,

Mr. F.J. Clarke,

Dear Sir:

The Department is in receipt of a letter from Moses McKay urging that provision be made for the transportation of children to the Fisher River School. He also states that the services of the man who was hired to do this work last year were unsatisfactory.

I should appreciate your advising me if you consider it necessary to transport the children this year.

Extract for 136-2-5

Original on 136-2-1

Extract from Inspector Hamilton's report on his inspection of the Fisher River Day School during the week of November 17, 1941.

I would recommend that four 1-quart pyrene fire extinguishers be supplied, one for the basement where there are two furnaces, one for the kitchen, one for the front hall and one for the upstairs.

One soft water tank is likely to become useless at any time. There are two tanks joined together so that the water remains at the same level in each. One tank already has about 40 holes. The teachers plugged these with sharp pointed slivers of wood. However, new holes are constantly appearing. The tanks are badly rusted and very thin. The tanks cannot be made in Winnipeg and shipped, because they will not pass through the basement door. It will therefore be necessary to ship the material and later have a man go up and put them together. If possible, this work should be done before the early spring rains.

Ottawa,

Dear Sir:

In reporting on his recent inspection of the Fisher River Day School Inspector Hamilton writes as follows:

"One soft water tank is likely to become useless at any time. There are two tanks joined together so that the water remains at the same level in each. One tank already has about 40 holes. The teachers plugged these with sharp pointed slivers of wood. However, new holes are constantly appearing. The tanks are badly rusted and very thin. The tanks cannot be made in Winnipeg and shipped, because they will not pass through the basement door. It will therefore be necessary to ship the material and later have a man go up and put them together. If possible, this work should be done before the early spring rains."

We have revieved our file but do not appear to have received any previous report regarding the above matter from you. If two tanks are necessary you might let me have full particulars regarding what is required and an endeavour will be made to secure it before the end of March. Owing to present conditions it may be difficult to secure the material that is required for this tank.

Dear Sir:

I have your letter 136-2-5 of Dec 9/41 re complaint of Moses McKay about the Fisher River School Van.

I have had no fault to find with J.A. Murdoch when running the van and might add that as he being at the end of the van route is better situated than any of the others,

It should not be necessary to operate the van before the end of the present year.

Dear Sir:

I have your letter 136-2-5 of Dec 16/42 re the tanks at the Fisher River School.

On inspecting these tanks and discussing the matter with the teachers, it was decided that one tank would be sufficient at this school. I would recommend that these two tanks be replaced with one new tank of a capacity of approximately 1100 gals. As an estimate of the cost, I would state that the Canadian Rogers Sheet Metal Co., Winnipeg, in Feb 1939 installed two similar tanks in the Doctor's residence at a total cost of $85.00.

Dear Sir:

I have your letter of the 21st instant with reference to the water tank for the Fisher River Indian Day School. It is noted that you recommend one tank similar to those supplied to the Doctor's residence by the Canadian Rogers Sheet Metal Co., Winnipeg. As you state, the total cost of two tanks supplied in 1939 to the Doctor's residence was $85.00 and presumably one tank would now cost approximately half of that amount. Owing to present conditions I am not certain if you can secure a similar tank just now. However, you may communicate with the Company and if you can secure the tank you may arrange for its purchase and delivery.

Yours truly,

R.A. Hoey,

Dear Sir:

With reference to the enclosed Voucher No302 I would state that during the vacation period considerable plaster fell off the ceiling of the living quarters at the Fisher River School. This was discovered just before the end of the vacation period so material for the necessary repairs was ordered at once to get the work done before the school opened.

Mr. F.J. Clarke, Indian Agent, Hodgson, Man.

In a recent letter from Inspector Hamilton he states that he inspected the Fisher River Day School on June 15 and he recommends that the fence surrounding the school yard be repaired. He estimates the cost of the posts and labour at $30.00. You may arrange to have this work carried out at the amount stated.

In replying to your letter of May 17th file 136-2-5 we estimate it will take 15 packages of Kalsomine at 75¢ each and $15.00 for Indian Labor, plus 3.75 for brushes, totaling $30.00 for the job complete.

In regard to the fence, this can be done for $5.00 securing Indian labor for this also.

INDIAN AFFAIRS BRANCH. DEPT MINES & RESOURCES. OTTAWA. CANADA.

In our 1944-45 ESTIMATES we included painting the Fisher River Day school, as per sheet 76691. The approximate cost for Paint $105.00 and labor $80.00

The school needs to be painted outside, and in the event it is approved by the Department, we are attaching a requisition for the paint. Indian labor can be secured to do the painting, and we would be pleased to have an accountable cheque for $80.00 so work could begin as soon as the paint arrived.

School - 2 room, and teacher's residence. Good building, but requires to be painted outside - and decorated. A number of small repairs are required to be made to the steps and windows. Mr. Clarke will have this work done and then submit vouchers. The roof of the building is leaking under tower, (decorative - no value), and would suggest dismantling the tower and finishing the roof with shingles.

Ottawa, June 1, 1945.

Mr. F. J. Clarke, Indian Agent,
Hodgson, Man.

With reference to requisition dated April 27, received from the teacher of the Fisher River Indian Day School, the Department approves purchase of the following articles:-

50	yds. cotton print,
2	doz. spools white thread,
2	pkgs. needles,
100	lbs. sweeping compound,
8	galvanized furnace pipes
2	" " pipe joints.

There is also a request on the requisition for the following:-

5	school	desks	2L
5	"	"	3L
10	"	"	4R small

At the same time the teacher states there are 76 school desks on hand. You did not make any comment on the request for additional desks. Are these needed to supply seating space for new pupils and is there accommodation in the classroom for them? At the present time desks are made in three sizes - large, medium and small. You should let me know the number of each size that is needed.

In reply to your letter June 1st file 136-2-5 in regard to School Desks for the Fisher River Day School, the teacher would like 5 Desks large, 5 Desks Medium and 10 Desks small. There is not really room for these Desks, except by over crowding. Possibly, about 5 large and 5 small desks would be enough.

There should be erected, if possible, a one room school at the West end of Fisher River Reserve, or near the West end, as there are some 17 children of school age in this vicinity. If this school were built, it would serve these children who are from 4 to 6 miles from the present Fisher River School. Some of the above children are attending, but very irregular, owing to distances and bad roads. The FAMILY ALLOWANCES ACT has played a big part in School attendance, and too, this Act calls for children to attend at six, whereas prior to this, they did not start till seven years of age. We have an Indian who is willing to give a part of his land for a school location, as there is really not room for these children at the Fisher River School.

If a new school room were erected at the West end, the above desks requisitioned for the Fisher River School would probably, not be needed.

Ottawa, June 20, 1945.

Mr. F. J. Clarke, Indian Agent,
Hodgson, Man.

With reference to your letter of the 13th instant, the Purchasing Agent is being requested to secure 5 large and 5 small desks for the Fisher River Indian Day School.

I am aware that the Family Allowance Act requires the attendance of children at school from the age of 6 years. However, in the case of Indian schools, we are governed by the Indian Act, and Section 10 (1) of this Act prescribes that the ages for compulsory attendance of Indian children at school are from 7 to 16 years, and it is our intention to continue following the Indian Act.

There are no funds available in the current year's appropriation for the erection of another school at the west end of the Fisher River Reserve.

We are pleased to acknowledge Mr Phelan's letter of September 28th file 136-2-5 in regard to painting the Fisher River School during the Christmas Holidays.

This is a big building and by putting on enough painters, we could have the work done before the School opens. However, it would be advisable to order 6 four inch brushes instead of the 4 specified at first, in case we are able to secure more than four men to paint the School. The two one inch brushes are o.k.

With reference to your letter file 136-2-5 dated 10th October, 1945, in regard to the painting of the Fisher River School, I beg to advise that work is progressing nicely and is about half completed. However, all the walls and ceilings had to be washed with soap and water before painting could be started, and consequently, we will not have enough money to complete, as we never estimated washing.

It will take approximatley, $25.00 to cover this, and we would be pleased if this amount could be forwarded to us at an early date to complete the job.

In replying to your letter of the 27th December 1945 file 136-2-5 in regard to Inspector Muller advising that the Fisher River School requires redecorating, we advise that this work is now about completed.

I might advise that, I sought approval to this work last September, to have the work done during the Christmas Holidays, and the Teachers knew that arrangements were being made. It would certainly be appreciated, if Mr Muller would advise this Office when he is on the Reservation inspecting Indian Schools, as we can assure him of every co'operation and we would like to know when he is visiting our schools.

Hodgson, Manitoba.
26th April 1946.

Indian Affairs Branch, Dep't of Mines & Resources, Ottawa.

I beg to refer to Sheet No. 76491 in the current year's Estimates, on which the sum of $12,000.00 has been provided for the construction of two new Day Schools and two teacher's residences, one each for the Fisher River Reserve and South Peguis.

Will you kindly advise me if these funds are being appropriated for use this summer? If so, I would recommend that construction be started in time for the schools to open after the summer vacation is over, in September next.

Indian Agent.

Ottawa, May 1, 1946.

Mr. P. G. Lazenby, Indian Agent,
Hodgson, Manitoba.

I have your letter of the 26th ultimo, with reference to the construction of new schools and teachers' residences on the Fisher River and South Peguis reserves.

It was our hope that we would be able to proceed with the erection of these buildings this summer, but owing to the policy adopted, regarding the encouragement of the erection of private homes, our public building program was curtailed. As a result, I regret very much that we will not be able to proceed with the erection of the school buildings at your agency this year.

If the present schools are overcrowded and if any building could be rented, we would be prepared to pay a reasonable rent and make an endeavour to secure an additional teacher.

Philip Phelan,
Chief, Training Division.

Hodgson, Manitoba.
10th May 1946.

Indian Affairs Branch, Dep't of Mines & Resources, Ottawa.

When I was recently at the Fisher River Indian Day School, I inspected the building, and found it much in need of small repairs and some general fixing up.

I have therefore prepared the attached requisition for various items, which I trust the Department will give favourable consideration to the purchasing of.

The amount for labour to cover all purposes, has been estimated at $250.00, although this amount is only tentative and cannot be considered as accurate.

I would suggest that if approved, these repairs etc; might be done during the coming summer holidays, and would be glad if the Department would advise me of what decision is reached in the matter as early as possible, so that the necessary arrangements can be made in good time.

AIR MAIL

Indian Affairs Branch, Dep't of Mines & Resources, Ottawa.

I beg to requisition for authority to employ two school vans during the coming winter, for the purpose of conveying children to and from the Fisher River School, and the Peguis South School, as was done last winter.

The cost will be the same as last winter, namely $3.50 per day for each van.

A reply by return mail will be appreciated, as the roads and the weather are beginning to get bad.

Mr. P.C. Lazenby, Indian Agent,
HODGSON, Manitoba.

With reference to your letter of the 30th ultimo, you may arrange to drive the children to the Peguis South and Fisher River Schools for the period Dec. 1, 1946 to March 31, 1947.

It is understood that it will require two vans to do the work and that the driver will provide teams and vans and heating for the vans.

Payment will be allowed at the same rate as last year namely, $3.50 a day for each van.

I beg to advise that at the Fisher River Indian Day School, the eavestroughing and soft water tanks (2), which are of galvanized iron, in the basement, are in bad shape, and leaking. They are old. In the kitchen there is a small hand pump at the sink, which is connected with the soft water tanks, but owing to the distance between the pump and the tanks, it is impossible for the pump to draw water. The kitchen sink is not connected with the sewer, but the pipe from the sink ends above the furnaces in the basement

To remedy these defects, it is suggested that a concrete cistern be constructed in the basement directly beneath the kitchen sink; that the eavestroughing be renewed and connected with the concrete cistern; and that the kitchen sink be connected with the sewer. To this end I have secured verbally, the following estimates of the cost:-

Construction of concrete cistern, with necessary re-inforcement. (Wylie & Compton)	$ 527.00
Plumbing. (Mr. Jones)	125.00
Eavestroughing. (Kildonan Sheet Metal)	150.00
Total:- Materials & Labour.	$ 802.00

Wylie & Compton are the firm who have been doing the building of the new Clerk's House, and other construction

work at this agency during the past summer, and who have not yet quite completed their work. Mr. Jones is the plumber who was employed by Wylie & Compton for the plumbing work on these buildings, and the Kildonan Sheet Metal is the firm who were employed by Wylie & Compton for the furnace work and other sheet metal work on the projects.

Mrs Jean Scott, the principal teacher at the Fisher River Day School, advises that the teachers are much handicapped with the above noted facilities being unavilable to them, and she took the matter up with Mr. Inspector Hamilton, who asked me to procure the estimates set out in the foregoing.

Will you kindly advise me if the Department will approve of the necessary expenditure to carry out these repairs, and appropriate the sum of $900.00 for the purpose, as there may be some unforseen extras in connection with the work.

Dear Sir

Recived your letter of March 3rd re galvanized tank at Krostatch school. A tank 6 ft by 6 ft by 6 ft high will cost approximately ($90.00) installed We have not seen the school, so we can not tell just what work or Material is required re tank overflow pipe

Regarding pipe to Mr Wyghs re laughing etc, this is only approximate as i may we have not seen the school

If favored with this work, it would have to be on a time & Material basis Plus any expenses, such as travelling time, boardroom, and lost time on account of weather.

As you know we can not get the men to leave town if they are going to loose any time, and we must pay time and one half for any overtime put in.

And also is our job that can not be done if there is any water around.

Hoping this meets with your approval, we await your orders.

Yours truly.

Please refer to Mr. B.F.Neary's telegram of the 24th November last, authorizing the installation of new eavestroughing, and a galvanized water tank at the Fisher River Day School, and particularly the final sentence thereof.

Immediately after receipt of the telegram, I wrote to Wylie & Compton, asking for a written tender confirming their verbal quotation for the construction of a concrete cistern at the above school, and have just received their reply, which concerns a number of other matters as well. The part of their letter referring to the concrete cistern reads as follows:-

"We regret the price made verbally to you with regards to a soft water cistern in the Fisher River School would not now be possible. The price made at that time was done so while the men, their lodgings and materials were on hand. Work of this nature is very expensive in this weather. If you still wish to have the cistern built this spring when the weather conditions are favourable, we would be only too pleased to tender at the prevailing prices."

With regard to the plumbing by Mr. Jones, I wrote him but have not received any reply to date. The Kildonan Sheet Metal have written me stating that they have so far been unable to procure suitable sheet metal for the construction of the water tank.

There are 10 old broken and discarded school desks in the basement of the Fisher River Indian Day School.

At Fisher Bay on Lake Winnipeg, a new Provincial school, of a temporary nature, is being opened for children of fishermen working on the lake, and these people wish to buy the above mentioned desks.

Would the Department authorize me to sell them to the above noted school at a price of One Dollar ($1.00) each, which is all they are worth in their present condition, and they are of no use to the Department. Kindly advise by airmail by return if possible, as they are anxious to get the desks as soon as they can.

I acknowledge receipt of your memorandum of the 9th instant, your file #136-2-5 (E.1), respecting proposed sale of 10 old broken and discarded school desks at Fisher River Indian Day School.

In this connection, I wish to advise that approval of Deputy Minister has been obtained to proceed with the sale due to remote area and purpose for which the desks are required.

Kindly advise this office when the sale has been consummated, giving full name of purchaser and also forward the cheque in favour of Receiver General of Canada in the amount of $10.00 in this instance.

The matter will then be reported to the Auditor General for audit of the transaction.

I beg to forward herewith a requisition for a Singer Sewing Machine, and two dozen sewing machine needles, for the Fisher River Indian Day School.

This machine will be used for the teaching of the girls in the art of dress making etc;.

As reported in a separate letter of this day's date, I recently opened an exhibition of the work of the pupils of this school, and they have been doing some excellent work, but they are handicapped by lack of a sewing machine somewhat. Both the teacher and the girl pupils show great interest in sewing and dress making, and I would strongly recommend the purchase of the above noted sewing machine for their use.

With reference to your letter of the 26th ultimo, file 7-E (136), it is not our general practice to supply a sewing machine at a day school, but in view of the information contained in the last paragraph of your letter, it has been decided to make an exception in this case.

Needless to say, we will expect that the machine will receive every possible attention and that it will be stored safely during the summer when the school is closed.

With reference to Mr. Lazenby's letter addressed to the Department, his file No. 7-E (136) dated June 14th regarding expenditure of $200.00 for repairs necessary on the front of the Fisher River Indian Day School building, and the building of a small porch over the rear door.

I did not suggest any amount to Mr. Lazenby but I consider $100.00 ample for this work. These repairs should be undertaken before this building is painted.

I beg to requisition for authority to secure a good furnaceman to inspect and report on the two large furnaces at the Fisher River Indian Day School as soon as possible, in order to arrive at what repairs are required, as these furnaces have been giving a good deal of trouble during the past winter, and smoking very badly. I am informed that there is a first class furnaceman at ARBORG, Manitoba, named Mr. Barney Goodman, who might be available for this inspection.

Mr. A.S.Davis, Regional Supervisor, was at this school this week, and recommended that this inspection be made.

Mr. P.G. Lazenby, Superintendent,
Indian Agency, Hodgson, Manitoba.

With reference to your letter of the 14th instant, regarding certain repairs required at the front of the Fisher River Day School, we have a letter from Regional Supervisor Davis in which he states that an expenditure of $100.00 should be sufficient to do the work required. We approve expenditure of the amount stated and an accountable advance for $50.00 will be forwarded.

With reference to reroofing the building, the Purchasing Branch is being requested to secure the asphalt shingles and the roofing nails.

It is noted that you request $250.00 as an accountable advance for labour. Are we to understand that the labour will not exceed $250.00?

With reference to your letter of the 12th instant, we will arrange to have Mr. Goodman inspect the furnaces at the Fisher River School and you can then let us know what repairs are necessary.

We trust that no heavy expenditure will be required. In view of the new roof and authorization being given for painting the Reguis Schools, the amount provided for repairs and improvements at the different schools in your Agency will be exhausted and it will not be possible to consider any further expenditure.

With reference to Mr. Philip Phelan's letter of the 19th instant, File 136-2-5 (L.1.), it is noted that an accountable advance of $50.00 is being forwarded for the repairs necessary to the front of the Fisher River School building. It is also noted that the Purchasing Branch is being requested to purchase the necessary asphalt shingles and roofing nails.

Replying to paragraph 3, I beg to say that the amount of $250.00 asked for as an accountable advance for labour to remove the old shingles, and put on the new, is an estimate only, and I cannot state definitely that the cost of the labour will not exceed this amount. However, this cost will of course be kept as low as possible consistent with good work.

From paragraph 4, it is understood that the Department is getting in touch with Mr. Goodman, in order to have the two furnaces inspected at this school.

Referring to the final paragraph, it is noted that it will not be possible to consider any further expenditure at this school. ould it not be possible to have the interior painted only, as it is in a very dirty condition, the ceilings and walls being blackened with smoke from the defective furnaces.

We have your letter of the 2nd instant regarding the condition of the interior of the Fisher River School.

We have recently been advised by the Indian Superintendent, Mr. Lazenby, that it is necessary to reshingle the building. This will involve an expenditure of $250.00 for labour, plus the cost of the materials. We also authorized an expenditure of approximately $100.00 recommended in your letter of June 15th.

Before incurring a further expenditure we will have to wait until we know exactly what the other expenditures already authorized will total
